

*Version 1.4 of
The Unofficial
Complete Rulebook for*

*STAR TREK*TM ASCENDANCY

Live Long and Prosper!

CONTENTS

The *Unofficial Complete Rulebook* contains the following:

I. ABOUT THESE RULES.....	6
1.1 Version and Copyright.....	6
1.2 The Game and Its Expansions	6
1.3 Using These Rules.....	6
1.3.1 Rules Changes.....	7
1.3.2 The Borg Rules Problems.....	7
1.3.3 The Solo & Two Player Games	7
1.3.4 Use of Cases.....	7
1.3.5 Use of Specific Words.....	7
1.3.6 Printing the Unofficial Complete Rulebook.....	7
2. GAME OVERVIEW.....	8
2.1 Number of Players.....	8
2.2 Playing Time.....	8
2.3 Winning the Game.....	9
2.3.1 Ascendancy Victory.....	9
2.3.2 Supremacy Victory	9
2.3.3 Vulcan Agenda Victory.....	9
2.3.4 Winning and Losing vs. Borg.....	9
2.3.5 Tied Victories.....	9
2.4 Starfleet Ethics.....	9
3. GAME COMPONENTS.....	10
3.1 Rulebooks.....	10
3.2 System Discs.....	10
3.2.1 System Disc Features.....	10
3.3 Space Lanes.....	10
3.4 Command Consoles.....	10
3.4.1 Faction Command Consoles.....	10
3.4.2 Borg Console Card & Cube Card	11
3.5 Cards	11
3.5.1 Turn Order Cards.....	11
3.5.2 Fleet Cards.....	11
3.5.3 Player Turn Summary Cards	11
3.5.4 Trade Agreement Cards.....	11
3.5.5 Advancement Cards	11
3.5.6 Vulcan Agenda Cards.....	11
3.5.7 Exploration Cards	11
3.5.8 Borg Tech Cards.....	11
3.5.9 Borg Command Cards	12
3.6 Playing Pieces	12
3.6.1 Ships.....	12
3.6.1.1 Borg Cubes.....	12
3.6.2 Fleet Markers.....	12
3.6.3 Control Nodes.....	12
3.6.3.1 Borg Spires.....	12
3.6.4 Starbase Models.....	12
3.6.5 Resource Nodes	13
3.6.5.1 Production Nodes.....	13
3.6.5.2 Research Nodes	13
3.6.5.3 Culture Nodes	13
3.6.6 Borg Assimilation Nodes.....	13
3.7 Tokens.....	14
3.7.1 Ascendancy Tokens	14
3.7.2 Warp Tokens.....	14
3.7.3 Command Tokens	15
3.7.4 Resource Tokens	15
3.7.5 Starbase Tokens	15
3.7.6 Andorian Tokens.....	15
3.7.7 Vulcan Tokens	15
3.7.8 Borg Activation Tokens.....	15
3.8 Dice.....	15
3.9 Other Play Aids.....	15
4. DEFINITIONS AND GLOSSARY.....	16
5. SETTING UP	18
5.1 Select Options	18
5.2 Determine Playing Area	18

5.2.1 Size of Playing Area.....	18
5.2.2 Limit of Playing Area.....	18
5.3 Set Up the Borg.....	18
5.3.1 No Borg.....	18
5.3.2 Some Borg.....	18
5.3.3 Delta Quadrant Probe.....	18
5.3.4 Delta Quadrant Connection.....	18
5.3.4.1 The Transwarp Hub.....	18
5.3.5 Borg Console and Cards	19
5.4 Set Up System Discs & Exploration Cards	19
5.4.1 System Disc Stack.....	19
5.4.2 Exploration Deck.....	19
5.5 Prepare Cards, Tokens and Dice.....	19
5.6 Select Factions	19
5.6.1 Placing Home Systems.....	19
5.6.2 Unused Home Systems	19
5.7 Player Set Up.....	20
5.7.1 Command Console	20
5.7.2 Command Tokens	20
5.7.3 Project Area	20
5.7.4 Advancements.....	20
5.7.5 Faction Component Supply.....	20
5.7.6 Home System	20
5.7.7 Starting Ships	20
5.8 Starting Level.....	21
5.8.1 Humble Beginnings	21
5.8.1.1 Starting Resources and Ascendancy.....	21
5.8.1.2 Starting Systems.....	21
5.8.1.3 Starting Advancements and Projects.....	21
5.8.1.4 Borg Start.....	21
5.8.1.5 Delayed Delta Quadrant Connection.....	21
5.8.1.6 First Round Exploration.....	21
5.8.2 Base Starting Resources.....	21
5.8.2.1 Starting Resources and Ascendancy.....	21
5.8.2.2 Starting Systems.....	21
5.8.2.3 Starting Advancements and Projects.....	21
5.8.2.4 Borg Start.....	21
5.8.2.5 Delayed Delta Quadrant Connection.....	21
5.8.2.6 First Round Exploration.....	21
5.8.3 Extra Starting Resources	22
5.8.3.1 Starting Resources and Ascendancy.....	22
5.8.3.2 Starting Systems.....	22
5.8.3.3 Starting Advancements and Projects.....	22
5.8.3.4 Borg Start.....	22
5.8.3.5 Delayed Delta Quadrant Connection.....	22
5.8.3.6 First Round Exploration.....	22
5.8.4 Medium Game.....	22
5.8.4.1 Starting Resources and Ascendancy.....	22
5.8.4.2 Starting Systems.....	22
5.8.4.3 Starting Advancements and Projects.....	22
5.8.4.4 Borg Start.....	22
5.8.4.5 Delayed Delta Quadrant Connection.....	22
5.8.4.6 First Round Exploration.....	22
5.8.5 Quick Game.....	22
5.8.5.1 Starting Resources and Ascendancy.....	22
5.8.5.2 Starting Systems.....	22
5.8.5.3 Starting Advancements and Projects.....	23
5.8.5.4 Borg Start.....	23
5.8.5.5 Delayed Delta Quadrant Connection.....	23
5.8.5.6 First Round Exploration.....	23
6. GAME ROUND SEQUENCE.....	23
6.1 Initiative Stage	23
6.1.1 Spending Resources for Turn Order	23
6.1.1.1 Types of Resources.....	23
6.1.1.2 Spending Sequence.....	23

6.1.2 Prepare the Turn Order Cards	23
6.1.3 Choosing Turn Order Cards	23
6.1.3.1 Revealing Turn Order	24
6.1.4 Random Turn Order	24
6.1.5 Borg Turn Order	24
6.2 Execution Stage.....	24
6.2.1 Building Phase.....	24
6.2.2 Command Phase.....	24
6.3 Recharge Stage.....	25
6.3.1 Victory Check.....	25
6.3.1.1 Extermination.....	25
6.3.2 Generate Resources	25
6.3.2.1 Resource Nodes	25
6.3.2.2 Trade Profits	25
6.3.2.3 Resources from Advancements.....	25
6.3.3 Maintenance.....	25
6.3.3.1 Refresh Cards & Tokens.....	25
6.3.3.2 Refresh Trade Agreements.....	25
6.3.3.3 Add Warp Tokens to Ships at Warp.....	25
6.3.3.4 Resupply Phenomena.....	26
7. BUILDING.....	26
7.1 Build Ships.....	26
7.1.1 Bonus Fleet Build	26
7.2 Colonize Systems	26
7.2.1 Taking Control of Warp Capable Civilizations	26
7.3 Build Resource Nodes.....	26
7.3.1 System Capacity.....	26
7.3.2 Open Capacity	26
7.4 Commit Research.....	27
7.5 Upgrading Weapons & Shields	27
7.6 End of Building Phase.....	27
8. MOVEMENT	27
8.1 Impulse Movement.....	27
8.2 Warp Movement.....	28
8.2.1 Entering Warp.....	28
8.2.2 Exiting Warp.....	28
8.2.3 Traveling at Warp.....	28
8.3 Entering Rival Territory.....	28
8.4 Hazardous Systems	28
8.4.1 Braving a Hazard	28
8.4.2 The Borg and Hazards	29
8.5 Transwarp Hub Travel.....	29
8.6 Building the Galaxy	29
8.6.1 Placing New Space Lanes.....	29
8.6.1.1 Maximum Number of Space Lanes	29
8.6.1.2 Space Lane Length	29
8.6.1.3 Placing a Space Lane	29
8.6.1.4 Crossing Space Lanes.....	29
8.6.1.5 Testing Connections.....	29
8.6.1.6 Abandoned Space Lanes	29
8.6.2 Placing New System Discs.....	30
8.6.2.1 Overlapping Systems.....	30
8.6.2.2 Placing New System Discs at Warp.....	30
8.6.2.3 Moving Into a Newly Placed System.....	30
8.6.3 Fixed vs Floating Systems.....	30
8.6.3.1 Fixed Systems.....	30
8.6.3.2 Floating Systems.....	30
8.6.3.3 Special Case.....	30
8.6.4 Swinging Floating Systems.....	30
8.6.4.1 Rival Ships and Nodes	31
8.6.4.2 Swinging Space Lanes	31
8.6.5 Making Connections	31
8.7 Discovering Planetary Systems	31
8.7.1 Hazardous Planetary Systems	31
8.7.2 Exploration Cards	31
8.8 Exploration Cards.....	31
8.8.1 Crisis.....	31
8.8.1.1 Destroyed Systems.....	32
8.8.2 Discovery	32
8.8.3 Allies.....	32
8.8.3.1 Diplomacy Tests	32
8.8.4 Virgin Worlds.....	32
8.8.5 Civilization.....	32
8.8.5.1 Pre-Warp Civilizations	32
8.8.5.2 Warp-Capable Civilizations.....	32

8.9 Discovering Phenomena	33
8.9.1 Hazardous Phenomena.....	33
8.10 Further Study of Phenomena.....	33
9. SPACE BATTLES.....	33
9.1 Scoring Hits.....	34
9.1.1 Hit Roll.....	34
9.1.1.1 Starbase Support in Space Battles.....	34
9.1.1.2 Pointless Battles	34
9.1.2 First Strike	34
9.2 Taking Casualties.....	34
9.3 Retreating from Combat	34
9.3.1 Retreat Distance.....	34
9.3.2 Blocked Retreats.....	35
9.4 Combat Continues.....	35
9.5 Winning a Space Battle.....	35
9.5.1 Tactical Manoeuvres	35
9.6 Battles in the Same Sector	35
9.7 Battles With More Than Two Players	35
9.7.1 Multiple Hostile Rivals.....	36
9.7.2 Multiple Hostile and Peaceful Rivals	36
9.7.3 Multiple Defender Retreat	36
9.8 Borg Cubes in Combat.....	36
9.8.1 Slow and Methodical.....	36
9.8.2 Borg Attack Dice	36
9.8.3 Borg Hit Rolls.....	36
9.8.3.1 Advanced Weaponry	36
9.8.3.2 Allocating Hits to Different Ships.....	36
9.8.3.3 Attacking Multiple Players.....	36
9.8.3.4 Borg Regeneration	36
9.8.4 Damaging Borg Cubes.....	36
9.8.5 Borg Adaptive Shields	36
9.8.6 Retreat from the Borg.....	37
9.8.7 Destroying a Borg Cube.....	37
10. INVASIONS	38
10.1 Scoring Hits.....	38
10.2 Taking Casualties.....	38
10.2.1 Successful Invasion.....	38
10.2.1.1 Capturing Research Nodes	38
10.2.1.2 Capturing Starbases	38
10.2.2 Collateral Damage	39
10.2.3 Total Annihilation	39
10.2.3.1 Starbases and Total Annihilation	39
10.2.4 Repelled Invasions	39
10.3 Retreating from Invasion	39
10.3.1 Surrender in Invasions.....	39
10.4 Combat Continues.....	39
10.5 Invading Uncontrolled Systems	39
10.6 Reclaiming Borg Worlds.....	39
10.6.1 No First Strike	39
10.6.2 Borg Planetary Shields.....	39
10.6.3 Borg and Collateral Damage.....	40
10.6.4 Success.....	40
11. HEGEMONY	40
11.1 Cost of Hegemony.....	40
11.2 Hegemony Resistance.....	40
11.2.1 Player Controlled System	40
11.2.2 Warp-Capable Civilizations	40
11.3 Making a Hegemony Attempt.....	40
11.3.4 Seizing Starbases and Research Nodes	41
12. FLEETS & STARBASES	41
12.1 Forming a Fleet.....	41
12.1.1 Fleet Type & Strength.....	41
12.1.2 Number of Fleets	41
12.1.3 Bonus Fleet Build.....	41
12.1.4 Adding & Removing Ships from Fleets.....	42
12.1.5 Disbanding a Fleet.....	42
12.1.6 Fleets in Space Battles.....	42
12.2 Starbases.....	42
12.2.1 Commission a Starbase.....	42
12.2.1.1 Maximum Number of Starbases	42
12.2.1.2 Placing Starbases	42
12.2.2 Starbases and Commands	42
12.2.3 Starbases in Combat and Hegemony	42
13. TRADE AGREEMENTS.....	43
13.1 Giving and Receiving Trade Agreements.....	43

13.1.1 Maximum Number of Trade Agreements.....	43
13.2 Peace.....	43
13.2.1 Unrestricted Trade Routes.....	43
13.2.2 Ally Cooperation.....	43
13.3 Revoking Trade Agreements.....	44
13.4 Betrayal.....	44
13.5 Exhausted Trade Agreements.....	44
13.6 Ferengi Trade Agreements.....	44
14. RESEARCH.....	44
14.1 Launching Projects.....	44
14.1.1 Maximum Number of Projects.....	45
14.1.2 Discarding Projects.....	45
14.1.3 Taking Advancements from Other Factions.....	45
14.2 Finishing Projects.....	45
14.3 Effects of Advancements.....	45
14.3.1 Warp Token Advancements.....	45
14.3.2 Command Token Advancements.....	45
14.3.3 Culture Token Advancements.....	45
14.3.4 Ferengi Espionage.....	45
14.3.5 Advancements and the Borg.....	45
14.4 Borg Tech Cards.....	45
14.4.1 Gaining Borg Tech.....	46
14.4.1.1 Maximum Number of Borg Tech Projects.....	46
14.4.2 Using Borg Tech.....	46
14.5 Exhausted Advancements.....	46
15. BORG TURN.....	47
15.1 Borg Building Phase.....	47
15.1.1 Transwarp Hub.....	47
15.1.2 Borg Worlds.....	47
15.2 Borg Command Phase.....	47
15.2.1 Determining Cube Order.....	47
15.2.1.1 No Assimilated Players.....	47
15.2.1.2 Assimilated Players.....	47
15.2.2 Activating Cubes.....	48
15.2.3 Engaging Player Ships.....	48
15.2.4 Executing Command Cards.....	48
15.2.4.1 Multiple Movement Commands.....	48
15.2.4.2 Nearest, Closest and Shortest Path.....	48
15.2.5 Assimilation.....	49
15.3 Borg Movement.....	49
15.3.1 Executing a Movement Command.....	49
15.3.1.1 Locate Target.....	49
15.3.1.2 Far Away Target.....	49
15.3.1.3 Reachable Target.....	49
15.3.1.4 Blocked Target.....	50
15.3.1.5 Cubes Exploring.....	50
15.3.1.6 Move to Another Sector to Explore.....	50
15.3.1.7 Move Adjacent to Rival Ship.....	50
15.3.1.8 Collective Efficiency.....	50
15.3.1.9 Placing Space Lane.....	50
15.3.1.10 Making a Connection.....	51
15.3.1.11 Placing New System.....	51
15.3.2 Unplaceable Space Lanes & Systems.....	52
15.3.3 Swinging Systems.....	52
15.3.4 Ties for Nearest/Closest/Minimum Amount.....	52
15.3.5 Determining a Random Direction.....	52
15.3.6 The Borg and Exploration Cards.....	52
15.4 Borg Assimilation.....	52
15.4.1 The Borg in Invasions.....	52
15.4.1.1 Allocating Borg Hits to Structures.....	52
15.4.2 Assimilating Starbases.....	53
15.4.3 Home System Assimilation.....	53
15.4.3.1 Assimilated Players.....	53
15.4.3.2 One with the Collective.....	53
15.4.3.3 Borg Turns.....	53
15.5 Borg Escalation.....	54
15.5.1 Borg Attack - Command - Attack.....	54
15.5.2 It Takes a Fleet.....	54
16. OPTIONAL RULES.....	54
16.1 Hard Game.....	54
16.1.1 Instant Delta Quadrant Connection.....	54
16.1.2 Closer Delta Quadrant Connection.....	54
16.1.3 Early Crises.....	54
16.1.4 Borg Attack - Command - Attack.....	54
16.1.5 It Takes a Fleet.....	54

16.1.6 Three Spires & You're Out.....	54
16.1.7 Limited Ships and Control Nodes.....	54
16.1.8 Epic Ascendancy.....	55
16.2 Quick Game.....	55
16.2.1 Simultaneous First Turns.....	55
16.2.2 Limited Ships and Control Nodes.....	55
16.2.3 Easier Ascension.....	55
16.2.4 Quicker Ascension.....	55
16.2.5 Starting Project.....	55
16.2.6 Starting Advancements.....	55
16.2.7 Wild Culture.....	55
16.3 Easy Game.....	55
16.3.1 Unstable Peace.....	55
16.3.2 Revoking Trade Agreements.....	55
16.3.3 Random Projects.....	55
16.3.4 Later Phenomena.....	55
16.3.5 Exploration Mulligan.....	56
16.3.6 Open Turn Order.....	56
16.3.7 Random Turn Order.....	56
16.4 Solo and Two Player Games.....	56
16.4.1 The Solo Game.....	56
16.4.1.1 Removed Cards.....	56
16.4.1.2 Modified Cards.....	56
16.4.1.3 Balancing the Solo Game.....	56
16.4.2 The Two Player Game.....	56
16.5 Other Options.....	56
16.5.1 Multi Faction Space Battles.....	56
16.5.2 More Interesting Exploration.....	57
16.5.3 More Space.....	57
16.5.4 Unlimited Ships & Control Nodes.....	57
APPENDIX I, SYSTEMS.....	58
APPENDIX II, EXPLORATION CARDS.....	60
APPENDIX III, THE FACTIONS.....	65
APPENDIX IV, ADVANCEMENTS.....	68
APPENDIX V, FLEETS.....	74
APPENDIX VI, BORG COMMANDS.....	76
APPENDIX VII, SET UP OPTIONS.....	77
APPENDIX VIII, COMPLETE COMPONENT LIST.....	86
APPENDIX IX, VERSION HISTORY.....	88
CREDITS.....	89

1. ABOUT THESE RULES

"Space: the final frontier.

These are the voyages of the starship Enterprise. Its five-year mission: to explore strange new worlds, to seek out new life and new civilizations, to boldly go where no man has gone before."

Star Trek: Ascendancy is a highly thematic and epic 4X (eXplore, eXpand, eXploit, and eXterminate) and negotiation game, but as with all games with lots of expansions the rules become spread out over several rulebooks and hard to keep track of. The Borg expansion adds a threatening adversary governed by automated mechanisms that can make all players lose, which complicates the diplomatic situation, but it has a lot of rules problems that need clarification before it actually works.

The purpose of the *Unofficial Complete Rulebook* is to collect all rules in one place while also adding information from FAQs and official answers posted to the BoardGameGeek site or received in emails from GaleForce Nine. It also tries to fill in the blanks where the official rules don't work or are incomplete or contradictory, by providing simple and community tested, rules specifically designed for the *Unofficial Complete Rulebook*.

1.1 VERSION AND COPYRIGHT

This is version 1.4 of the *Unofficial Complete Rulebook* for *Star Trek: Ascendancy*.

The original *Star Trek: Ascendancy* game was designed by Sean Sweigart and Aaron Dill and published by GaleForce Nine (GF9). This version of these rules were re-written, edited and updated by Mattias Elfström with help from Thomas Averdal, Davon Collins, Jim Everson, Lou Lessing and Martin Stegmark during 2017-2019 based on the original work and no permission to

publish them has been obtained. This is not to be seen as a challenge to their copyright, but rather as a service to the players of this great game. Earlier versions of these rules have also used the talents of Michael Doyle, Steve Framarin, John Knox, Barry Miller and C David Ross.

Special thanks to user Mundane on BoardGameGeek for allowing the use of his excellent collection of System trivia used in [Appendix I](#).

The *Unofficial Complete Rulebook* was playtested by Anders Andersson, Thomas Averdal, Michael Doyle, Jeanette Utell Elfström, Mattias Elfström, Rasmus Karlsson, Tuomas Loippo, Nicholas Madison, Emelie Nordh, Hans Sjögren and Martin Stegmark.

1.2 THE GAME AND ITS EXPANSIONS

The rules from the following games, expansions and supplements are worked into the *Unofficial Complete Rulebook*:

- ▲ *Star Trek: Ascendancy* (2016)
- ▲ *Cardassian Union Expansion Set* (2017)
- ▲ *Ferengi Alliance Expansion Set* (2017)
- ▲ *Borg Assimilation Expansion Set* (2017)

FAQ and errata from various sources (including the BoardGameGeek site and emails from GF9) have also been incorporated.

The Vulcan High Command and Andorian Empire expansions are expected to be released in October 2019 and will be fully worked into these rules at a later date.

1.3 USING THESE RULES

The *Unofficial Complete Rulebook* is intended for experienced players and no attempt has been made to arrange the rules for easy learning. The *Unofficial Complete Rulebook* should however serve as a handy reference for those who are already familiar with how the game works.

These rules were written with the assumption that all expansions are used at the same time (but the game can certainly be played even if you don't have access to all expansions) and that players have played the game several times. For this reason the Advanced Rules *Mystery Turn Order*, *Random Galaxy*, *Unrestricted Trade Routes*, *Humble Beginnings*, *Focused Research*¹ and *Ally Cooperation*² have been worked into the text. If you desire a simpler game refer to the optional rules [see rule

¹ These are the Advanced Rules from page 26 of the *Star Trek: Ascendancy* rulebook. The Advanced Rules truly let the game develop into the epic experience it is set up to be. *Mystery Turn Order* increases the tactical options players have when selecting Turn Order cards. *Random Galaxy* allows for a little more variation while exploring and increases the incentives to research Projects a little. *Unrestricted Trade Routes* puts a lot more emphasis on diplomacy and may be the Advanced Rule that is hardest for beginners to handle. Don't put yourself in a position where you can be betrayed! *Humble Beginnings* allow the game to develop at a pace that will make researching Projects more important while at the same time balancing the game through player interaction. This works well together with *Random Galaxy*. *Humble Beginnings* may be the most overlooked Advanced Rule and it is true that it may extend playing time somewhat. *Focused Research* allows players to customise their Faction abilities to the developing game situation.

² *Ally Cooperation* is an official optional rule published on BoardGameGeek (<https://boardgamegeek.com/article/23454675#23454675>).

16.], where you can find the base game rules presented as options, or use the original game rules.

1.3.1 Rules Changes

The *Unofficial Complete Rulebook* plays according to the official rules in most cases. In some cases official rules clarifications have been contradictory or created unneeded complication. In some instances there are no official rules to cover certain situations. Where new rules have been invented this is noted in the footnotes.

Note the following important, but sometimes subtle, differences between these rules and the original rules:

- A When Special Rules can be used [see rule 4.]
- A How the game can be started at different levels [see rule 5.8]
- A How attacks are allowed between the Hub and the Conduits [see rule 8.5]
- A How Battles with multiple Defenders are handled [see rule 9.7]
- A How Starbases can defend in Invasions [see rule 12.2.3]
- A How Hegemony doesn't count as an Attack [see rule 13.4]
- A How the Borg select Targets, move and explore when assigned a Command card [see rule 15.3]
- A How the Borg threat Escalates [see rule 15.5]

1.3.2 The Borg Rules Problems

The official Borg rules have severe problems that are partly unanswered as of this writing. The problems mostly concern how the Borg explore and build connections on the map (which is both unclear and often will make them target one player exclusively), but also how various other rules interact with the Borg. Until these issues have received official clarification the only way to play a competitive game without rules problems is to use house rules. In all instances throughout these rules where unofficial rules are introduced, this has been noted in the footnotes.

1.3.3 The Solo & Two Player Games

The *Star Trek: Ascendancy* game is first and foremost a negotiation game where many of the interesting decisions points appear in the interaction with the other players. The game is self balancing in the sense that players have to judge who is in the lead and act accordingly. In a solo [see rule 16.4.1] or two-player [see rule 16.4.2] game these aspects are removed and the game is turned into a tactical war game where resource growth will be dependent on random factors. In a solo or two player game the Borg is always in play from the start and will complicate the tactical situation.

1.3.4 Use of Cases

In the *Unofficial Complete Rulebook* the rules are numbered in rules cases. This allows for cross references throughout the rules and should make finding the relevant rules easier. If you are reading the *Unofficial Complete Rulebook* on your iPad the cross references are hyper-linked.

1.3.5 Use of Specific Words

In the *Unofficial Complete Rulebook* special care has been taken to use the defined words [see rule 4.] correctly. This means that the rules have been rephrased in numerous cases.

The words "die" and "dice" are not used the same way throughout the original rules and on the cards. In the *Unofficial Complete Rulebook* the word "die" denotes a single die (singular) while the word "dice" is used when several dice are involved (plural).

The word "turn" is used loosely throughout the original rules. In the *Unofficial Complete Rulebook* care has been taken to use the "Game Round", "Stage", "Phase" and "player or Borg turn" words to refer to the respective parts of the game sequence.

The word "Civilization" is only used to refer to the Independent Civilizations discovered while exploring. The player controlled civilizations are instead referred to as "Factions".

In many other cases the use of the defined words in rule 4. has been corrected and tightened up.

1.3.6 Printing the Unofficial Complete Rulebook

To facilitate printing the *Unofficial Complete Rulebook* is available in two versions; an A4 sized version and an ANSI Letter sized version.

The A4 version has been designed to be printed on A3 or A4 paper, four pages to a sheet, and then folded to create an A4 or A5 leaflet.

The *Unofficial Complete Rulebook* is also a joy to read on an iPad.

A version without the page backgrounds can be supplied to those wishing to save printer ink.

2. GAME OVERVIEW

Star Trek: Ascendancy is a big, Galaxy-spanning game that follows the arc of civilizations. Be prepared: this is a long game.

Setting up the game is straightforward. Each player selects a unique Faction from the *Star Trek* Universe and starts with their Home System, some Resource producing Nodes and a few Ships. At the beginning of the game, no Faction has made First Contact and the whole of the Galaxy is yet to be discovered. As you play, you'll discover strange new worlds, explore interstellar phenomena and uncover unknown civilizations.

Star Trek: Ascendancy is played in Game Rounds. Each Round is split into three Stages; the Initiative Stage, the Execution Stage and the Recharge Stage. During the Execution Stage, which is the main Stage of the game, each player gets to build Ships, Nodes, Fleets and Starbases, research Projects and explore the Galaxy while conducting hegemony and attacking or defending against Rivals.

The map grows as players discover new Star Systems and connect them with new Space Lanes

To complicate matters the Borg, who are not controlled by any player, are a threat to all the denizens of the Galaxy. Where

other civilizations may be open to negotiation, the Borg are single-mindedly dedicated to assimilating every civilization they encounter into the Collective. The Borg are not colonists or explorers. They are solely focused on absorbing any other civilization's biological and technological distinctiveness.

The Borg's weapons and shields are among the most advanced known to the Alpha Quadrant. Because the Borg's shields improve after each Combat Round, every battle against a Borg Cube is a race to destroy the Cube before it becomes invulnerable.

"Resistance is futile... You will be assimilated."

The most important activity in the game is the negotiation and deal making taking place between the players. This is also what provides game balance. While playing *Star Trek: Ascendancy* you are primarily playing your opponents, as opposed to playing the mechanisms of the game.

The game ends when one player accumulates five Ascendancy or conquers two Rival Home Systems. The game can also end if the Borg defeats all players.

2.1 NUMBER OF PLAYERS

Using the *Unofficial Complete Rulebook* *Star Trek: Ascendancy* can be played by three or more players. The maximum number of players is dependent on how many Factions are available. As of this writing there are five Factions, but the Andorians and Vulcans are expected to be released in October 2019 and more may be released by GF9 at a later date.

Optionally the game can also be played solo [see rule 16.4.1] or by two players [see rule 16.4.2], but note that this will remove the negotiation aspect and may provide a fairly random game.

2.2 PLAYING TIME

With experienced players, a game of *Star Trek: Ascendancy* will take about one to two hours per player plus up to another hour if you use the Borg. Your first few games will be longer.

Rule 16.2 includes options for playing the game in less time.

2.3 WINNING THE GAME

There are two different paths to winning the game. You can win the game by becoming the most ascendant civilization in the Galaxy or by militarily dominating your Rivals. The game can also be lost by all players to the Borg.

2.3.1 Ascendancy Victory

At the end of a Game Round, a player who both Controls their Home System and has five Ascendancy tokens wins the game. They have established their cultural dominance over the Galaxy.

Ascendancy tokens may be purchased any time on your turn, by paying five Culture tokens.

2.3.2 Supremacy Victory

At the end of a Game Round, if a single player Controls three Home Systems, one of which must be their own, that player has dominated the Galaxy and wins the game.

2.3.3 Vulcan Agenda Victory

This rule is expected to appear in the Vulcan expansion.

2.3.4 Winning and Losing vs. Borg

The Borg are not controlled by a player, but represent a threat to all the players. If, at any point, the Borg have five Spires in play and need to place a sixth, the Borg have defeated the players. The Borg have also conquered the Galaxy and all the players have lost if all players are Assimilated [see rule 15.4.3]. Civilization may survive in small pockets of futile resistance, but the Borg have become too strong to stop.

To win the game, a player needs to achieve an Ascendancy or Supremacy Victory while holding back the Borg threat. If there is only one player left who hasn't been Assimilated, they'll need to win before they are absorbed by the Collective!

2.3.5 Tied Victories

At the end of a Game Round, if two or more players have achieved Victory, through Ascendancy, Supremacy or Agenda, the player who Controls the most Systems wins. If it's still a tie, all tying civilizations have risen to greatness and the players share the victory.

2.4 STARFLEET ETHICS

Star Trek: Ascendancy is a competitive game, with every player trying to dominate, destroy and absorb their Rivals. Don't pull out your bat'leth when someone invades your homeworld - it's all in the spirit of the game.

Similarly, if your Faction is running roughshod over the Galaxy, try to maintain Picard-level aplomb as you become the Ascendant power in the Galaxy.

3. GAME COMPONENTS

The following is an overview of the different components available in the complete game. A list of all components (including all expansions and supplements) is found in [Appendix VIII](#).

3.1 RULEBOOKS

Although there are several rulebooks in the various expansions the *Unofficial Complete Rulebook* replaces them all and they should be ignored when playing with these rules.

3.2 SYSTEM DISCS

The game map is made up of round System discs [Connected](#) to other Systems via Space Lanes [see rule 3.3] of different lengths.

All System discs from all expansions are used irrespective of number of players, except [Home Systems](#) of [Factions](#) not in play.

Each System disc counts as one [Sector](#).

Refer to [Appendix I](#) for a list of all Systems.

3.2.1 System Disc Features

There are three types of System discs; Planets, Phenomena and the Transwarp Hub. All System discs have a maximum number of Space Lanes that may connect directly to it noted in the lower part of the disc.

Each Planetary System notes the name of the planet and its [Capacity](#) to hold [Resource Nodes](#), shown as coloured tabs next to the planet. All [Home Systems](#) are Planetary Systems.

Each Phenomenon has a name and a space for a Research token. Some Phenomena also have unique rules as noted on the disc.

Both Planets and Phenomena may be Hazardous. If they are, they have an alert symbol at the top of the disc.

3.3 SPACE LANES

The Space Lanes connect the System discs to form the game map. Each time a new Space Lane is placed, roll the Space Lane die to determine its length.

Space Lanes contain between two and four [Sectors](#).

3.4 COMMAND CONSOLES

Each [Faction](#) has its own unique Command Console.

3.4.1 Faction Command Consoles

The Command Consoles include each [Faction's](#) [Special Rules](#), track Weapon and Shield levels and have a place to put the [Reserve](#) of [Resource](#) tokens.

Cardassian Union Command Console

Federation Command Console

Ferengi Alliance Command Console

Klingon Empire Command Console

Romulan Star Empire Command Console

3.4.2 Borg Console Card & Cube Card

The Borg Console gives the rules for a Borg turn and tracks the Borg's Weapon levels. The Cube card is for when Borg Cubes engage in Space Battles and Planetary Invasions.

Borg Command Console & Cube Card

3.5 CARDS

Several different decks of cards are used in the game.

3.5.1 Turn Order Cards

Star Trek: Ascendancy comes with Turn Order cards marked "1" through "10". Each Game Round players compete for the initiative. Turn Order cards indicate order of play.

Turn Order cards are generally kept secret from Rivals until used. They are reused every Game Round and are never discarded [see rule 6.1].

3.5.2 Fleet Cards

Each Faction has three unique Fleet cards, often with Special Rules. Fleet cards hold groups of three or more Ships.

For a list of all Fleet cards see Appendix V.

Note: Some Fleet cards don't have the highlight to indicate the minimum Fleet size of three Ships. This has no bearing on the rules and should be ignored.³

3.5.3 Player Turn Summary Cards

Each Faction has their own Player Turn Summary card.

Note that some cards are different from others to reflect the Special Rules of that particular Faction.

3.5.4 Trade Agreement Cards

Each Faction has three Trade Agreement

cards they may give to the other players to represent peaceful commerce between their Factions. Each Trade Agreement you receive from another player increases your Resource generation each Game Round. See rule 6.3.2.2.

3.5.5 Advancement Cards

Advancement cards detail a variety of cultural and technological achievements which can be completed. Each Faction has a unique Advancement deck.

Discarded Advancement cards go back to the deck of the original owner.

For a list of all Advancement cards see Appendix IV.

3.5.6 Vulcan Agenda Cards

Vulcan Agenda cards are expected to appear in the Vulcan expansion.

3.5.7 Exploration Cards

As you explore the Galaxy, you'll encounter a wide variety of discoveries, crisis and strange new civilizations. When you discover a new Planetary System, draw an Exploration card to see what you've found.

All Exploration cards from all expansions are used at all player counts (except in a solo game [see rule 16.4.1.1]).

Discarded Exploration cards are placed in a face up discard pile, except for Ally cards [see rule 8.8.3], which are returned to the bottom of the deck, and the Writ of Accountability, which is reshuffled back into the deck (without reshuffling the discard pile).

For a list of all Exploration cards see Appendix II.

3.5.8 Borg Tech Cards

Players claim Borg Tech cards when they defeat the Borg in Combat. The more Borg technology you acquire, the better you will fare against the Borg. When discarding a Borg Tech card, place it at the bottom of the Borg Tech deck.

For a list of all Borg Tech cards see Appendix IV.

³ Although this was officially ruled differently in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), the rule was changed for the Unofficial Complete Rulebook in order to be consistent with earlier official rulings and the text on many Fleet cards.

3.5.8 Borg Command Cards

Borg Command cards direct the Cubes' movement during the Borg's turn and designate the type of System each Cube targets.

Discard used Command cards in a discard pile. Reshuffle the Borg Command cards when all have been used and the Borg need to draw more.⁴

When the Command deck is reshuffled the Borg will Escalate in accordance with rule 15.5.⁵

For a list of all Borg Command cards see Appendix VI.

3.6 PLAYING PIECES

There is a large number of plastic playing pieces available.

3.6.1 Ships

Each Faction has their own Starships (Ships for short) which explore the Galaxy, attack Rivals and defend their Systems.

Each player has a limited number of Ships they can have on the map at a time. Escalation Packs add Ships to the game. Make sure all players have the same amounts.

On your turn, if all your Ships are in play, you may choose to decommission Ships (but you may not decommission Ships in Fleets at Warp)⁶ in order to build new Ships.⁷

3.6.1.1 Borg Cubes

Monolithic, geometric monstrosities capable of defeating fleets of Ships, Borg Cubes are a force to be feared. They count as Ships.

Cubes still atop Spires [see rule 15.1.2] count as Structures but not as Ships.

3.6.2 Fleet Markers

Each Faction has three numbered Fleet markers.

When Ships are placed on a Fleet card the Fleet marker shows the Fleet's position on the map.

3.6.3 Control Nodes

Control Nodes are placed on a System's Planet to mark which Faction Controls the System.

Control Nodes count as both Nodes and Structures.

Each player has a limited number of Control Nodes they can have on the map at a time. Escalation Packs add Control Nodes to the game. Make sure all players have the same amounts.

On your turn, if all your Control Nodes are in play, you may choose to give up Control of one of your Systems in order to Colonise, Invade or Hegemonize a different System.⁸ If you do, place a number of Warp tokens on the System equal to the number of Resource Nodes (up to a maximum of four), marking the System as a level 1, 2, 3 or 4⁹ Independent Civilization.¹⁰

3.6.3.1 Borg Spires

Borg Spires mark Systems under Borg Control. Over the course of the game, Borg Spires will build new Borg Cubes.

Borg Spires count as Control Nodes and Structures.

3.6.4 Starbase Models

Starbases allow you to build Ships and Commission Fleets. Starbases also fight in Space Battles and Planetary Invasions¹¹ and make it more difficult for a Rival to attempt Hegemony. Each Starbase you Control also increases your Commands by one.

Starbases count as Structures.

Each Faction is limited to Commissioning three Starbases, and never more than the number of Ascendancy tokens they have; don't use both the models and Starbase tokens [see rule 3.7.5] at the same time.

⁴ This was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 15, 2019).

⁵ This rule was invented for the Unofficial Complete Rulebook.

⁶ This rule was invented for the Unofficial Complete Rulebook to cover a gap.

⁷ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23277249#23277249>).

⁸ This was partly officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23277249#23277249>).

⁹ The presence of level 4 Independent Civilizations was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019).

¹⁰ Although officially ruled differently in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this rule was changed for the Unofficial Complete Rulebook in order to provide consistency with earlier official rulings.

¹¹ This rule was changed for the Unofficial Complete Rulebook in order to provide consistency.

3.6.5 Resource Nodes

Resource Nodes are built on Planets and are used to generate Resources during the Recharge Stage [see rule 6.3]. The available Resource Node models are not intended as a limit to how many can be built.

All Resource Nodes count as Nodes and Structures.

3.6.5.1 Production Nodes

Production Nodes generate Production during the Recharge Stage.

3.6.5.2 Research Nodes

Research Nodes generate Research during the Recharge Stage.

3.6.5.3 Culture Nodes

Culture Nodes generate Culture during the Recharge Stage.

3.6.6 Borg Assimilation Nodes

Borg Assimilation Nodes are built around Spires. Built Nodes indicate how close the Spire is to completing a new Borg Cube and track that Borg World's current Shield Modifier.

Borg Assimilation Nodes count as Nodes and Structures.

Borg Assimilation Nodes also have a dual use to track the current Shield Modifier on the Borg Cube card during Combat.

3.7 TOKENS

3.7.1 Ascendancy Tokens

Ascendancy tokens track how dominant each **Faction** is. The first player to achieve five Ascendancy wins the game [see rule 2.3]. The number of Ascendancy tokens a player has also limits the number of Fleets and Starbases they can have in play.

Ascendancy tokens should be placed so that all players can see how many each player currently has.

3.7.2 Warp Tokens

Warp tokens indicate how far your Ships can travel at Warp and indicate where your Ships entered Warp.

They also have a dual use to indicate the level of Warp-Capable Civilizations [see rule 8.8.5.2].

The counter mix is not intended as a limit to how many Warp tokens can be in play at the same time.

Tip: Warp tokens can also be used to remind players how many connections are left to be filled on a System disc [see the footnote to rule 8.6.1.1].

3.7.3 Command Tokens

Command tokens indicate how many orders you may issue on your turn.

Command tokens are double sided. The Exhausted side indicates that the Command has been used this Game Round and can not be used until Refreshed during the Recharge Stage.

Starbases you Control increase your available Commands by one each. Completing an Advancement which pictures a Command token also increases your available Commands by one.

Any time you gain a new Command, it starts play Exhausted and will be Refreshed at the end of the Game Round.

3.7.4 Resource Tokens

The Resource tokens are used to indicate how much each Faction has generated of each Resource type; Culture, Production and Research.

Each Faction keeps their Reserve of Resource tokens openly on their Command Console.

Resource tokens are also used to mark Pre-Warp Civilizations on the map [see rule 8.8.5.1].

The counter mix is not intended as a limit to how many Resource tokens can be in play at the same time.¹²

3.7.5 Starbase Tokens

The Starbase tokens represent the same thing as the models in rule 3.6.4.

Each Faction is limited to Commissioning three Starbases; don't use both the models and tokens at the same time.

3.7.6 Andorian Tokens

Andorian tokens are expected to appear in the Andorian expansion.

3.7.7 Vulcan Tokens

Vulcan tokens are expected to appear in the Vulcan expansion.

3.7.8 Borg Activation Tokens

The Borg Activation tokens are used to mark Borg Cubes that have been Activated during the Borg turn.

They also have a dual use to indicate the delay before the Transwarp Hub starts to generate Borg Cubes [see rule 5.8.1.5]. When used like this they are referred to as Delay tokens.¹³

3.8 DICE

The Space Lane die is used to determine the length of a new Space Lane.¹⁴

The standard dice and Faction specific dice are used in Combat, Hegemony and various other tests.

The Borg dice are used by Borg Cubes in Combat.

3.9 OTHER PLAY AIDS

Other useful play aids include the Faction specific player screens (downloadable from BoardGameGeek) that have a picture of the Faction species on one side and reminders about Game Round sequence and Advancements on the other.

¹² Note that in a full game the Production tokens tend to run out. Use any convenient substitute.

¹³ This rule was invented for the Unofficial Complete Rulebook.

¹⁴ Tip: The Space Lane die can be substituted with a standard die if needed. If so, a roll of 1 or 2 generates a 2-length Space Lane, a roll of 3 or 4 a 3-length and a roll of 5 or 6 a 4-length.

4. DEFINITIONS AND GLOSSARY

The following words are used throughout the rules and on the cards to refer to specific game functions. They should be thoroughly understood since many rules rely on their precise implementation. When they appear in the rules they are Capitalized, underscored and hyper-linked to their definition (except when they appear in titles, lists, examples or footnotes).

Adjacent: Sectors right next to each other are Adjacent. Space Battles usually, but not always, takes place between Adjacent Sectors.

Capacity: The potential of a Planetary System to hold Resource Nodes. Planetary Systems can generally hold one or more Resource Nodes.¹⁵

Combat: Combat refers to both Space Battles between Ships and Planetary Invasions.¹⁶

Combat Round: Space Battles and Invasions are fought over a number of Combat Rounds where you score Hits and take Casualties and may surrender (only in Invasions) or Retreat.¹⁷

Connected: Systems are considered Connected when they are joined by a contiguous series of Adjacent Sectors through Systems and Space Lanes.

Note that the Transwarp Conduits may create "virtual" Connections (since they are considered Adjacent to the Transwarp Hub).

Also note that the word "connected" (without capital letter and not underscored) is frequently used to refer to the direct "connection" between Adjacent Sectors of a System and an attached Space Lane.¹⁸

Control: Control Nodes mark who Controls a System. Control of a System is gained through Colonisation, Invasion or Hegemony. A Starbase is Controlled if the System the Starbase is in is Controlled. Phenomena and Space Lane Sectors are never Controlled.¹⁹

Developed: A Planetary System is Developed when it contains one or more Nodes. A System with no Nodes is considered Undeveloped. Starbases are not Nodes.

Systems with a Borg Spire do not count as "Developed Systems" when determining where to move a Borg Cube [see rule 15.3].

Exhausted: Cards or tokens that are face-down are Exhausted. Exhausted cards and tokens can not be used until they are Refreshed (flipped face-up). When a card is Exhausted, it is temporarily out of the game until it is Refreshed in the Recharge Stage at the end of the Game Round. Exhausted cards can not be used in any way; Exhausted Advancements don't increase the Warp distance of your Ships, Exhausted Trade Agreements may not be revoked, discarded, traded, etc. You are also no longer at Peace with someone whose Trade Agreement you hold while it is Exhausted.²⁰

Faction: A Faction is one of the player controlled civilizations; Cardassians, Federation, Ferengi, Klingons or Romulans. Each Faction is associated with a Command Console, a deck of Advancements, a set of Fleets, a set of Trade Agreements and a set of coloured playing pieces. The Borg are not a Faction.²¹

First Contact: A Faction is considered to have made First Contact once their Home System is Connected to another player's Home System via Space Lanes and Systems. Once a Faction's Home System is Connected to any Borg Cube or World, that Faction is also considered to have made First Contact and may start bidding for turn order.

¹⁵ This rule was clarified for the Unofficial Complete Rulebook.

¹⁶ This rule was invented for the Unofficial Complete Rulebook. It was not completely clear in the original rules what applied to Space Battles, what applied to Invasions and what applied to both.

¹⁷ This rule was clarified for the Unofficial Complete Rulebook. The original rules used various wordings.

¹⁸ This rule was invented for the Unofficial Complete Rulebook. It was not completely clear in the original rules when they referred to a direct connection between Adjacent Sectors and when they referred to a more general connection between Systems separated by other Systems and Space Lanes.

¹⁹ This rule was clarified for the Unofficial Complete Rulebook. The original rules didn't mention what could not be Controlled.

²⁰ Although officially ruled differently in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 17. 2019), this rule was changed for the Unofficial Complete Rulebook to allow for more interesting use of certain Advancements.

²¹ The Faction term is used in some expansions and was implemented in the Unofficial Complete Rulebook to have a specific term for the player civilizations.

Game Round: *Star Trek: Ascendancy* is played in a series of Game Rounds. Each Game Round consists of three Stages: Initiative, Execution and Recharge.

Home System: The System with which a Faction begins the game. You may build Ships and Commission Fleets in your own Home System, whether or not there is a Starbase there. This is not true of a Rival's Home System, if you take Control of it.

Systems with a Borg Spire do not count as "Home Systems" when determining where to move a Borg Cube [see rule 15.3].²²

Hostile: Rivals and their Ships are considered Hostile when you don't hold one of their Trade Agreements (or if the Trade Agreement you hold is Exhausted). The Borg are always Hostile to all Factions.²³

Node: A Structure built on a Planet's surface. This includes Resource Nodes, Control Nodes and Borg Assimilation Nodes. Starbases and Borg Cubes atop Borg Spires are not Nodes.²⁴

Occupy: A Sector is Occupied by a Faction or the Borg if no other Rival has Ships in that Sector.²⁵

Orbit: Any Ship present in a Planetary System is in Orbit; whether or not the System contains other players' Ships.

Peace/Peaceful: You are at Peace with any Rival whose Trade Agreement you hold (unless the Trade Agreement you hold is Exhausted) and their Ships are considered Peaceful.

Project: An Advancement card that is not yet completed. During each player's Building Phase, they may add one Research token to each of their Projects. Each Faction has a unique deck of Advancement cards containing a variety of technological and civil achievements.

Refresh: When you Refresh a card or token you flip an Exhausted (face-down) game piece face up.

Reroll: Some rules allow you to roll a die again. You may not use a rule to Reroll the same die multiple times. If you have multiple rules that allow you to Reroll dice, you may use different rules to Reroll the same die multiple times, but only once per rule.

Reserves: The Resources a Faction holds on its Command Console but have not yet spent.

Resources: Production, Research and Culture are Resources. Ships, Fleets, Nodes, Starbases, Command tokens, Warp tokens and Ascendancy tokens are not Resources.

Rival: All Factions and the Borg are all each other's Rivals.²⁶

Sector: Any spot on the map in which a Ship can be placed. A System disc counts as a single Sector; Space Lanes are divided into 2, 3, or 4 separate Sectors.

Special Rules: Special Rules may appear on Command Consoles, Fleet cards, Advancement cards and other cards. They often provide a benefit or limitation that is only useable by the owning Faction and/or under special circumstances. Special Rules generally override other game rules when there is a conflict.

Some cards' Special Rules will instruct you to Exhaust the card itself. To Exhaust a card, flip the card face down. Abilities that require you to Exhaust the card can only be used once per Game Round. Exhausted cards are Refreshed at the end of each Game Round, during the Recharge Stage.

Some Special Rules on Advancements or Command Consoles may require you to Exhaust a Command to use the Special Rule. Special Rules requiring the use of a Command may be used multiple times, but only during the user's turn.

When Special Rules are usable should be obvious from the card. Unless they need Commands or say otherwise, Special Rules are generally always in effect.²⁷

Structure: Each physical item built in a System is considered a Structure. Resource Nodes, Control Nodes, Borg Assimilation Nodes, Borg Cubes atop Borg Spires and Starbases are all Structures.²⁸

Supply: The shared Resource Nodes and tokens in the box that have not been built or earned by the players. The Supply is considered to be unlimited.

Target: A Target is a Sector with (or a Sector Adjacent to) a Borg World, Rival Ship or Fleet, Developed System, Starbase or Home System as indicated by a Borg Movement Command card. [see rule 15.3.1].

Undeveloped: A Planetary System with no Nodes is considered Undeveloped. Starbases are not Nodes.

²² This rule was clarified for the Unofficial Complete Rulebook.

²³ This rule was clarified for the Unofficial Complete Rulebook. The original rules didn't account for the Borg.

²⁴ This rule was clarified for the Unofficial Complete Rulebook. The original rules didn't account for the Borg.

²⁵ This rule was clarified for the Unofficial Complete Rulebook. The original rules didn't account for the Borg.

²⁶ This rule was invented for the Unofficial Complete Rulebook. The word Rival was used in the original rules, but never defined.

²⁷ Although officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this rule was both clarified and changed for the Unofficial Complete Rulebook. The official rule made no sense in combination with many Special Rules.

²⁸ This rule was clarified for the Unofficial Complete Rulebook. The original rules didn't account for the Borg.

5. GETTING UP

"It's not safe out here. It's wondrous, with treasures to satiate desires both subtle and gross. But it's not for the timid."—Q

The *Unofficial Complete Rulebook* uses a flexible set up for *Star Trek: Ascendancy*. This set up can be further modified by using the optional rules collected in section 16.

The game is set up according to the following sequence.

Setup Sequence:

- 1) Select Options [5.1]
- 2) Determine Playing Area [5.2]
- 3) Set Up the Borg [5.3]
- 4) Set Up System Discs & Exploration Cards [5.4]
- 5) Prepare Cards, Tokens and Dice [5.5]
- 6) Select Factions [5.6]
- 7) Player Set Up [5.7]
- 8) Starting Level [5.8]

5.1 SELECT OPTIONS

Star Trek: Ascendancy can be played with various optional rules.

When playing with the *Unofficial Complete Rulebook* all original Advanced Rules are in play by default and the rules are written with that assumption. Some of the optional rules may change this in order to create a simpler or more challenging game or to adapt the playing time.

Determine which optional rules (if any) will be in play before the game starts.

See rule 16 for a collection of optional rules.

5.2 DETERMINE PLAYING AREA

Star Trek: Ascendancy uses an organic, growing map that can be played on any shape of table.

5.2.1 Size of Playing Area

Before the game begins, decide the borders of the playing area. A 40" (about 100 cm) circular or a 36" (about 90 cm) square (the size of the official play mat) Playing Area works well for games with up to seven players.

Note: If you don't have a 36-40" Playing Area available the size of the Playing Area can be shrunk or adapted, but games with high player counts may be chaotic.

If you have more than 40" available you may want to add a little space behind each Home System to allow for a "safe zone". Don't overdo it though - up to about 5" is acceptable.

5.2.2 Limit of Playing Area

During the game no map elements (Systems and Space Lanes) may be placed outside the designated Playing Area.

If this means a Space Lane or System can't be placed, the moving Ship immediately ends its movement where it is. It may be issued another Command to move again.²⁹

5.3 SET UP THE BORG

The Borg have a high impact on the game. The *Unofficial Complete Rulebook* allows for four different levels of Borg involvement.

5.3.1 No Borg

Playing the game without any chance of the Borg appearing will provide a shorter game.

Remove the Borg Exploration, Command and Tech Cards as well as the three Borg System discs (the Transwarp Hub and the two Transwarp Conduits) from the game.

5.3.2 Some Borg

Playing the game with some Borg will make the Borg threat lesser and they may not appear at all. Depending on which cards and Systems are drawn the game may be shortened.

Remove the 10 red Borg Exploration cards and the 5 red Borg Command cards as well as the Transwarp Hub System disc from the game. Shuffle the two Transwarp Conduits in with the main stack of other System discs.

5.3.3 Delta Quadrant Probe

Playing the game with the Delta Quadrant Probe will likely provide a Borg threat. Depending on which cards and Systems are drawn 30-60 minutes of game time may be added.

Shuffle the Transwarp Hub and the two Transwarp Conduits in with the main stack of other System discs. Use all Borg Command and Exploration cards.

5.3.4 Delta Quadrant Connection

Playing the game with the Delta Quadrant Connection ensures a dangerous Borg threat. This will likely add about 60 minutes of game time.

Place the Transwarp Hub System disc in the centre of the Playing Area. Shuffle the two Transwarp Conduits in with the main stack of other System discs. Use all Borg Command and Exploration cards.

5.3.4.1 The Transwarp Hub

The Transwarp Hub is considered to be a Fixed System [see rule 8.6.3.1] when in play from the start of the game.³⁰

²⁹ This rule was invented for the *Unofficial Complete Rulebook*.

³⁰ This was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018). It stops players from swinging the Transwarp Hub away from their own part of the galaxy in a gamey fashion.

5.3.5 Borg Console and Cards

Unless playing with no Borg, thoroughly shuffle the decks of Borg Command cards and Borg Tech cards and place them backside up next to the Playing Area.

Place the Borg Command Console and Cube card somewhere on the table where everyone can see them.

5.4 SET UP SYSTEM DISCS & EXPLORATION CARDS

The stack of System discs and the Exploration card deck are prepared as outlined below.

5.4.1 System Disc Stack

Put the Home System discs to the side and mix all other System discs (including any Borg Systems in use), backside up, into a System disc stack.³¹

5.4.2 Exploration Deck

Mix all Exploration cards (including any Borg Exploration cards in use), backside up, into an Exploration deck.³²

5.5 PREPARE CARDS, TOKENS AND DICE

Put Turn Order card "10" to the side but use all other Turn Order cards as described later [see rule 6.1.2].³³

Place the Space Lane die, all of the general game pieces, tokens and other counters in piles that everyone can reach near the Playing Area.

The Faction specific dice are distributed to the players after Factions have been selected.

5.6 SELECT FACTIONS

The Factions and their relative starting positions can be selected in any mutually agreed way. If you want you can use the Turn Order cards to randomly determine in what order Factions are selected.

Each Faction has their own Special Rules on their Command Consoles. These Special Rules, together with the unique Fleets and Advancement decks, make each Faction play differently from each other. Make sure you understand how these abilities interact before selecting your Faction.

Refer to Appendix III for a list of all Factions and their abilities.

5.6.1 Placing Home Systems

Place the Home System discs in the Playing Area. Home Systems should generally be placed 18" (about 45 cm)³⁴ away from the Transwarp Hub (if it starts in play) and spaced out as evenly as possible around the perimeter of the Playing Area.³⁵

Depending on the size of the Playing Area, the number of players and if the Borg are in play, Home Systems may end up with varying distances between them. Suggestions for System set ups are collected in Appendix VII.

5.6.2 Unused Home Systems

Remove all unused Home System discs, they will not be used in the game.

³¹ This rule modifies the base game System disc set up together with the rule for Starting Level. This rule is also in accordance with the Random Galaxy Advanced Rule, where Phenomena may be found from the start.

³² This rule was changed for this version of the Unofficial Complete Rulebook to simplify set up. The safety net of a modified deck for early draws of previous versions is instead handled by the Start Level rules.

³³ This rule was invented for the Unofficial Complete Rulebook. Turn Order card "10" may be activated by the Command: Resurgence Borg Command card.

³⁴ Tip: The base game box is about 18" long.

³⁵ This rule was invented for the Unofficial Complete Rulebook, but follows the official rules fairly closely.

1. Command Console with sliders, 2. Command tokens, 3. Project Area with Advancement deck, 4. Advancement Area with Starting Advancement, 5. Player Turn Summary card, 6. Fleet cards, 7. Supply of Control Nodes, Ships and Starbases

5.7 PLAYER SET UP

Depending on the size and shape of your game table, you may need to layout your player area differently. Make sure your Advancement Area and Project Area are distinct from each other.

5.7.1 Command Console

Each player takes a Command Console for the Faction they're playing. Command Consoles track Weapon and Shield Levels. Your Weapons start at a Hit Roll of 5+, your Shield Modifier starts at 0. The Command Console has spaces for your Resource token Reserves. Each Command Console also contains the Special Rules that apply to that Faction.

5.7.2 Command Tokens

Each player starts with five Command tokens (plus any from Starting Advancements). Command tokens should be placed face up where all players can see them.

5.7.3 Project Area

New Projects are placed face up to the left of the Command Console and separate from active Advancements. When the game starts if a Project is available or not will depend on the Starting Level [see rule 5.8].

5.7.4 Advancements

Each Faction begins with one (or more, depending on Starting Level [see rule 5.8]) completed Advancement, marked "Starting Advancement" on the card. Over the course of the game, players will complete additional Advancements.

Place the Starting Advancement below the Command Console and apart from your Project Area.

5.7.5 Faction Component Supply

Give each player all the components associated with their Faction: 45 Ships, 3 Fleet Markers, 3 Fleet cards, 3 Starbase models, 3 Trade Agreements, 15 Advancement cards (including the Starting Advancement), 15 Control Nodes and their Faction's Player Turn Reference card.³⁶

5.7.6 Home System

Each player's Home System starts fully Developed with one of each Resource Node and one of their Control Nodes.

The Romulan Home System, set up with Ships & Nodes

5.7.7 Starting Ships

Each player starts with three Ships on their Home System.

³⁶ This rule was clarified for the Unofficial Complete Rulebook and assumes you have an Escalation Pack and a set of Starbase models for each Faction.

5.8 STARTING LEVEL

Star Trek: Ascendancy is an epic game that can take a long time to finish. For players wanting to have a shorter game, but still allow a smooth development of the game situation, the following Starting Levels are offered:³⁷

5.8.1 Humble Beginnings

This is the default Starting Level for games using the *Unofficial Complete Rulebook*. The game will run 60-120 minutes per player plus 0 to 60 minutes depending on Borg involvement.

5.8.1.1 Starting Resources and Ascendancy

Each player starts with no Resources and no Ascendancy.³⁸

5.8.1.2 Starting Systems

Players start with only their Home System.

5.8.1.3 Starting Advancements and Projects

Players start with only their Starting Advancement.

5.8.1.4 Borg Start

The Borg start according to rule 5.3.

5.8.1.5 Delayed Delta Quadrant Connection

If playing with the Delta Quadrant Connection [see rule 5.3.4], place three Borg Delay tokens on the Transwarp Hub. As long as there is at least one token left on the Hub don't roll for the Hub to generate a Borg Cube during the Borg Building Phase [see rule 15.1.1].

Remove one Borg Delay token from the Transwarp Hub during each Borg turn.³⁹

5.8.1.6 First Round Exploration

If playing with any Borg involvement and to ensure that the Borg threat doesn't increase too quickly, if the Transwarp Hub or any of the two Borg Transwarp Conduit System discs are drawn during exploration in the first Game Round, replace them with another disc and mix them back into the stack.⁴⁰

If any of the Borg Crisis, Borg Civilization (but not the three Borg Discoveries) or any of the general Crisis Exploration cards are drawn during exploration in the first Game Round, they are discarded without effect and a new Exploration card is drawn (Exception: drawn Exploration cards that aren't acted upon in the first Game Round aren't discarded).⁴¹

5.8.2 Base Starting Resources

This Starting Level will not affect playing time to any great extent. The game will run 60-120 minutes per player plus 0 to 60 minutes depending on Borg involvement.

5.8.2.1 Starting Resources and Ascendancy

Each player starts with 3 Production, 3 Research, 3 Culture and 1 Ascendancy.⁴²

5.8.2.2 Starting Systems

Players start with only their Home System.

5.8.2.3 Starting Advancements and Projects

Players start with only their Starting Advancement.

5.8.2.4 Borg Start

The Borg start according to rule 5.3.

5.8.2.5 Delayed Delta Quadrant Connection

If the Transwarp Hub is in play, no Delay tokens are placed on it.

5.8.2.6 First Round Exploration

Both the Transwarp Hub and any of the two Borg Transwarp Conduit System discs may be drawn during first Game Round exploration (if in play).

³⁷ Although the *Unofficial Complete Rulebook* is set up to play the game using the Humble Beginnings Advanced rule from the original rulebook, and this is highly recommended, the Starting Level rules acknowledge that many players want to play a shorter game. The Starting Level rules attempt to balance the game better than the Accelerated rules from the base game manage.

³⁸ This is in accordance with the original Humble Beginnings Advanced Rule.

³⁹ This rule was invented for the *Unofficial Complete Rulebook*. It creates a three turn delay of Borg entry into the game. This will allow players to consolidate their positions a little before they risk assimilation. If you have less than 18" between the Transwarp Hub and the Home Worlds you may want to add more Delay tokens.

⁴⁰ This rule was invented for the *Unofficial Complete Rulebook*. It makes sure the Borg will not immediately find short routes to the players' Home Systems. This rule is also in accordance with the Random Galaxy Advanced Rule, where Phenomena may be found from the start.

⁴¹ This rule was invented for the *Unofficial Complete Rulebook* to balance early exploration. It makes sure no unlucky draws at the start of the game completely eliminates a player or puts a Borg Cube on their doorstep before they have any means of defending themselves.

⁴² This is the base game rule for starting Resources and Ascendancy.

Any of the general Crisis, Borg Crisis or Borg Civilization Exploration cards may be drawn during first Game Round exploration (if in play).

5.8.3 Extra Starting Resources

This Starting Level will not affect playing time to any great extent. The game will run 60-120 minutes per player plus 0 to 60 minutes depending on Borg involvement.

5.8.3.1 Starting Resources and Ascendancy

Each player starts with 8 Production, 6 Research, 4 Culture and 1 Ascendancy.⁴³

5.8.3.2 Starting Systems

Players start with only their Home System.

5.8.3.3 Starting Advancements and Projects

Players start with only their Starting Advancement.

5.8.3.4 Borg Start

The Borg start according to rule 5.3.

5.8.3.5 Delayed Delta Quadrant Connection

If the Transwarp Hub is in play, no Delay tokens are placed on it.

5.8.3.6 First Round Exploration

Both the Transwarp Hub and any of the two Borg Transwarp Conduit System discs may be drawn during first Game Round exploration (if in play).

Any of the general Crisis, Borg Crisis or Borg Civilization Exploration cards may be drawn during first Game Round exploration (if in play).

5.8.4 Medium Game

The medium game simulates a game that starts a few Game Rounds in. A medium game will run 45-90 minutes per player plus 0 to 60 minutes depending on Borg involvement.⁴⁴

5.8.4.1 Starting Resources and Ascendancy

Each player starts with 3 Production, 3 Research, 3 Culture and 1 Ascendancy.

5.8.4.2 Starting Systems

Give each player three random System discs (but never the Transwarp Hub or any of the Transwarp Conduits) that they connect directly to their Home System, rolling for each Space Lane.

Systems may be placed downside up until all players have committed their placements.

Each Planetary System is fully Developed and gets a Control Node. Each Phenomenon comes with a Research token. Place one Ship in each System.

5.8.4.3 Starting Advancements and Projects

Each player may select one additional Advancement that is placed in the Advancement Area available for use.

5.8.4.4 Borg Start

The Borg start according to rule 5.3.

5.8.4.5 Delayed Delta Quadrant Connection

If the Transwarp Hub is in play, no Delay tokens are placed on it.

5.8.4.6 First Round Exploration

Both the Transwarp Hub and any of the two Borg Transwarp Conduit System discs may be drawn during first Game Round exploration (if in play).

Any of the general Crisis, Borg Crisis or Borg Civilization Exploration cards may be drawn during first Game Round exploration (if in play).

5.8.5 Quick Game

The quick game simulates a game that starts several Game Rounds in. A quick game will run 35-60 minutes per player plus 0 to 60 minutes depending on Borg involvement.⁴⁵

5.8.5.1 Starting Resources and Ascendancy

Each player starts with 8 Production, 6 Research, 4 Culture and 1 Ascendancy.

5.8.5.2 Starting Systems

Give each player three random System discs (but never the Transwarp Hub or any of the Transwarp Conduits) that they connect directly to their Home System, rolling for each Space Lane.

Then give each player two additional random System discs (but never the Transwarp Hub or any of the Transwarp Conduits) that they connect directly to their Home System or to any of the other Systems already placed (but not to each other), rolling for each Space Lane.

⁴³ This is the base game rule for Extra Starting Resources.

⁴⁴ The Medium Game rule was invented for the Unofficial Complete Rulebook.

⁴⁵ The Quick Game rule was invented for the Unofficial Complete Rulebook.

Systems may be placed downside up until all players have committed their placements.

Each Planetary System is fully **Developed** and gets a **Control Node**. Each Phenomenon comes with a Research token. Place one Ship in each System.

5.8.5.3 Starting Advancements and Projects

Each player may select one additional Advancement that is placed in the Advancement Area available for use and one Advancement that is placed in the Project area.

5.8.5.4 Borg Start

The Borg start according to rule 5.3.

In addition, if the Transwarp Hub is in play, place a Borg Cube in it and connect a random System to it using the Space Lane die.

5.8.5.5 Delayed Delta Quadrant Connection

If the Transwarp Hub is in play, no Delay tokens are placed on it.

5.8.5.6 First Round Exploration

Both the Transwarp Hub and any of the two Borg Transwarp Conduit System discs may be drawn during first **Game Round** exploration (if in play).

Any of the general Crisis, Borg Crisis or Borg Civilization Exploration cards may be drawn during first **Game Round** exploration (if in play).

6. GAME ROUND SEQUENCE

Each **Game Round** of *Star Trek: Ascendancy* is split into three Stages, the Initiative Stage, Execution Stage and the Recharge Stage.

Game Round:

- I) Initiative Stage [6.1]
 - 1) Spend Resources
 - 2) Choose Turn Order
 - 3) Distribute random Turn Order
- II) Execution Stage [6.2]

In Turn Order, each player (and the Borg) carries out:

 - 1) Building Phase
 - 2) Command Phase
- III) Recharge Stage [6.3]
 - 1) Victory Check
 - 2) Generate Resources
 - 3) Maintenance

In the Initiative Stage Turn Order is determined. During the Execution Stage both players and the Borg get to build, move, explore and attack. At the end of each **Game Round** is a Recharge Stage where **Resources** are generated and maintenance is carried out. The game ends when either the players are defeated by the Borg or one of the players wins an Ascendancy or Supremacy victory.

6.1 INITIATIVE STAGE

Players spend **Resources** to influence galactic politics and seize the initiative each **Game Round**. The player who spends the most **Resources** gets their pick of the Turn Order cards for the upcoming **Game Round**. Players may only spend **Resources** if they have made **First Contact**.

6.1.1 Spending Resources for Turn Order

Every player who has made **First Contact** has to decide how many **Resources** they are going to commit to seizing the initiative in galactic politics. Players will then choose their Turn Order cards in the order of how many **Resources** they've devoted.

6.1.1.1 Types of Resources

Any type of **Resource**; Production, Research or Culture may be spent to influence galactic politics. The player who spends the most gets their pick of Turn Order card first.

6.1.1.2 Spending Sequence

Players openly commit **Resources** in the order of the Turn Order cards they hold from the previous **Game Round**. Place committed **Resources** on the Turn Order card used the previous **Game Round**. When it's your turn, you may always choose to commit nothing. If you decide to commit **Resources**, you may not spend the same total number of **Resources** as any other player who has already gone.

6.1.2 Prepare the Turn Order Cards

After players have committed **Resources**, shuffle Turn Order cards "1" through "9" together and randomly put a number of undisclosed cards to the side so that there is one more card than the number of participating players available for use this **Game Round** (if at least one player has been Assimilated [see rule 15.4.3] the extra Turn Order card is not needed).⁴⁶

6.1.3 Choosing Turn Order Cards

The player who spent the most gets to choose their Turn Order card first. Players may choose whichever card they'd like, i.e. the player who chooses first doesn't have to choose the Turn Order "1" card. The remaining players who spent **Resources** choose their Turn Order cards in descending order of how many **Resources** they spent. All **Resources** committed are discarded and returned to the **Supply**.

⁴⁶ This is a variant of the Mystery Turn Order Advanced Rule from the base game invented for the Unofficial Complete Rulebook. It takes the Borg into account and allows for games with up to eight players.

6.1.3.1 Revealing Turn Order

Players don't reveal their choice of Turn Order to their Rivals until it's their turn during the Execution Stage (or if they are required to draw a Turn Order Card for the Borg [see rule 6.1.5] or if they are called on to activate Borg Cubes during the Borg turn [see rule 15.2.1.1] or if needed to determine the direction of a Space Lane placed by the Borg [see rule 15.3.5]).

6.1.4 Random Turn Order

Players who spent no Resources, including players who have not made First Contact and the Borg have no ability to influence other Factions and are therefore assigned their Turn Order card randomly from the cards remaining.

For the first turn or two, when no one has made First Contact, no one is eligible to influence galactic politics so all Turn Order cards will be passed out randomly.

Example: John, Pete and Sally have all made First Contact and are eligible to participate. Pete went first the previous Game Round so he decides first and commits two Production. John went second the previous Game Round, so he goes second and commits one Research token. Sally went third the previous Game Round so she decides last and commits three Resources total (two Production and one Research). Since Sally spent the most, she gets first pick of the Turn Order cards, Pete chooses second and John chooses third. The Borg get the Turn Order card that's left over.

6.1.5 Borg Turn Order

The Borg (or each Assimilated player) receive a Turn Order card, just like the player Factions.

The Borg (and any Assimilated players) never bid on Turn Order and always receive a random Turn Order card, after any players who have made First Contact have bid and selected their cards.

Unless there is one or more Assimilated players, the player with the lowest Turn Order card draws the card for the Borg (and looks at it). The player may elect to keep the Borg Turn Order secret until the Borg Turn.⁴⁷

Give the Borg (or each Assimilated player) a Turn Order card even if there are no Borg currently in play. If there are Assimilated players, they each get a random Turn Order card. In this case no separate card is given to the Borg - the Borg will take one Borg turn per Assimilated player.⁴⁸

6.2 EXECUTION STAGE

During the Execution Stage, players (and the Borg) take their turns in the order decided by the Initiative Stage.

Each player's turn consists of a Building Phase followed by a Command Phase. On their turn, players may also spend five Culture to Ascend.

When it is the Borg's turn, they follow the same sequence of Phases as a player: a Building Phase, followed by a Command Phase, but the Borg actions follow separate rules [see rule 15.]. If there are Assimilated players or if the *Command: Resurgence* Command card is drawn [see Appendix VI], the Borg may take several turns in a Game Round.

6.2.1 Building Phase

At the start of each player's turn is a Building Phase in which they spend Resources to develop their Faction, Research Advancements and upgrade their Weapons and Shields. These may be done in any order [see rule 7.].

When the Building Phase is finished, flip the Player Turn card to the Command Phase side.

6.2.2 Command Phase

During the Command Phase, there are a number of things a player can issue a Command to do in any order:

- ▲ Move Ships and Fleets [see rule 8.]
- ▲ Brave a Hazard [see rule 8.10]
- ▲ Initiate a Space Battle [see rule 9.]
- ▲ Invade a Planet [see rule 10.]
- ▲ Attempt Cultural Hegemony [see rule 11.]
- ▲ Commission Fleets and Starbases [see rule 12.]
- ▲ Launch New Advancement Projects [see rule 14.]
- ▲ Activate Special Rules requiring Commands [see rule 4.]

When a Command is issued, Exhaust a Command token to show it has been used. All types of Commands may be issued

⁴⁷ This was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018).

⁴⁸ This rule was clarified for the Unofficial Complete Rulebook.

multiple times per turn, as long as there are Commands remaining.

When no more Commands are to be issued, the player turn is over. Flip the Player Turn card to the Building Phase side.

The player (or the Borg) with the next Turn Order card now takes their turn.

6.3 RECHARGE STAGE

At the end of each Game Round, there is a Recharge Stage in which players' Resource Nodes generate Resources and some game maintenance takes place.

Each Recharge Stage consists of:

- ▶ Victory Check [see rule 6.3.1]
- ▶ Generate Resources [see rule 6.3.2]
- ▶ Maintenance [see rule 6.3.3]

After the Recharge Stage, another Game Round begins unless the game ended.

6.3.1 Victory Check

At the very beginning of the Recharge Stage, if anyone has achieved an Ascendancy or Supremacy Victory, they have won the game.

For details on winning the game, see rule 2.3.

6.3.1.1 Extermination

If a player has no Ships and Controls no Systems, their Faction has been exterminated and that player is eliminated from the game.

All Trade Agreements originally belonging to an exterminated player are discarded. Advancements the exterminated player has taken from other Factions are returned to their respective decks, while Advancements taken from the exterminated player by other Factions are kept.⁴⁹

The player may later reenter the game as an Assimilated player [see rule 15.4.3].⁵⁰

6.3.2 Generate Resources

Resources are generated by Resource Nodes, Trade Agreements, some Advancements and some Allies. Some Special Rules may affect Resource generation.

6.3.2.1 Resource Nodes

Each player takes a Resource for each Resource Node they Control. Each Node produces one Resource token of its type; Production Nodes generate Production, Research Nodes generate Research and Culture Nodes generate Culture. Some Advancements may also generate Resources.

6.3.2.2 Trade Profits

During the Recharge Stage, players take the Resources pictured on the Trade Agreements they have received.⁵¹

Remember, your Trade Agreements don't do you any good; only Trade Agreements from other players generate Resources.

For example, the Klingon player currently holds a Federation 1 Production Agreement and a Romulan 2 Production Agreement. They still hold their own 3 Production Agreement. During Resource Generation, the Klingon player doesn't get anything from their own Trade Agreement (you can't trade with yourself) and gets a total of 3 Production from the Rival Trade Agreements.

6.3.2.3 Resources from Advancements

Some Advancements generate Resources. These cards will not picture the Resources being generated, since they often vary from Game Round to Game Round.

For example, with Orbital Laboratories, the Federation player gets a Research token for each Starbase they Control. When they Commission or take Control of a new Starbase, they'll receive more Research during Resource Generation.

6.3.3 Maintenance

After all players have finished generating Resources, there are a few things to do before starting the next Game Round.

6.3.3.1 Refresh Cards & Tokens

As part of Maintenance, Refresh all cards and Command tokens, so they're ready to be used again the following Game Round. Each player should have five Commands, plus one per Starbase, plus any additional Commands from Advancements.

6.3.3.2 Refresh Trade Agreements

Normally, Trade Agreements are face-up when you receive them and stay that way. However, they may sometimes become Exhausted. During Maintenance, Refresh any Exhausted Trade Agreements.

6.3.3.3 Add Warp Tokens to Ships at Warp

During Maintenance, add an additional Warp token to any Ship or Fleet currently traveling at Warp.⁵²

⁴⁹ This was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

⁵⁰ This was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 17. 2019). Design note: While it may be tempting to allow an Exterminated player to immediately become a Borg player, this is not the intention here, since that would disincentivise players from trying for a Supremacy victory.

⁵¹ Tip: Trade Agreements are a powerful source of Resources. The first players to exchange Trade Agreements will find themselves in an advantageous position.

⁵² Tip: While you can spend Command tokens during your turn to add Warp tokens to Ships, if you are patient, you'll get them for free.

8.3.3.4 Resupply Phenomena

During Maintenance, add a Research token to any Phenomena that don't already have one. If a Phenomenon already has a Research token on it, don't add an additional

token. The first player to successfully Brave the Hazard [see rules 8.4.1 and 8.10] each Game Round claims the Research from the Phenomenon.

7. BUILDING

During the Building Phase a player may spend Resources and other assets to take various actions as outlined below. Building may be done in any order.

Some Advancements' Special Rules will allow players to do something extra during their Building Phase. These may be used at any time while you're building.

The Borg follow separate rules during their Building Phase [see rule 15.1].

7.1 BUILD SHIPS

Ships cost one Production each. You may build Ships at any Starbase you Control and your Home System (assuming you still Control your homeworld).

7.1.1 Bonus Fleet Build

If you're building three or more Ships in the same System, you may immediately group them into a Fleet, without spending a Command (provided you are building them where you have the capacity to Commission Fleets).⁵³

For full details on Fleets, see rule 12.1.

7.2 COLONISE SYSTEMS

You may Colonise an Undeveloped Planetary System you Occupy by building a Control Node. A System is Undeveloped when it doesn't contain any Nodes.

Establishing a new Colony is a resource intensive process; Starships are often used as the functional core of a new Colony. Colonising a new System costs one Culture, plus a Ship in Orbit of the System being Colonised. To show that you've established a Colony in the System, place one of your Control Nodes on the Planet.

7.2.1 Taking Control of Warp Capable Civilizations

Warp-Capable Civilizations have discovered sufficient technology and built up their planet's infrastructure such that Colonisation is no longer an option. Taking Control of a System that's inhabited by a Warp-Capable Civilization is more difficult than simply Colonising a System with a Pre-Warp Culture. Whenever there are Developed Structures on a planet, Invasion or Hegemony are your only options for taking Control [see rules 10. and 11.].

7.3 BUILD RESOURCE NODES

Some planets are rich in natural resources, others contain sites rich in scientific research potential while others have the potential to support great cities and cultural touchstones.

You may only build Resource Nodes in Systems you Control. To build a Resource Node, spend the cost listed for that type of Node.

7.3.1 System Capacity

Each System has a Capacity marked with coloured tabs around the edge of the planet that shows how many of each type of Node may be built.

This System has the Capacity to have one Culture Node and two Production Nodes.

7.3.2 Open Capacity

Sometimes a System will have "Open" Capacity, which means that it's a versatile enough System that you can choose what

⁵³ This was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27, 2018).

type of Node to build there. Later, Resource Nodes built on Open Sites can be replaced by paying the full cost of the new Node. Once built, you may not simply destroy your Nodes.

7.4 COMMIT RESEARCH

In your Building Phase, you may also Commit Research to your Projects. The amount of Research required to finish the Project is listed in the upper left of each card.

You may add a maximum of one Research token to each Project during each of your Building Phases.

Once you commit Research tokens to a Project, you can't move them around or take them back.

In the first Game Round, players won't have any Projects yet. In your Command Phase, you may use Commands to Launch new Projects. For full details on Launching new Projects, see rule 14.1.

Claiming Research from Phenomena can speed a Project's completion. For full details on claiming Research from a Phenomenon see rules 8.9.1 and 8.10.

If you finish a Project it immediately becomes a useable Advancement [see rule 14.2].

This Project takes four Research to complete

7.5 UPGRADING WEAPONS & SHIELDS

In addition to committing Research tokens to Projects, you may also spend Research to improve your Weapons and Shields. The cost to upgrade your Weapons and Shields is listed on your Command Console, directly across from your current Weapons and Shield Levels. Unlike Projects, upgrading your Weapons and Shields is a single, one-time cost, not something you commit Research to over time.

7.6 END OF BUILDING PHASE

After you complete your Building Phase, your Command Phase begins. Once you start your Command Phase, you may not spend Resources to Build unless a specific Special Rule allows you to do so. Ascending is the only exception: you may spend five Culture tokens to take an Ascendancy token at any time during your turn.

8. MOVEMENT

Movement is carried out on the map. When moving through the map, each System disc counts as one Sector; Space Lanes contain between two and four Sectors.

Ships can move at Impulse or Warp Speed. Each Movement Command moves one Ship or Fleet. You may issue more than one Movement Command to the same Ship on a single turn.

For example, you could use one Command to have a Ship Exit Warp, and then use a second Command to have that Ship move at Impulse Speed.

As you move your Ships into unexplored space, you'll place new Space Lanes and System discs, building the galactic map as you play.

Discovering, placing and entering a new System always ends a Ship's or Fleet's move, even if it has movement remaining.

Movement of Borg Cubes follows separate rules as described in rule 15.3.

8.1 IMPULSE MOVEMENT

All Ships have a base Impulse Speed of 2. To move a Ship or Fleet at Impulse, Exhaust a Command and move one Ship or Fleet up to 2 Sectors.

You may place new Space Lanes and Systems at Impulse [see rule 8.6].

8.2 WARP MOVEMENT

With Warp movement it is possible to cover large distances in a single move.

8.2.1 Entering Warp

To Enter Warp, Exhaust a Command and move a Ship or Fleet just off the System or Space Lane they are in and place a Warp token next to the Ship, pointing to the Sector from which they Entered Warp.

Ships and Fleets will accumulate additional Warp tokens at the end of each Game Round or by spending additional Commands.

Ships at Warp don't count as being "in" the Sector from which they left. For all intents and purposes, Ships at Warp are not on the map until they Exit Warp.

8.2.2 Exiting Warp

To have a Ship or Fleet at Warp Exit Warp, Exhaust a Command.

When a Ship or Fleet Exits Warp, it may move through a number of Systems equal to the number of Warp tokens it has accumulated, plus the number of Warp tokens pictured on your completed Advancements.

If the Ship or Fleet Entered Warp from a System, don't count the System in which it started.

You may choose to move through fewer Systems or Exit Warp early in a Space Lane. When you come out of Warp in a Space Lane, you may stop in any Sector of the Space Lane. After Exiting Warp, discard the Ship's or Fleet's accumulated Warp tokens.

You may choose to discover and enter a new System as part of your Warp movement [see rule 8.6].

8.2.3 Traveling at Warp

You may also use a Command to give another Warp token to a Ship or Fleet that has already Entered Warp. Ships at Warp also receive additional Warp tokens during the Recharge Stage [see rule 6.3.3.3].

8.3 ENTERING RIVAL TERRITORY

As Ships or Fleets (including Borg Cubes) move through space at Impulse or Warp, they may not enter or pass through a Sector they don't Control that contains Hostile Rival Ships.

Borg Cubes block movement, just as player Ships do.

You may always move into and through Systems you Control, regardless of any Rival presence.

You may move freely through Sectors with Ships belonging to Peaceful Rivals, unless they also contain Hostile Ships [see rule 13.2].⁵⁴

When rule 15.5.2 becomes active, Borg Cubes only stop for Rival Fleets.

8.4 HAZARDOUS SYSTEMS

Some Systems are marked with a Red Alert Warning.

When your Ships end their movement in a Hazardous System, all your Ships in the System must Brave the Hazard and see if they survive.⁵⁵

All your Ships in a Hazardous System have to Brave the Hazard when your Ships end their movement there.

Space is big. If you don't stop in a Hazardous Sector, you don't have to make a Hazard roll; you were able to navigate around the dangerous System. If you Build Ships in a Hazardous Sector, you don't need to make a Hazard roll when you deploy them or when they leave.

8.4.1 Braving a Hazard

Shields protect against Hazards. To Brave a Hazard, add the Ships' Shield Modifier to the System's Hazard Level. The player to your right then rolls a die for each Ship that is Braving the Hazardous Sector. For each die roll that is equal to or higher than the Shield Modified Hazard Level, one Ship is destroyed.

If your Ships start your turn on a Phenomenon, you can also Brave the Hazard without actually Moving by Exhausting a Command [see 8.10].

⁵⁴ This is in accordance with the Advanced Unrestricted Trade Routes rule.

⁵⁵ This was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27, 2018).

For example, a Federation Ship ends its Movement in the Stellar Nursery, which is a Level 4 Hazard. The Federation has upgraded their Shields once, so has a Shield Modifier of 1. The Klingon Player to their right rolls a die. A roll of a 5 or a 6 will destroy the Federation Ship.

8.4.2 The Borg and Hazards

Borg Cubes are not affected by Hazardous Systems; do not roll to see if they take damage.

8.5 TRANSWARP HUB TRAVEL

The Transwarp Hub System disc is directly connected to both Transwarp Conduit System discs and considered Adjacent. Players and the Borg may Warp, but not move by Impulse, from the Hub to either Conduit, or vice versa, as if they were connected via a zero-length Space Lane. The Conduits are not directly connected to each other.

Note that Hostile Rival Ships in the Hub or a Conduit will prevent movement into that System just like any other System (see rule 8.3).⁵⁶

Attacks are allowed between the Hub and the Conduits.⁵⁷

8.6 BUILDING THE GALAXY

As you move through the Galaxy, you'll chart new Space Lanes and Systems and build a galactic map unique to your game. Every new map presents new challenges and opportunities.

If, while you are building the map, a Space Lane or System can't be placed because there is no room to place it, the moving Ship immediately ends its movement where it is (in a System or the last Sector of a Space Lane, as the case may be). It may be issued another Command to move again.⁵⁸

8.6.1 Placing New Space Lanes

As you're moving, you may choose to place and then travel in new Space Lanes, if the System you're leaving has unused capacity to add Space Lane connections. You may place a new Space Lane on the map when moving at Impulse Speed or Exiting Warp.

8.6.1.1 Maximum Number of Space Lanes

Each System disc has a maximum number of Space Lanes that can connect directly to it, listed on the bottom of the System disc. Once this many Space Lanes are directly connected, you may not make any new direct connections to that System.⁵⁹

8.6.1.2 Space Lane Length

Roll the Space Lane die to determine the length of the new Space Lane.

8.6.1.3 Placing a Space Lane

Place the new Space Lane directly connected to the System you're leaving and move the Ship into the new Space Lane. The new Space Lane may be placed anywhere on the outside edge of the System, as long as there is room for it.

If the new Space Lane isn't long enough to make the connection you want and the Ship is moving at Warp, you can either stop in the new Space Lane or continue on to discover a new System at the end of the new Space Lane [see rules 8.7 and 8.9]. If the Ship is attempting to make a connection at Impulse and isn't able to, it can reverse course and use its second Sector of movement to go back to the System where it started, abandoning the Lane.

8.6.1.4 Crossing Space Lanes

Space Lanes can not cross each other.

8.6.1.5 Testing Connections

You may use any unused Space Lane tile to test if a connection is possible at any time, even before committing to moving.

8.6.1.6 Abandoned Space Lanes

If a Space Lane contains no Ships or Fleets and is only directly connected to one System, remove the Space Lane.

⁵⁶ In an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27, 2018) it was officially clarified that moves are allowed between the Hub and the Conduits even if they contain Hostile Rival Ships. In a follow up email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 15, 2019) it was also officially ruled that this only applies to the Borg. For the Unofficial Complete Rulebook this is changed not to allow such movement. Using the official clarifications would create a number of other rules problems and be inconsistent with how movement works in other situations.

⁵⁷ In an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27, 2018) it was officially clarified that attacks are not allowed between the Hub and the Conduits. For the Unofficial Complete Rulebook this is changed to allow such attacks. Using the official clarification would create a number of other rules problems. Further testing has shown that the game needs to allow these attacks if the Borg are going to be able to develop their threat.

⁵⁸ This rule was invented for the Unofficial Complete Rulebook.

⁵⁹ Tip: This rule may be fairly hard to keep track of during intense play. To remind players how many direct connection can still be made you may consider using Warp tokens placed next to the maximum connection number. Remove the tokens as connections are added.

For example, this can happen when a Ship enters a Space Lane but leaves before a System is placed at the other end or if a Ship in a disconnected Space Lane is destroyed.

Ships or Fleets at Warp do not count as being on the map; if all the Ships or Fleets in an open-ended Space Lane are at Warp, remove the Space Lane and point the Ship's or Fleet's Warp token at the previously directly connected System.

8.6.2 Placing New System Discs

When moving at Impulse or Exiting Warp, you may move beyond the unconnected end of a Space Lane and place a new System disc.

To place a new System on the table, draw a new System disc and place it face up on the table, directly connected to the Space Lane that contains your Ship. Move your Ship or Fleet into the new System.

8.6.2.1 Overlapping Systems

Newly placed Systems may not touch or overlap existing Space Lanes or System discs.

8.6.2.2 Placing New System Discs at Warp

When a Ship or Fleet Exits Warp, it can travel through a number of Systems. As part of this movement, the Ship or Fleet can place new Space Lanes and/or a System.

8.6.2.3 Moving Into a Newly Placed System

Moving into a newly placed System always ends a Ship's or Fleet's movement.

If the new System is Hazardous, you'll have to Brave the Hazard immediately. For details on Hazardous Systems see rule 8.4.

8.6.3 Fixed vs Floating Systems

As you head into unexplored space, uncertainty abounds. The best course to reach one particular star system isn't determined immediately upon discovering it. In *Star Trek: Ascendancy*, System discs are usually not fixed in place on the map when they are first placed.

8.6.3.1 Fixed Systems

Home Systems are always considered Fixed in place. The Transwarp Hub is considered Fixed if it started play on the map.⁶⁰

Other System discs are Fixed when they are directly connected to two or more other Systems. Exception: The Transwarp Conduits are not Fixed until they are directly connected to two Systems other than the Transwarp Hub.⁶¹

Fixed System discs cannot be swung [see rule 8.6.4].

8.6.3.2 Floating Systems

When a System disc is only directly connected to one other System, it's Floating.

A System is only considered Floating if it is directly connected to a Fixed System.

Floating System discs can be swung [see rule 8.6.4].

8.6.3.3 Special Case

It can happen through some Exploration cards that two Systems directly connected to each other become unconnected to all other Systems. In this special case both Systems are considered neither Fixed nor Floating and cannot be swung until one of them becomes Fixed.⁶²

8.6.4 Swinging Floating Systems

On your turn, you may swing any and all Floating Systems and Space Lanes as long as they remain connected to the Systems to which they are directly connected. You may want to swing a Floating System or Space Lane to make room for a new System or to make a connection between Systems.

When swinging a Floating System or Space Lane, you may not pick it up off the board, it can only swing around the single System to which it's directly connected. As soon as a System is directly connected to at least two other Systems, it is Fixed in place and can no longer be swung [see rule 8.6.3.1].

You are not allowed to swing Systems or Space Lanes past the Playing Area border.⁶³

⁶⁰ This rule was invented for the Unofficial Complete Rulebook.

⁶¹ This rule was changed for the Unofficial Complete Rulebook to avoid the problem of the Conduits being immediately Fixed when placed. An official answer in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019) treats this differently.

⁶² This rule was invented for the Unofficial Complete Rulebook to avoid a gamey situation where Systems could travel by themselves.

⁶³ This rule was invented for the Unofficial Complete Rulebook.

8.6.4.1 Rival Ships and Nodes

The presence of Rival Ships or Nodes in a Floating System or Space Lane does not prevent another player from swinging it or connecting to it.⁶⁴

8.6.4.2 Swinging Space Lanes

A Space Lane that isn't attached to a System at each end can be swung around too.⁶⁵

8.6.5 Making Connections

When leaving a System to place new Space Lanes and Systems there are generally three things you can accomplish; directly connecting to an existing System, discovering a new System or just placing a Space Lane that is only directly connected at one end.⁶⁶

You may connect a Fixed System to a Floating System, or vice versa. In general, when connecting two Systems, you'll need one of them to be Floating. It's rare that two Fixed Systems will be exactly the right distance apart to fit the size Space Lane you've rolled, but if the Space Lane fits, that's allowed too.⁶⁷

If you manage to connect existing Systems you may continue your movement.

8.7 DISCOVERING PLANETARY SYSTEMS

Most Systems are Planetary Systems, containing potentially habitable worlds.

Planetary Systems feature the most prominent planet along with what type of Resource Nodes can be built in the System.

8.7.1 Hazardous Planetary Systems

If the System you discover is a Hazardous Planetary System, all your Ships must Brave the Hazard [see rule 8.4.1].

If your Ships do not survive entry into a new Hazardous Planetary System, place an Exploration card face down on the System. The first player to Brave the Hazard and survive must resolve the card.

8.7.2 Exploration Cards

If any of your Ships do survive entry into a new Hazardous Planetary System or the discovered System is not Hazardous, draw an Exploration card and resolve the effects [see rule 8.8].

8.8 EXPLORATION CARDS

There are four types of Exploration cards. Most Exploration Cards are resolved immediately. Some Remain in Play; set them face up on the System until they are resolved. Once the System is Colonised [see rule 7.2], discard the card.

A list of Exploration cards and some specific Exploration card rules can be found in Appendix II.

8.8.1 Crisis

Crisis cards present some sort of problem or difficulty. Some Crisis cards will force the Ships to Brave a Hazard [see rule 8.4.1].

⁶⁴ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/24102930#24102930>).

⁶⁵ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/24102930#24102930>).

⁶⁶ Tactical tip: When Systems become Fixed, make sure they are Fixed either at the exact distance of a 2, 3 or 4 Space Lane or at a distance that doesn't allow for connections, depending on what your future plans are.

⁶⁷ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23412244#23412244>).

8.8.1.1 Destroyed Systems

Through cataclysm or conflict, a whole System may be destroyed. If there are any empty Space Lanes directly connected to the destroyed System, remove those as well.

Any time there are Ships in a destroyed System, move them into an Adjacent Space Lane Sector, unless the card states otherwise. Later, they could move into another System discovered at the end of that Space Lane, even on the same spot on the table. Keep in mind, the Systems' exact locations in the Galaxy aren't fixed until they're directly connected to other Systems.⁶⁸

8.8.2 Discovery

In addition to Crises, new worlds hold the promise of never before seen wonders, technological revelations and contact with new species.

8.8.3 Allies

When you draw an Ally card, you've discovered a faction or person who may be open to establishing an agreement.

Each Ally card has a Diplomacy Number in a green icon in the upper right corner. In order to claim the Ally, you have to pass a Diplomacy Test.

Each time a player receives an Ally card, by drawing it from the Exploration deck or by being passed the card from another player, make the test. Many of the cards that pass around the table have very easy Diplomacy tests: these are men of business who want to deal with more customers!⁶⁹

8.8.3.1 Diplomacy Tests

To make a Diplomacy Test, roll a die and add your Ascendancy. If the total is higher than the Ally's Diplomacy Number, you've passed the test and can claim the Ally card.

If you pass the Diplomacy Test, set the Ally Card in front of you. Ally cards either count as Trade Agreements or have a Special Rule you can use.

If you fail the Diplomacy Test, place the Ally Card at the bottom of the Exploration deck - not in the discard pile. Don't reshuffle, just place the Ally at the bottom of the Exploration deck.

8.8.4 Virgin Worlds

A number of the cards in the Exploration deck are "Virgin" Worlds; planets which are perfectly suitable for habitation but devoid of sentient life that needs to be accommodated or conquered.

8.8.5 Civilization

Some Systems you'll discover are already inhabited. These Independent Civilizations range from primitive, Pre-Warp societies up to fully Warp-Capable, advanced cultures.

When you draw a Civilization Exploration card, the card will direct you to either place Resource tokens on the System, marking it as a Pre-Warp Civilization, or Warp tokens, marking it as a Warp-Capable Civilization.

8.8.5.1 Pre-Warp Civilizations

Pre-Warp Civilizations have not yet achieved faster than light space travel. These worlds have not developed any technology or infrastructure that's usable by more advanced cultures.

Pre-Warp Civilization cards will direct you to place a number of Resource tokens on the System, representing the System's raw materials and a population ripe for exploitation. The first player to Colonise [see rule 7.2] the System takes the Resource tokens from the System.

8.8.5.2 Warp-Capable Civilizations

Each Warp-Capable Civilization card directs you to place a number of Warp tokens on the System equal to the level of the Civilization, marking it as a Warp-Capable Civilization.

Each Warp-Capable Civilization card will also direct you to Develop a number of Nodes in the System. When developing the Resource Nodes of a Warp-Capable Civilization, develop any Production Capacity first, then Research Capacity, and finally any Culture Capacity, up to the number of Nodes the card instructs you to develop.

⁶⁸ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23952245#23952245>).

⁶⁹ This was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Nov 27, 2017).

When a player takes Control of a System with a Warp-Capable Civilization, discard the Warp tokens.

Example: The Romulans discover a Level 2 Warp-Capable Civilization on Terra Nova, which has a Capacity for 1 Production, 1 Research and 1 Culture. The Civilization card directs you to develop 2 Nodes. The Production Capacity is Developed first: one Production Node. Next the Research Capacity is Developed: one Research Node.

Example: The Federation player discovers a Level 3 Warp-Capable Civilization on Ardana. Ardana has 1 Production, 1 Research and 1 Open Capacity. It's possible to develop 2 Production Nodes, since Ardana has both a Production and an Open site. The Production Capacity is Developed first, then a Research Node is placed as the third Node.

8.9 DISCOVERING PHENOMENA

Not all Systems contain habitable planets; there is a wide variety of Interstellar Phenomena that deserve further study. Science is dangerous; Phenomena are Hazardous to study and explore.

When the System disc you discover is a Phenomenon, place one Research token from the Supply on the Phenomenon.

Do not draw an Exploration card when you discover a Phenomenon.

8.9.1 Hazardous Phenomena

As with discovering any Hazardous System, all your Ships in the System must Brave the Hazard [see rule 8.4.1]. If at least one Ship survives, take the Research token from the Phenomenon. You may place this Research on one of your Projects or in your Reserves. If all the Ships are destroyed, the Research token remains on the Phenomenon.

If one of your Ships starts your turn on a Phenomenon, you may spend a Command to Brave the Hazard without actually Moving [see rule 8.10].

8.10 FURTHER STUDY OF PHENOMENA

If one or more of your Ships start your turn on a Phenomenon, you may spend a Command to Brave the Hazard [see rule 8.4.1] without actually moving. If at least one Ship survives, you may take the Research token from the Phenomenon. You may place this Research on one of your Projects or in your Reserves. If all the Ships are destroyed, the Research token remains on the Phenomenon.

During the Recharge Stage, a new Research token will be placed on each Phenomenon that doesn't still have one [see rule 6.3.3.4]. Only the first player each Game Round to successfully Brave the Hazard of a Phenomenon gets a Research token.

9. SPACE BATTLES

You can Exhaust a Command to Initiate a Space Battle with Rival Ships in a single Adjacent Sector, or in a single Sector in which you both have Ships.

If you have Ships in more than one Adjacent Sector (or in the same Sector and Adjacent Sectors), you may use a Command to have all the Ships in the same and Adjacent Sectors join in the attack.

Each Space Battle consists of a number of Combat Rounds in which both players roll to score Hits, take Casualties, then decide whether to Retreat or keep fighting. The player who Initiates the Battle is the Attacker.

Space Battle Sequence:

- 1) Scoring Hits [9.1]
- 2) Taking Casualties [9.2]
- 3) Retreating from Combat [9.3]
- 4) Combat Continues [9.4]

The Borg follow separate rules in Combat as described in rule 9.8.

9.1 SCORING HITS

Your current Weapons Level determines your "Hit Roll". To score a Hit, you need to roll equal to or higher than your Hit Roll. Your opponent's Shield Modifier is added to your Hit Roll, making it more difficult to Hit.

Barring Special Rules, both players roll to Hit and then Take Casualties simultaneously.

9.1.1 Hit Roll

Each Rival rolls a number of Attack Dice equal to the number of Ships they have involved in the Space Battle. All dice have a chance to score a Hit and destroy a Rival Ship.

You may have to roll dice for different Fleets separately, if they have different Special Rules.

Above, a Fleet of 5 Klingon Ships have attacked the Romulans (as they do). The Klingons have upgraded their Weapons twice, so they need to roll 3 or better to Hit. The Romulans have upgraded their Shields once, giving them a Shield Modifier of 1, so the Klingons have a Hit Roll of 4+. The Klingons roll 5 dice: any rolls of 4, 5 or 6 score a Hit.

The Romulans haven't upgraded their Weapons nor have the Klingons upgraded their Shields, so the Romulans need a 5 or better to score a Hit, since the Klingons Shield Modifier is 0 and the Romulan's Hit Roll is 5+.

9.1.1.1 Starbase Support in Space Battles

Starbases provide support for your Ships in Space Battles. When you have Ships in Orbit of a System you Control with a Starbase, roll an additional die to Hit. Starbases cannot fight on their own.

9.1.1.2 Pointless Battles

Attacking an opponent you have no chance of damaging while in turn the opponent has no chance of damaging you is pointless; the result of the attempt is a wasted Command. Nothing happens, no one moves, no one wins, no one loses.⁷⁰

9.1.2 First Strike

Some Advancements or other rules give Ships or Nodes First Strike. In the first Round of a Combat, when your Ships have First Strike, your opponent must Take Casualties before rolling to Hit with their Ships. First Strike is only used in the initial Round of a Combat.

First Strike does not grant an extra Attack before Combat begins, it forces your opponent to Take Casualties before firing back, in the first Combat Round. If both sides have First Strike, neither may use it.

For example, six Romulan Ships with First Strike attack four Federation Ships. The Romulans score two Hits, destroying two Federation Ships. The remaining two Federation Ships score a Hit. In the second Combat Round, the remaining five Romulan Ships and two Federation Ships will roll to Hit and Take Casualties simultaneously, as normal.

9.2 TAKING CASUALTIES

Every Hit destroys a Rival Ship. If there is a choice of where casualties are going to be taken, the player who inflicted the Hits chooses how to allocate the Hits.

For example, if you score four Hits against a Rival who has five Ships in a Fleet and two Individual Ships, you may allocate all the Hits to the Fleet.

9.3 RETREATING FROM COMBAT

After Taking Casualties, each player assesses the state of their Ships. Starting with the Attacker, players decide whether or not to Retreat.

9.3.1 Retreat Distance

Retreats are made at Impulse Speed. Retreats must be made through existing Space Lanes; you may not place new Space Lanes with a Retreat Move.

When you Retreat, all your Ships attacking from a single Sector must Move and end their Retreat in the same Sector. In a multi-pronged attack, the Starships from each Sector need to Retreat as a group.⁷¹

⁷⁰ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/24112089#24112089>).

⁷¹ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23286320#23286320>).

9.3.2 Blocked Retreats

Ships unable to Move because Rival Ships are blocking the Space Lanes may not Retreat.

9.4 COMBAT CONTINUES

If none of the players involved choose to Retreat (or are unable to Retreat) another Combat Round begins. Without Exhausting any additional Commands, continue to fight additional Combat Rounds until either the Attacker or Defender Retreats or a player has no more Ships remaining.

9.5 WINNING A SPACE BATTLE

The player who destroys all their Rival's Ships or forces them into Retreat wins the Space Battle.

9.5.1 Tactical Manoeuvres

The winning player may make a "Tactical Manoeuvre" with some, or all, of their Ships after the Space Battle is over. Tactical Manoeuvres are moves made at Impulse Speed and do not Exhaust a Command. All the winner's Ships which move must use existing Space Lanes and end up in the same Sector.

Borg do not make a Tactical Manoeuvre move after winning a Space Battle.

9.6 BATTLES IN THE SAME SECTOR

Normally Space Battles take place between Adjacent Sectors, but can take place between Rivals in the same Sector. For example, this can happen if two Factions had a Trade Agreement which was broken, a Cloaking Device was used or a player built Ships in a System Occupied by a Rival.

9.7 BATTLES WITH MORE THAN TWO PLAYERS

There will only ever be one Attacker, but it's possible for there to be more than one Defender. In Space Battles with more than one Defender, the Attacker must decide how they are dividing their dice between the Defenders before rolling to Hit. All the Defenders' Hits are directed to the Attacker.

9.7.1 Multiple Hostile Rivals

If a player attacks a Sector containing more than one Hostile [see rule 13.2] player's Ships, all Factions present are attacked. All Ships in the Sector being attacked must roll to Hit the Attacker. After every Combat Round, all combatants may choose to Retreat, as normal.

9.7.2 Multiple Hostile and Peaceful Rivals

If you attack a Sector with Ships from both Peaceful and Hostile Rivals you may choose to only attack the Hostile Rivals or a combination of Hostile and Peaceful Rivals. All Hostile Rivals in the same Sector must be attacked. After the Attacker has declared who is attacked, all unattacked Peaceful Rivals in the Sector may choose to join the defence or stay out of the Battle; they may not join the Attack. Any Trade Agreements subject to Betrayal [see rule 13.4] are returned.⁷²

9.7.3 Multiple Defender Retreat

The Defenders choose separately (and in Turn Order) whether or not to Retreat after each Combat Round. The Battle is over when all the Defenders are eliminated or routed, or the Attacker is eliminated or routed.

9.8 BORG CUBES IN COMBAT

The Borg have a number of unique rules they follow in Combat:

9.8.1 Slow and Methodical

Players' Ships and Structures have First Strike against Borg Cubes, in the first Combat Round, in Space Battles and when defending against Borg Planetary Invasion. This is true regardless of who initiates the attack. The Slow and Methodical rule is suspended for Cubes acting under the Command:Aggression Command card when the Attack-Command-Attack rule [see rule 15.5.1] has taken effect.

9.8.2 Borg Attack Dice

Borg Cubes start every Combat with 9 Attack Dice. As the Borg take damage, they lose Attack Dice. When it's the Borg's turn to Attack, they roll all their remaining Attack Dice – but not dice that have been taken away as damage.

9.8.3 Borg Hit Rolls

The Borg's Hit Roll depends on how many Spires they have in play, as shown on the Borg Command Console.

9.8.3.1 Advanced Weaponry

Borg Weapons ignore all Shields, unless you have Tech or an Advancement that specifically works against the Borg.

9.8.3.2 Allocating Hits to Different Ships

For Hits inflicted by the Borg when there are no Assimilated players, the player whose Ships were Hit may decide how to allocate them between their Ships. When the Borg are controlled by an Assimilated player, that player may pick which Ships were Hit.⁷³

9.8.3.3 Attacking Multiple Players

When attacking more than one player, allocate the Borg Hits between the players one at a time, in player Turn Order, until all the Hits have been allocated.

9.8.3.4 Borg Regeneration

Any Borg Attack rolls of 6 (Borg Symbol) both score a Hit and Regenerate one damage, if the player's Hits do not destroy the Cube. After scoring Hits, for each 6 the Borg rolled when attacking, take a die off the Cube card and add it back to their pool of Attack Dice for the following Combat Round. A Borg Cube never has more than 9 Attack Dice.

Note: The Borg only Regenerate on Attack rolls of 6 if the Cube is not destroyed by the player's Hits.

9.8.4 Damaging Borg Cubes

Each time a Hit is scored against a Borg Cube, place one die on the Borg Cube card, to track how much damage the Cube has sustained. Dice on the Cube card aren't used to roll Attacks.

Having taken four Hits, four Borg dice are placed on the Cube Card, leaving the Borg 5 Dice for their next Attack.

9.8.5 Borg Adaptive Shields

The Borg are able to adapt quickly to enemy weapons. Other civilizations are constantly searching for new ways to damage the Borg, coming up with innovative techniques to which the Borg haven't adapted.

At the start of each Space Battle and Invasion, the Borg Cube has a Shield Modifier of 0.

At the end of each Combat Round, the Cube's Shield Modifier increases by 1: place a Borg Assimilation Node on the Borg Cube card to track their current Shield Modifier, up to a maximum of 4. If, after Taking Casualties, the Borg Shields are such that a player's Ships only Hit on a 7 or higher, that player must Retreat [see rule 9.3].

⁷² This rule was invented for the Unofficial Complete Rulebook, but is in the same spirit as the official Ally Cooperation rule. It also simplifies the handling of unintentional Betrayals.

⁷³ This was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Dec 14, 2017).

The Federation has First Strike and upgraded their Weapons once. In the first Round of the Space Battle, the Borg's Shield modifier is 0, so the Federation's Hit Roll is 4. They roll six Attacks and score 4 Hits.

For their first Attack, the Borg Roll their 5 Attack Dice, currently needing 4s or higher to Hit. The Borg roll 3 Hits, one of which is a Borg Symbol, which allows them to Regenerate one die.

After the first Combat Round, the Federation no longer has First Strike. The Borg's Shield Modifier increases to 1. This Round, Attacks

are made simultaneously. The Federation will need 5 or 6 to Hit. The Borg continue to Hit on 4 or higher. The Borg are rolling six dice this Combat Round.

9.8.6 Retreat from the Borg

When players Retreat from a Space Battle with the Borg, they must move so that they are no longer in an Adjacent Sector to the Cube after the Retreat movement. If they cannot move to such a Sector for any reason when forced to Retreat, they are destroyed instead.⁷⁴

A damaged Cube which wins a Battle will start the next Battle with a full 9 Attack Dice.

Klingons still may not retreat in Battles versus the Borg. However, the Klingon's Starting Advancement allows them to always Hit on 6s, so they always have a chance to defeat the Borg.

9.8.7 Destroying a Borg Cube

When a Borg Cube has sustained nine damage and all its dice are placed on the Cube card, the Cube has been destroyed.

All Factions that were involved in destroying the Cube then draw a Borg Tech card [see rule 14.4]. All those who were present at the start of the Space Battle, even if they didn't Hit and even if they are all destroyed, count as having been involved (and observed how their Rival defeated the Borg).⁷⁵

Klingons get a bonus Culture token for defeating a Borg Cube. Klingon Marauder Fleets take a single Production for destroying a Borg Cube.

⁷⁴ This rule was clarified for the Unofficial Complete Rulebook. The original rule made no sense.

⁷⁵ This was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Dec 12. 2017) and further clarified for the Unofficial Complete Rulebook.

10. INVASIONS

When your Ships Occupy a Developed System you do not Control, you may use a Command to Invade the Planet. If there are any Rival Ships in the System, you must Attack the Ships in a Space Battle first before Invading the System (Exception: Ally Cooperation - rule 13.2.2). If the Invasion is successful, you will take Control of the System.

Each Planetary Invasion consists of a number of Combat Rounds in which both players roll to score Hits, take Casualties, then decide whether to Surrender, Retreat or keep fighting.

Surrender [rule 10.3.1] may happen before the Invasion starts.

Invasion Sequence:

- 1) Scoring Hits [10.1]
- 2) Taking Casualties [10.2]
- 3) Retreating from Invasion [10.3]
- 4) Combat Continues [10.4]

Borg Invasions follow separate rules [see rule 15.4].

Invading Borg Worlds follow separate rules [see rule 10.6].

Invasions are a one-way affair: you may not use a Command to have your Nodes initiate an Attack against Ships Orbiting their System.

10.1 SCORING HITS

The Attacker rolls a number of dice equal to the number of Ships they have in the System. The Defender rolls a number of dice equal to the number of Structures they have built on the planet, including the Control Node and any Starbase. Every die rolled has a chance to score a Hit.⁷⁶

As in Space Battles, both players' current Weapons Levels determines their "Hit Roll". To score a Hit, you need to roll equal to or higher than your Hit Roll. Each player adds their opponent's Shield Modifier to their Hit Roll, making it more difficult to Hit.

First Strike [see rule 9.1.2] may apply in Invasions just like in Space Battles.

You may need to roll dice for different Fleets separately if they have different Special Rules.

10.2 TAKING CASUALTIES

Casualties inflicted by the Defender are taken from the Attacking Ships. Even if all the Attacker's Ships are destroyed, the Results of

the Invasion are the same, i.e. all the Attacker's Ships could be destroyed and still have a Successful Invasion.

In a Planetary Invasion, the goal of the Attacker is to take Control of the planet, ideally with minimal damage done to the planet's infrastructure. Hits by the Attacker don't necessarily destroy Nodes. The number of Hits scored by the Attacker determines the results of the Planetary Invasion.

Depending on how many Hits the Attacker scores, there are a few possible results:

10.2.1 Successful Invasion

If the Attacker scores more Hits than the Defender has Nodes, the Attacker has invaded with overwhelming force and has taken Control of the System and won the Invasion. Place the Attacker's Control Node on the System, replacing the existing Control Node if the planet was Controlled by a Rival. The Attacker must still take any Casualties caused by the Defender.

If all of the Attacker's Control Nodes are already in use the Attacker may either give up Control of another System or turn the invaded System into an Independent Civilization [see rule 3.6.3].⁷⁷

For example, in the illustration the Klingons would need to Hit with all four of their attacks to seize Control of the Federation System without destroying any of the Nodes on the planet.

10.2.1.1 Capturing Research Nodes

When you take Control of a Rival's intact Research Node, the player whose Research Node was captured must choose one of their active Projects and give it to you. Any Research on the card is discarded. If you capture more than one Research Node, they must give you a Project per Node captured. If the Research Node is destroyed, nothing is captured. If the Invaded player does not have any active Projects, then no Project is seized. Place captured Projects in your Project Area.

10.2.1.2 Capturing Starbases

Starbases are too valuable for players to destroy. Once a Starbase is placed on a System it remains there for the rest of the game, unless it is destroyed in a Borg Invasion [see rule 15.4]. When Control of a System changes hands, Control of the Starbase does too. When you take Control of

⁷⁶ This rule was changed to include Starbases in Planetary defence in order to be consistent with how Hegemony and Borg Invasions work.

⁷⁷ Although officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this rule was changed for the Unofficial Complete Rulebook in order to provide consistency with earlier official rulings.

a Starbase from a Rival, take one of their Command tokens. Place this token with your other Command tokens, face down; it may not be used this turn. When a Starbase is captured, only the new owner's Special Rules which affect Starbases apply.

10.2.2 Collateral Damage

If the Attacker scores fewer Hits than the Defender has Nodes, the Attacker must choose a number of Resource Nodes to destroy equal to the number of Hits scored. The Control Node is not destroyed. Another Combat Round is then fought, unless the Attacker chooses to Retreat or the Defender chooses to Surrender.

For Example, if the Klingons in the illustration above only scored a single Hit, they could choose to destroy either the Culture Node or the Research Node. If they scored two Hits, they would have to destroy both Resource Nodes, leaving only the Federation Control Node.

10.2.3 Total Annihilation

If the Attacker scores a number of Hits equal to the number of Nodes in the System, including the Control Node, the surface has been completely razed in the Invasion. Destroy all the Nodes on the planet, including the Control Node. The Invasion is over: the System will need to be Colonised [see rule 7.2] anew in a future turn. Neither the Attacker or Defender has won the Invasion.

10.2.3.1 Starbases and Total Annihilation

With a Total Annihilation result, the Defender has lost Control of the Starbase and loses a Command, but the Attacker does not Control it. The first player to take Control of an Uncontrolled Starbase (by taking Control of the System) gains a Command.

10.2.4 Repelled Invasions

If the Defender's Control Node survives and all the Attacker's Ships are destroyed, the Invasion is over and the Defender retains Control of the System.

10.3 RETREATING FROM INVASION

After a Round of Invasion Combat, the Attacker may choose to Retreat, ending the Invasion. When Retreating, the Attacker may make an Impulse Speed Retreat movement [see rule 9.3].

10.3.1 Surrender in Invasions

In Planetary Invasions, the Defender cannot Retreat but they may Surrender. The Defender may choose to Surrender immediately, even before the first Combat Round. If the Defender Surrenders, the Attacker immediately gains Control of the Sector and the Invasion is over.

Surrender counts as Successful Invasion for effects such as the Cardassian Annexation Special Rule.⁷⁸

10.4 COMBAT CONTINUES

If the Invasion was not Successful or Repelled, another Combat Round begins. Without spending any additional Commands, continue to fight additional Combat Rounds until either the

Attacker Retreats, the Defender Surrenders or the Invasion is resolved.

10.5 INVADING UNCONTROLLED SYSTEMS

Some planets may be Developed but not Controlled. You may Invade Planets that are not Controlled normally. Planets that are not Controlled do not have a Control Node to fight. Resource Nodes on Planets that are not Controlled each add one die, as normal. The player to the right of the Attacker rolls the System's Attacks. Warp-Capable Civilizations' Weapons Hit Rolls are modified by your Shield Modifier normally.

Civilization Level	Weapons Hit Roll	Shields Modifier	Hegemony Resistance
Level One	5+	1	1
Level Two	4+	2	2
Level Three	3+	3	3
Level Four	2+	4	4

The higher the Level of the Civilization, the better their Weapons and Shields.⁷⁹

10.6 RECLAIMING BORG WORLDS

Borg Worlds can be Invaded to eradicate the Borg presence. Any player, including the Federation, may try to Reclaim a Borg World. To successfully Reclaim a Borg World, they must roll enough Hits to result in a Total Annihilation or Successful Invasion (Hits equal to or greater than the number of Structures on the Borg World). Spires, Nodes and Cubes atop Spires all count as Structures.

Player Invasions of Borg Worlds follow the same procedure as any other Invasion, except as amended here.

A Fleet of six Federation Ships attempts to Reclaim a Borg World. The Borg World has three Structures, so the Borg roll three dice.

10.6.1 No First Strike

Unlike Combat with a Cube and defence against Borg Invasion, players do not have First Strike when Invading a Borg World.

10.6.2 Borg Planetary Shields

Borg Worlds have a Shield Modifier equal to the number of green Borg Assimilation Nodes on the System.

Add a Borg Assimilation Node to the System after each Combat Round, increasing the Borg World's Shields and the number of dice it will roll in the next Combat Round (and bringing the

⁷⁸ This rule was clarified for the Unofficial Complete Rulebook.

⁷⁹ Note: Rather than keeping the Civilization card on the table, you can calculate the Independents' Hit Roll by subtracting the number of tokens from 6. E.g. a Level Two Civilization is a 4+ to Hit (6-2=4). The number of Warp tokens are equal to their Shield Modifier and is their base Hegemony Resistance. Their Hegemony Resistance is also increased by the number of Nodes on the System. The values for level four Civilizations were sort of officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 17. 2019).

System closer to building a new Cube in an upcoming Borg Building Phase). Borg Worlds may never have more than three Nodes.⁸⁰

10.6.3 Borg and Collateral Damage

The Borg are able to shrug off Collateral Damage [see rule 10.2.2]; if you roll fewer Hits than there are Structures on the Planet, the attack has no effect and no Nodes are destroyed. If you have fewer Ships than there are Borg Structures, you won't be able to Reclaim the Borg World.

10.6.4 Success

With either successful result (*Total Annihilation* or *Successful Invasion*), the System has been Reclaimed: remove all the Borg Structures. Do not place a player Control Node on the System. The World has been too heavily damaged by the Borg; it must be Colonised [see rule 7.2] anew. The player to Reclaim the System draws a Borg Tech card.

11. HEGEMONY

When your Ships Occupy a Developed Planetary System you don't Control, you may attempt to culturally take over the System through Hegemony. How resistant a System is to Hegemony depends on how developed its infrastructure is and its culture's Ascendancy.

You may not Hegemony Pre-Warp inhabited Systems [see rule 8.8.5.1], they must be Colonised [see rule 7.2] during your Building Phase.

You may not Hegemony Borg Worlds.

Hegemony is not an Attack and does not cause Betrayal [see rule 13.4].⁸¹

11.1 COST OF HEGEMONY

It normally requires spending at least two Culture tokens to take Control of a System via Hegemony; one to make the attempt and another to take Control, if the attempt was successful.

If you don't have two Culture, you can't Hegemony a System, unless you have an Advancement that reduces the cost of Hegemony. You are not allowed to just spend one Culture and remove the opponent's Control Node.⁸²

⁸⁰ This rule was clarified for the Unofficial Complete Rulebook.

⁸¹ Although officially ruled differently in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this rule was changed for the Unofficial Complete Rulebook.

⁸² This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23864230#23864230>).

⁸³ This rule was invented for the Unofficial Complete Rulebook. The original rules didn't cover this eventuality.

⁸⁴ Tip: You can alternately think of your Ascendancy as reducing a System's Resistance, i.e. in the example above, the Romulan's Ascendancy of 2 reduces the Klingon Resistance from 5 to 3, so the Romulans need to roll higher than a 3 to take Control of the System.

11.2 HEGEMONY RESISTANCE

Hegemony Resistance is calculated differently depending on if you are attempting Hegemony against a player Controlled Planet or a Warp-Capable Civilization.

11.2.1 Player Controlled System

The Hegemony Resistance of a player Controlled System is equal to the number of Structures in the System plus the Ascendancy of the player who Controls it. Starbases and Nodes count as Structures and each add 1 to a System's Hegemony Resistance.

11.2.2 Warp-Capable Civilizations

The Warp tokens on an Independent, Warp-Capable System is added to the System's Hegemony Resistance. Independent Civilizations won't have Control Nodes; the Hegemony Resistance of the System is the number of Developed Resource Nodes plus the number of Warp tokens on the System.

If there is a Starbase in the System (which may happen after a player has been Assimilated) it also adds 1 to the System's Hegemony Resistance.⁸³

11.3 MAKING A HEGEMONY ATTEMPT

To attempt Cultural Hegemony, Exhaust a Command and spend a Culture. Next, roll a die and add your current Ascendancy. If the total is higher than the Hegemony Resistance of the System, you may pay an additional Culture token to take Control of the System: place your Control Node on the System.⁸⁴

Note: Even if your Ascendancy is high enough relative to the System's Resistance that Hegemony is going to be automatically successful, you still need to pay a total of two Culture: one for the attempt and one to actually take Control.

Example: The Romulans (at Ascendancy 2) Occupy a Klingon System. The System's three Nodes (two Resource Nodes and the Control Node) and the Klingons Ascendancy of 1 gives the System a Hegemony Resistance of 4. The Romulans use a Command and spend a Culture to Attempt Hegemony. They roll a 3 and add their Ascendancy, getting a total of 5, overcoming the System's Resistance, so they spend another Culture and take Control!

Example: The Romulans now are going to attempt Hegemony of a Level 3 Warp-Capable Civilization. The System has three Developed Nodes, plus the three Warp tokens, giving the System a total Hegemony Resistance of 6. The Romulans will need to get a total of 7 on their Hegemony attempt: With an Ascendancy of 2, they'll need to roll a 5 or better to succeed.

11.4 SEIZING STARBASES AND RESEARCH NODES

As in a Planetary Invasion, when you take Control of a System that contains a Starbase you gain a Command [see rule 10.2.1.2]. Likewise, if you take Control of a Rival's System with Research Nodes, you take one of their Projects for each Research Node. For details, see rule 10.2.1.1.

12. FLEETS & STARBASES

A Fleet is a group of Ships that moves and fights together. Any rules that apply to Ships also apply to Fleets. Grouping Ships into a Fleet allows you to move much more efficiently and may benefit from Fleet Special Rules.

Starbases allow you to build Ships and Commission Fleets away from your Home System.

12.1 FORMING A FLEET

To group Ships into a Fleet, the Ships must be in your Home System or at one of your Starbases. Only these Systems have the facilities necessary to equip and retrofit Starships for specialized Fleet configurations. Exhaust a Command, take the Ships off the map and place them on one of your three Fleet cards. Then place the appropriate Fleet Marker on the map, in the same System.

Specific Fleet Special Rules are collected in Appendix V.

12.1.1 Fleet Type & Strength

Each Civilization has three different Fleet cards, each of which is double sided. The different sides of Fleet cards have different Special Rules and allow for different numbers of Ships. When you Commission a Fleet, you must choose which side you're using. To use a different side of a Fleet card, you must Disband the Fleet and re-Commission it at your Home System or Starbase.

12.1.2 Number of Fleets

The number of Fleets you can form is limited by your Ascendancy.

You cannot have more Fleets in play than you have Ascendancy tokens.

You may form the Fleets in any order, i.e. you may Commission your Fleet #3 when you only have one Ascendancy token.

12.1.3 Bonus Fleet Build

When you're building three or more Ships in the same System during your Building Phase, you may immediately group them into a Fleet, without spending a Command (provided you are

building them where you have the capacity to Commission Fleets).⁸⁵

12.1.4 Adding & Removing Ships from Fleets

On your turn, you may add or remove Ships from Fleets, in the same Sector, without using a Command. You cannot add or remove Ships from a Fleet mid-movement. You do not have to be in your Home System or at a Starbase to add or remove Ships to or from a Fleet.⁸⁶

12.1.5 Disbanding a Fleet

If a Fleet contains fewer than three Ships it is immediately and automatically Disbanded

At any time on your turn, including your Building Phase, you may choose to Disband a Fleet that is not at Warp by taking the Ships off the Fleet card and putting them back on the map, in the same Sector.⁸⁷

It does not take a Command to Disband a Fleet.

12.1.6 Fleets in Space Battles

When rolling to Hit with both a Fleet and individual Ships (or several Fleets), roll the dice for the Fleet separately if the Fleet has a Special Rule that affects its Attacks.

12.2 STARBASES

Commissioning a Starbase is a major endeavour, not to be taken lightly. Starbases count as Structures.

12.2.1 Commission a Starbase

To Commission a Starbase, Exhaust a Command and place a Starbase model next to a System you Control. There is no Resource cost to Commission a Starbase, but each Faction may only place three of them over the course of the entire game.

12.2.1.1 Maximum Number of Starbases

You may only Commission one Starbase per Ascendancy Level you've achieved.

You may Control more than this, if you have taken Starbases from Rivals.

There can only be one Starbase per System.⁸⁸

12.2.1.2 Placing Starbases

Once placed, Starbases cannot be moved to other Systems. They can, however, be swung around the System freely to make room for new Space Lanes. They can even be picked up

and placed on the other side of an existing Space Lane if needed.⁸⁹

12.2.2 Starbases and Commands

Each Starbase you Control increases your number of Commands by one. The additional Command starts Exhausted; you may not use it this Game Round.

12.2.3 Starbases in Combat and Hegemony

Starbases provide an additional die in Space Battles and Planetary Invasions, but can not be destroyed by Rival players.⁹⁰

During Borg Invasions Starbases may, however, be destroyed if they fall to the Borg [see rule 15.4.2].

Starbases provide one point of Hegemony Resistance [see rule 11.2.1].

⁸⁵ This rule was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018).

⁸⁶ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23576497#23576497>).

⁸⁷ This rule was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

⁸⁸ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23454590#23454590>).

⁸⁹ This rule was invented for the Unofficial Complete Rulebook.

⁹⁰ This rule was changed in the Unofficial Complete Rulebook in order to provide consistency.

13. TRADE AGREEMENTS

In *Star Trek: Ascendancy*, you can't directly give Resources or other assets to other players. What you can do is establish Trade Agreements between your Factions, peacefully allowing commerce between otherwise hostile Factions.

Each player starts with three of their own Trade Agreements. Trade Agreements only produce Resources when they're given to another player.

13.1 GIVING AND RECEIVING TRADE AGREEMENTS

To give or receive a Trade Agreement, you must have a Ship or Control Node Adjacent to or in the same Sector as one of that Rival's Ships or Control Nodes. You may do this at any time.

Note that a Trade Agreement may be given out for any reason and does not require anything in return.

Once you have given a Rival a Trade Agreement, you may exchange it for one of your other Trade Agreement cards (that you have on hand or that you have already given to another player) regardless of Ships' positions. This may also be done at any time.⁹¹

Note that the Romulan Suspicious rule will Exhaust any Trade Agreement they receive (be it given, exchanged, passed or drawn from the Exploration deck).

Trade Agreements cannot be given to the Borg.

Note: A Ship that finds itself suddenly stranded on the other side of the quadrant through the effect of an Exploration card can establish a Trade Agreement with a Rival Faction, but it does not count as First Contact.⁹²

13.1.1 Maximum Number of Trade Agreements

You may only hold one Trade Agreement at a time from each Rival. As an exception to the normal rules for Exhausted cards

you may not receive a second Trade Agreement from the same Rival, even if the first one is Exhausted.⁹³

13.2 PEACE

You are considered to be at Peace with any player whose Trade Agreement you currently hold (unless it is Exhausted).

Any Rivals whose Trade Agreements you do not hold are considered Hostile.

13.2.1 Unrestricted Trade Routes

You may freely move through Sectors with Rival Ships with which you're at Peace, unless the Sectors also contain Hostile Ships.⁹⁴

13.2.2 Ally Cooperation

Generally, you are required to Occupy a Planetary System to Colonise, Invade or attempt Hegemony of it.

When Attempting Hegemony, Invading or Colonising a System in which both you and a Peaceful Rival have Ships, you may ask that Rival for permission to Hegemony, Invade or Colonise the System. They may give, or deny, permission. If they deny permission, you may not take any action towards the System until you fully Occupy that System (i.e. are the only player to have Ships in the System).⁹⁵

If more than one Peaceful Rival is present in the System they all need to agree to your actions.⁹⁶

⁹¹ Although officially ruled differently in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this rule was changed for the Unofficial Complete Rulebook in order to simplify play. In the original rules this is not clearly stated.

⁹² This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23952245#23952245>).

⁹³ This rule was clarified for the Unofficial Complete Rulebook.

⁹⁴ This is in accordance with the Advanced Unrestricted Trade Routes rule.

⁹⁵ This was officially added as an optional rule on BoardGameGeek (<https://boardgamegeek.com/article/23454675#23454675>). In the Unofficial Complete Rulebook this rule is always in effect.

⁹⁶ This clarification was added for the Unofficial Complete Rulebook.

13.3 REVOKING TRADE AGREEMENTS

On their turn during the Execution Stage, a player may revoke Trade Agreements they have given out. They may not revoke Trade Agreements at other times.⁹⁷

Revoked Trade Agreements are returned to the original owner of the card.

If you Betray [see rule 13.4] a Rival whose Trade Agreement you hold, you'll have to return it to them.

13.4 BETRAYAL

If you Attack a player whose Trade Agreement you hold, you have broken the peace and must return their Trade Agreement (unless it is Exhausted)⁹⁸. Once a Combat has begun, participants can't exchange Trade Agreements until the Combat is over.

Hegemony is not an Attack and doesn't count as Betrayal.⁹⁹

13.5 EXHAUSTED TRADE AGREEMENTS

Sometimes a Trade Agreement may become Exhausted. You do not receive any Resources from Exhausted Trade Agreements

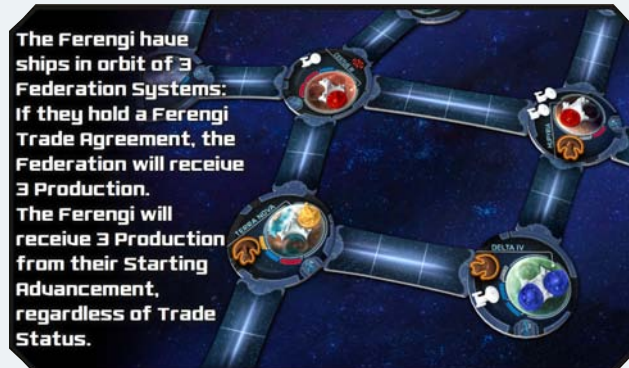

during Resource Generation in the Recharge Stage. Exhausted Trade Agreements may not be revoked or exchanged until they are Refreshed during Maintenance. You are no longer at Peace while the Trade Agreement is Exhausted.¹⁰⁰

Note: The Romulan's Suspicious Special Rule requires them to Exhaust any Trade Agreements when they receive them or have them exchanged. This forces them to wait a turn until they benefit from the Agreement.

13.6 FERengi TRADE AGREEMENTS

Ferengi Trade Agreements work differently than other players' agreements. Rather than producing a specific number of Resources, Rivals who hold a Ferengi Trade Agreement receive a number of Production equal to the number of their Systems with Ferengi Ships in Orbit.¹⁰¹

In turn, the Ferengi's starting Advancement has a similar rule: it generates a number of Production for the Ferengi equal to the number of other players' Systems in which they have Ships. Profits for Everyone!

14. RESEARCH

Research is used to put Advancements into play. Before an Advancement is complete, it is considered a Project. You may have a number of ongoing Projects equal to the number of Research Nodes you Control.

Each completed Advancement adds Special Rules to your Faction and may increase the speed of your Ships or give you additional Commands.

Refer to Appendix IV for a list of all Advancements.

14.1 LAUNCHING PROJECTS

On your turn, you may Exhaust a Command to either look through your Advancement deck and choose one Project to launch or shuffle your Advancement deck and launch two randomly drawn Projects.¹⁰²

⁹⁷ This rule was clarified for the Unofficial Complete Rulebook.

⁹⁸ This is actually important in order not to create a gamey shortcut where you can Refresh Trade Agreements.

⁹⁹ Although officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this rule was changed for the Unofficial Complete Rulebook to provide a more interesting game. That Hegemony didn't count as Betrayal was fairly clear in the original rules, but could be misinterpreted.

¹⁰⁰ This rule was clarified for the Unofficial Complete Rulebook.

¹⁰¹ This rule was clarified for the Unofficial Complete Rulebook. The Ferengi rulebook actually said Occupies instead of Orbits.

¹⁰² Although officially ruled differently in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this rule is changed for the Unofficial Complete Rulebook to be in accordance with the Advanced Focused Research rule in combination with the base game rule.

Add newly launched Projects to your Project Area.

14.1.1 Maximum Number of Projects

The number of Research Nodes you currently Control is the maximum number of Active Projects you may have. You may launch Projects even if doing so would temporarily put you over your maximum number of Projects, but you have to immediately discard enough Projects to keep you within your limit.

Any time you have more Projects in your Project Area than you Control Research Nodes, you must discard a number of Projects until you're back down to your maximum number of Projects allowed.

You may discard Projects that were already in your Project Area or newly launched Projects.

14.1.2 Discarding Projects

Whenever a Project is discarded, it goes back to its Advancement deck and any Research tokens on the Project are returned to the Supply.

Discarded Borg Tech cards go to the bottom of the Borg Tech deck.

14.1.3 Taking Advancements from Other Factions

Special Rules may sometimes allow you to take an Advancement card from another player. Such cards are drawn randomly from the Rival's deck. If you discard an Advancement card that came from another player's Advancement deck, it goes back to that deck.

14.2 FINISHING PROJECTS

When you Commit enough Research tokens to finish a Project, it becomes a usable Advancement. Move it to your Advancement Area. If applicable, you may use the completed Advancement's Special Rules immediately.

When you finish a Project, it's a good idea to let your Rivals know what your new Advancement does.

14.3 EFFECTS OF ADVANCEMENTS

Each Advancement has a Type listed on the right hand edge of the card. Some Advancement rules only effect certain types of Advancements. For example, the Romulans have an Advancement that allows them to Exhaust an "Espionage" card.

14.3.1 Warp Token Advancements

Some Advancements picture Warp tokens in the lower right hand corner of the card. When completed, these Advancements increase the Warp Speed of your Ships, in addition to their Special Rules.

For details on Warp Movement, see rule 8.2.

This Project increases your Ships' Warp Speed by 1

14.3.2 Command Token Advancements

Some Advancements picture a Command token. When you complete an Advancement which pictures a Command, the number of Commands you have immediately increases by one.

This new Command starts Exhausted and will be Refreshed in the following Recharge Stage.

This Project increases your Commands by 1 and your Ships' Warp Speed by 1

14.3.3 Culture Token Advancements

There are some Romulan Advancements which picture a Culture token. When a Romulan player completes these, the Romulans take a Culture token.

Only the Romulan player may take advantage of this; other Factions that develop stolen Romulan Advancements do not receive a Culture token when they develop the Advancement (but they do, in effect, prevent the Romulans from obtaining the token).¹⁰³

14.3.4 Ferengi Espionage

The Ferengi Espionage Advancements Exhaust certain types of cards. Unlike other Espionage cards, the Ferengi may use theirs multiple times per turn, as long as they can pay the Production cost.

14.3.5 Advancements and the Borg

Advancements that apply to "Rival Ships" or "Rival" also apply to the Borg.

Advancements, such as "Cult of Kahless", that automatically destroy a Rival Ship do one damage to Cubes.

14.4 BORG TECH CARDS

Borg Tech cards represent a variety of different data and technology that may be gained by defeating the Borg. Borg Tech cards give players new ways to combat the Borg and defences against them.

The Borg Tech deck is not an "Advancement deck," although each drawn card is played as an Advancement.

Advancements that allow you to draw from a Rival's Advancement deck do not allow drawing of Borg Tech cards.

¹⁰³ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/24191441#24191441>).

14.4.1 Gaining Borg Tech

Players draw a Borg Tech card when they destroy a Cube or Reclaim a Borg World.

Many Borg Tech cards have a Research cost of zero and are placed directly in the player's Advancement Area.

Some Borg Tech cards have a Research cost and are placed in the player's Project Area like other Projects until they have been completed.

14.4.1.1 Maximum Number of Borg Tech Projects

The 14.1.1 Maximum Number of Projects rule applies to Borg Tech Projects in the same way as other Projects.

14.4.2 Using Borg Tech

Many Borg Tech cards require a player to discard the card to use the ability.

When discarding a Borg Tech card, place it at the bottom of the Borg Tech deck.

14.5 EXHAUSTED ADVANCEMENTS

When one of your completed Advancements is Exhausted, you don't get the benefits of that card at while it is face-down. If one of your Advancements picturing a Warp token is Exhausted, you don't get the benefit of that Warp token either, until the card is Refreshed at the end of the Game Round.¹⁰⁴

If the Exhausted card pictures a one-time bonus, such as a Romulan Culture token, that bonus isn't revoked.

¹⁰⁴ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23460046#23460046>).

15. BORG TURN

The Borg are never considered a player Faction, even if there are Assimilated players. The Borg turn(s) during the Execution Stage is therefore never considered a "player turn".¹⁰⁵

The Borg take a Borg turn during the Execution Stage each time their Turn Order comes up.

15.1 BORG BUILDING PHASE

The Borg don't use tokens to build as players do. They place new Borg Assimilation Nodes around Spires and may generate new Borg Cubes.

If there are already five Cubes in play, no new Cubes are built.

15.1.1 Transwarp Hub

During each Borg Building Phase, if the Borg Transwarp Hub System disc is in play, either remove one Delay token from it [see rule 5.8.1.5] or, if there are no Delay tokens to remove, roll to see if it creates a new Cube.¹⁰⁶

If the Transwarp Hub already contains a Borg Cube, do not roll for an additional Cube.¹⁰⁷

15.1.2 Borg Worlds

Each Borg World (a System with a Borg Spire) will take an Action during the Borg Building Phase, depending on the state of the Spire:

- A Borg Worlds with fewer than three Assimilation Nodes build an additional Assimilation Node.
- A Borg Worlds with three Assimilation Nodes and no Cube on top of the Spire build a Cube on top of the Spire.
- A Borg Worlds with a Cube built on their Spire launch their Cube into Orbit of the System and remove all of that World's Assimilation Nodes.

If there is already a Borg Cube in Orbit of a Borg World ready to launch a Cube, leave the Cube on top of the Spire until the next Borg Building Phase.

If a Spire is full, with three Nodes, and there are already five Cubes in play, leave the Assimilation Nodes in place. Once a Borg Cube is destroyed, it will then be available to place on the Spire in a future Borg Building Phase.

If there are not enough Cubes to place on top of all Spires capable of producing one, the Assimilated player with the lowest Turn Order card selects which Spires get Cubes (if there are no Assimilated players, the player with the lowest Turn Order card gets to select).¹⁰⁸

Borg Worlds with fewer than 3 Nodes build an additional Assimilation Node.

Borg Worlds with 3 Nodes and no Cube build a Cube on top of the Spire.

Borg Worlds with a Cube built on their Spire launch their Cube into orbit of the System and remove all of that World's Assimilation Nodes.

15.2 BORG COMMAND PHASE

What drives the Borg is mysterious. Borg Cubes may sometimes hold position, pass by one System in favour of a different target or return to a Borg Spire to expedite Assimilation.

15.2.1 Determining Cube Order

After the Borg Building Phase, Activate each Cube in the order given below. The order in which the Borg Cubes are Activated is selected by the players:

15.2.1.1 No Assimilated Players

If there are no Assimilated players, but more than one Borg Cube in play, players take turns choosing a Cube to Activate, in Turn Order.

This may mean that some players have to disclose their Turn Order card before they have taken their turn.¹⁰⁹

In this case the Activated Cube is selected before its Command card is drawn.

15.2.1.2 Assimilated Players

If there are Assimilated players, an Assimilated player draws a number of Command cards equal to the number of Cubes in play when their Borg turn comes up. The Assimilated player chooses the order in which to Activate each Cube. When Activating each Cube, the Assimilated player may choose which of their drawn Command cards to execute with the Activated Cube.¹¹⁰

¹⁰⁵ This rule was clarified for the Unofficial Complete Rulebook.

¹⁰⁶ This rule was invented for the Unofficial Complete Rulebook to balance the game.

¹⁰⁷ This rule was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Dec 14, 2017).

¹⁰⁸ This rule was invented for the Unofficial Complete Rulebook to fill a gap.

¹⁰⁹ This rule was clarified for the Unofficial Complete Rulebook.

¹¹⁰ This rule was clarified for the Unofficial Complete Rulebook.

15.2.2 Activating Cubes

When Activated, each Cube does the following:

- A First, the Cube engages any eligible player Ships in Space Battle [see rule 15.2.3].
- A Second, have the Cube execute its Command card [see rule 15.2.4]. If the Borg Attack - Command - Attack rule has taken effect [see rule 15.5.1], the Cube then again engages eligible Ships in Space Battle.
- A Third, begin Assimilation of a Developed Planetary System, if possible [see 15.4].

Resolve the Activation of each Cube fully before moving on to the next Cube. After completing a Cube's Activation, place a Borg Activation token on the Cube, to track which Cubes have Activated.

Remove all Activation tokens on Borg Cubes after the Borg Command Phase is finished.

Borg Movement Command cards will have both a Target System and a Warp range. Borg Cubes travel at Warp, like players' Ships. Borg Cubes generally may not move through players' Ships [but see rule 15.5.2].

This Command card orders the Cube to Move at Warp 2 towards the nearest Starbase.

Some cards may cause a Cube to move past or away from the Orbit of a Developed System.

With the above Borg Command, the Cube moves at Warp 2 towards the nearest Starbase, through the nearby Developed System.

Refer to Appendix VI for a list of all Borg Command cards.

15.2.3 Engaging Player Ships

Each Borg Cube begins its Activation by initiating a Space Battle with all player Ships that are in its Sector or, if there are none, it attacks all Ships in Adjacent Sectors. It engages them all simultaneously, even Ships from multiple players. In a Space Battle with multiple players, all players must direct their attacks against the Borg.¹¹¹

At the start of this Borg Cube's Actions, it will engage both the Klingon Fleet and the Federation Ships in a Space Battle. Both players are defending against the Cube.

15.2.4 Executing Command Cards

The Borg use a Command deck to determine what each Borg Cube does during the Borg turn.

After engaging any player Ships, execute a Borg Command card for the Cube. Many of the Command cards are movement cards [see rule 15.3]. Some Command cards will have other directions.

15.2.4.1 Multiple Movement Commands

The *Collective: Linkage* and *Move: Collective* Command cards will direct you to move multiple Cubes. In these cases, move all the Cubes, whether or not they have already Activated this turn, then complete the Activation of the Cube which was Activated with the card.¹¹²

The Activated Cube moves first, but the order in which other Cubes are moved is determined by the player that Activated the first Cube.

Moving Cubes follow rule 15.3 and may explore.

Any moving Cube may cause *Collective Efficiency* [see rule 15.3.1.8] to take effect.

Movement by itself does not cause a Cube to be marked as Activated.¹¹³

The Borg turn is not over until all Cubes have been Activated and marked with Activation tokens (unless the Command card *Polaron Field Disruption* is played, immediately ending the Borg turn).

15.2.4.2 Nearest, Closest and Shortest Path

When the words "nearest", "closest" or "shortest" appear on Borg cards or in the Borg movement rules [see rule 15.3] it means nearest as determined by Warp-distance. Ties are resolved by fewer Sectors (If that is also a tie, move the

¹¹¹ This rule was clarified for the Unofficial Complete Rulebook.

¹¹² This rule was clarified for the Unofficial Complete Rulebook.

¹¹³ Although officially ruled differently in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 15, 2019), this rule was changed for the Unofficial Complete Rulebook in order to increase the Borg threat and provide consistency.

Cube towards the equidistant System selected by the player who Activated the Cube).¹¹⁴

The Borg travel via the Transwarp Hub and through the Conduits, if that is the shortest route to their Target System.

Some Borg Exploration cards will nominate the "nearest" Cube to be moved to the System. If there are Borg Cubes on the map, but not Connected when they are required to be moved to such a new System, a new Cube is placed instead (if available - otherwise no Cube is placed).

Otherwise the nearest Connected Cube is "teleported" to the System without regard to distance or blocking Ships.¹¹⁵

15.2.5 Assimilation

After resolving the Borg Command card for the Cube, start Assimilation of an eligible Planetary System [see rule 15.4].

15.3 BORG MOVEMENT

In general, a moving Borg Cube will try to move towards its indicated Target using its Warp-range. If the Target can be reached or if the Cube can complete its entire move towards the Target, that is where the Cube will move. If that can't be done, the Cube will instead explore new Space Lanes and potentially a new System. If that isn't possible either, the Cube will try to move Adjacent to a Rival Ship or activate Collective Efficiency [see rule 15.3.6.8]. If all movement alternatives fail, the Cube will not move at all.¹¹⁶

Sectors may never contain more than one Cube (unless one of them is still atop a Spire).¹¹⁷

15.3.1 Executing a Movement Command

The Movement Command card will indicate a Target type (Borg World, Rival Ship or Fleet, Developed System, Starbase or Home System) and a Warp range (1, 2 or 3 Systems).

For all Target types, the Sector Adjacent to the Target is instead considered the Target Sector if the main Sector already contains Rival Ships or Fleets (but not other Cubes).

Any applicable Target already containing a Borg Cube is considered not to exist and ignored for Target determination.

When executing a Movement Command card follow rules 15.3.1.1 to 15.3.1.11 below in the order given, until the Cube ends its move. Also refer to the Borg Movement flow-chart as a handy reference.

Note that rule 15.5.2 will affect if Ships can block the movement of a Cube.

15.3.1.1 Locate Target

If the Target type indicated by the Command card is not on the map or Connected to the Cube, the Cube will explore [see rule 15.3.1.5].

Example: The Cube at B has been Activated with a "Move: Target Developed System (3)" Command card. Since the Cube is not Connected to any Target Sector, the Cube will explore.

15.3.1.2 Far Away Target

If the closest Connected Target of the indicated type is further away than the current Warp range of the Cube and the entire Warp range is unblocked by Rival Ships and Fleets, the Cube will complete its entire Warp move towards the Target and end its move.

15.3.1.3 Reachable Target

If there is a Target of the type indicated that the Cube can reach (or stay at, if already there) with its current Warp range, the Cube will move to the closest such Target and end its move.

Example: The Cube at B has been Activated with a "Move: Target Developed System (3)" Command card. It will move to Sector A since it is of the indicated type and within the Warp range of the Cube.

¹¹⁴ This rule was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018).

¹¹⁵ This rule was clarified for the Unofficial Complete Rulebook in order to avoid confusion. Note that this rule deviates from an official answer given in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018).

¹¹⁶ This rule was completely rewritten in comparison to the official rule. This was done in order to make it clear how the Borg Cubes move and to allow the Borg to explore more and spread out. Without the ability for the Borg to create new Connections when blocked from their Target, they will almost certainly end up focusing on only one player and becoming less of a threat to the others.

¹¹⁷ Note that this rule doesn't mean that Borg Cubes can't fly past each other. If they have enough movement and their path isn't blocked they will fly past any other Cubes, only activating the Collective Efficiency rule if they would actually have landed in the exact same Sector as another Cube. Part of this rule was also officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018).

Example: The Cube at B has been Activated with a "Move: Target Developed System (3)" Command card. In this case the Cube will move to Sector D since it is the closest Target that can be reached (Sector K, although closer, is blocked by a Ship).

15.3.1.4 Blocked Target

If the Cube is Connected to one or more Targets, but can't reach any of them or use its full Warp range because it would have to stop Adjacent to a blocking Rival Ship or Fleet, the Cube will move Adjacent to the Ship or Fleet blocking the closest such Target that doesn't already have a Cube Adjacent to it and end its move. If there are already Cubes Adjacent to all such Ships or Fleets, the Cube will instead explore [see rule 15.3.1.5].

Example: The Cube at B has been Activated with a "Move: Target Developed System (3)" Command card. The Target at K, although closest and in range but blocked, already has a Cube Adjacent to the blocker at C. The Activated Cube will therefore move to Sector A and end its move Adjacent to the Ship blocking the path to the second closest target at D.

15.3.1.5 Cubes Exploring

If an exploring Cube can place a new Space Lane from its current Sector it will do so [see rule 15.3.1.9]. If it cannot it will try to move to a System where that is possible [see rule 15.3.1.6].

15.3.1.6 Move to Another Sector to Explore

If an exploring Cube starts in a Sector where exploration is impossible (a Space Lane or a System with no more possible connections), it will move to the nearest System from which exploration is possible and start exploring [see rule 15.3.1.9]. If no such System can be reached, the Cube will instead try to move to a Sector Adjacent to the closest Rival Ship or Fleet [see rule 15.3.1.7].

Example: The Cube at B has been Activated with a "Move: Target Developed System (3)" Command card. Since no Target Sector can be reached the Cube will explore, but since it is in a Space Lane it will first move to Sector S in order to be able to place a new Space Lane.

15.3.1.7 Move Adjacent to Rival Ship

If a Cube unable to explore can move Adjacent to a Rival Ship or Fleet it will move to the closest such Ship or Fleet and end its move.

Failing that, the Cube will try to activate Collective Efficiency [see rule 15.3.6.8].

If nothing of this is possible the Cube will not move at all.

15.3.1.8 Collective Efficiency

When a Cube is unable to reach its indicated Target, move towards it using its full Warp-range, explore a new Space Lane and/or a new System or move Adjacent to a Rival Ship, it will try to move Adjacent to another Cube already blocked from reaching a Target in compliance with the current Command card and end its move.

If the Cube can reach such a Sector and after its Activation is complete, Activate the stationary Cube [see rule 15.2.2], even if it has already been Activated one or more times this turn. In either case, this counts as an Activation of the stationary Cube and it is marked with an Activation token (unless already so marked).

"The Borg value efficiency, not redundancy." - Seven of Nine

15.3.1.9 Placing Space Lane

When an exploring Cube is able to leave a System and start exploring, it will point a newly generated Space Lane as directly as possible (measured by angle) in a random direction [see rule 15.3.5 for determination of a random direction]. When placing the new Space Lane, the Borg Cube may swing other Floating Systems and Space Lanes (but not the System it is in)¹¹⁸, but only to allow the new Space Lane to point as directly as possible towards the designated random direction.

If the Space Lane can't be placed see rule 15.3.2.

Note: In the unlikely case where a new Space Lane placed in a random direction fits exactly as a direct connection to a previously existing System, the Cube will, in order, try to reach a Target in accordance with rule 15.3.1.10, try to activate Collective Efficiency [rule 15.3.1.8] or, failing both these alternatives, end its move in the previously existing System.

¹¹⁸ Although it may seem inconsistent not to allow the System the Cube is in to be swung, the reason is to limit the possible variations to where the new Lane can be placed. Allowing more placement options will create a need for even more rules. Also note that the reason for pointing the Lane towards a randomly determined Home System is not to make that System a Target, but rather just to use the fixed positions of those Systems to generate a random direction.

15.3.1.10 Making a Connection

The Cube will then try to create a Connection (by swinging any Systems (including the one it is in) and Space Lanes necessary) that will allow it to move to and reach the closest Target that matches the type on the Command card (not necessarily the Target that would have been closest at the start of the move).

Example: The Cube at B has been Activated with a "Move: Target Developed System (3)" Command card. Since no Target Sector can be reached the Cube will explore.

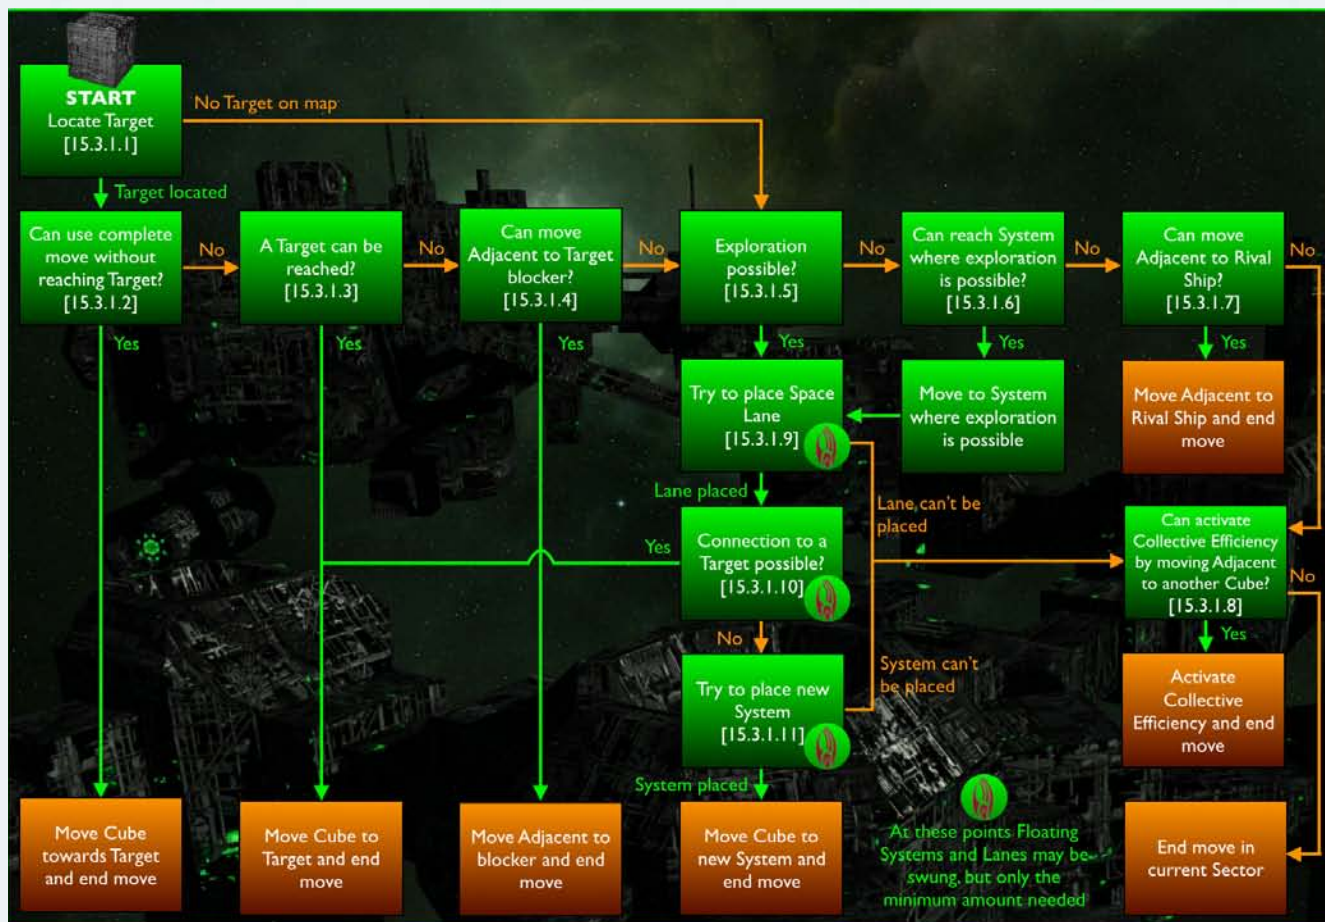

Continued Example: It generates a "4" length Space Lane (L) and points it in a randomly determined direction (in this case it happens to be towards System K). The new Space Lane is long enough to create a Connection to K that enables the Cube to reach the Target at K. In order to connect to K, the System at S has to be swung away.

15.3.1.11 Placing New System

If no such Connection can be made (including if all potential Targets would be blocked or out of Warp range), the Cube will try to place a new System (and may swing any Systems (including the one it is in) and Space Lanes required to do that), move into it and end its move (drawing an Exploration card, if applicable [see rule 15.3.6]).

If a new System can't be placed see rule 15.3.2.

The Borg Movement flow-chart covers the rules for how Borg Cubes move. Be sure to check the relevant rule cases for details.

15.3.2 Unplaceable Space Lanes & Systems

If a Space Lane or System can't be placed (because there is no room within the Playing Area) the Cube will try to move to a Sector Adjacent to another Cube already blocked from reaching the closest Target, activating Collective Efficiency [see rule 15.3.1.8]. If this isn't possible the Cube will end its move where it is.

15.3.3 Swinging Systems

When a Cube is allowed to swing Systems and Space Lanes [see rules 15.3.1.9, 15.3.1.10 and 15.3.1.11], it may only swing the Systems and Space Lanes necessary to create the intended Connection. It may not swing Systems and Space Lanes further than the minimum amount required.¹¹⁹

15.3.4 Tie for Nearest/Closest/Minimum Amount

In all cases where there is a tie for nearest/closest System, Target Sector or minimum amount of swinging, the player Activating the Cube may choose where to move the Cube between the tying Sectors or which Systems and Space Lanes are swung.

15.3.5 Determining a Random Direction

To randomly determine a direction when the Borg explore, roll a die. The direction towards the Home System of the player with the lowest Turn Order card corresponds to a roll of "1", the direction towards the next Home System in a clockwise direction corresponds to "2" and so on.¹²⁰

Example: In a three player game Earth (white), Romulus (green) and Kronos (red) are arranged in that clockwise order. Earth belongs to the player with the lowest Turn Order card (1 in this case) and a "5" is rolled to determine a random direction. This means the direction towards Romulus is randomly determined.

15.3.6 The Borg and Exploration Cards

When the Borg place a new Planetary System, reveal an Exploration card. If the Borg discover a Civilization, develop the System as normal [see rule 8.8.5]. Borg ignore Crisis, Discovery and Ally cards. Ally cards are discarded to the bottom of the Exploration deck, other ignored cards to the normal discard pile. Place "Remains in Play" Exploration cards on the System.¹²¹

15.4 BORG ASSIMILATION

After resolving its Command, a Borg Cube will attempt to Assimilate any Developed Planetary System the Cube Occupies. This counts as a Planetary Invasion. The Borg are not trying to wrest Control of the System, they are trying to peel apart the world, stripping it of all technology. There will be no survivors.

After resolving its Command Card, a Borg Cube Occupying a Developed System will Begin Assimilation.

15.4.1 The Borg in Invasions

When a Borg Cube Invades, it starts with 9 Attack Dice and ignore Shields, just as it does in a Space Battle. The System being Assimilated rolls a die for each of its Structures, as in a standard Planetary Invasion. However, the Borg aren't interested in capturing any Structures intact: Hits the Borg score always destroy Structures.¹²²

Borg Cubes use Shields [see rule 9.8.5] and Regenerate [see rule 9.8.3.4] lost dice during Invasion just like they do during Space Battles. The defender has First Strike [see rules 9.1.2 and 9.8.1].¹²³

If the Borg destroy all the Structures on a System (including any Starbase), place a Borg Spire on the System; this is now a Borg World. The System will gradually be absorbed during future Borg Building Phases and its resources mined to expand the Borg Collective.

15.4.1.1 Allocating Borg Hits to Structures

Borg inflicted Hits must first be allocated to Resource Nodes. When all Resource Nodes have been destroyed, any Starbase present can be Hit. A Control Node cannot be destroyed until all other Structures have been destroyed.¹²⁴

¹¹⁹ Tip: In order to determine how Space Lanes and Systems can be swung it can be useful to test possible placements and connections with unused Space Lanes and System discs (without revealing the System). If it is hard to determine what constitutes the minimum amount of swinging, the player that Activated the Cube has final say.

¹²⁰ Note that the intention here is to generate a random direction for the newly placed Space Lane; the generated Home System does not become the Target for the Cube. Also note that if you are not playing on a symmetrically arranged map you may want to decide on some other method of generating the random direction. In a solo game the random direction will always be towards the player's Home System.

¹²¹ This rule was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27, 2018).

¹²² This rule was clarified for the Unofficial Complete Rulebook.

¹²³ This rule was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27, 2018).

¹²⁴ Although clarified in an official email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019) the Unofficial Complete Rulebook handles this partly differently.

When there are no Assimilated players, the defending player (or the player that Activated the Cube in the case of independent Civilizations) may decide how to allocate Hits between the Resource Nodes. When the Borg are controlled by an Assimilated player, that player may pick which Resource Nodes were Hit.¹²⁵

15.4.2 Assimilating Starbases

Starbases are the pinnacle of technological sophistication, full of exactly the sort of technology the Borg are seeking. When the Borg Assimilate a World with a Starbase, remove the Starbase from the game and add a Borg Assimilation Node to every Borg Spire in play. Starbases removed in this way cannot ever be rebuilt.

15.4.3 Home System Assimilation

If a player's Home System (even if no longer Controlled by the original owner and even if the player has been Exterminated)¹²⁶ is Assimilated by the Borg, they have been fully absorbed into the Collective. The Borg Collective has Assimilated all their technology and tactics. Resistance would, at this point, be futile.

15.4.3.1 Assimilated Players

Remove all the Assimilated player's remaining Ships. For each System they Control, remove their Control Node and place a number of Warp tokens on the System equal to the number of Resource Nodes (up to a maximum of four)¹²⁷ on the System, marking the System as a level 1, 2, 3 or 4 Independent Civilization. These Systems can be Invaded or taken via Hegemony by the remaining players, or Assimilated by the Borg.

All Trade Agreements originally belonging to an Assimilated player are discarded. Advancements the Assimilated player has taken from other Factions are returned to their respective decks, while Advancements taken from the Assimilated player by other Factions are kept.¹²⁸

Assimilated players don't take Borg turns until the next Game Round after they were Assimilated.¹²⁹

15.4.3.2 One with the Collective

A player whose Home System is Assimilated by the Borg has become one with the Collective. They will now contribute their knowledge and expertise to the Collective. After a player is Assimilated by the Borg, they gain some measure of control over the Borg's turns [see rules 9.8.3.2, 15.2.1.2 and 15.4.1.1].

Assimilated players and the automated Borg are never counted when determining "the player to your right" on Confrontation, Cardassian Armistice Accords or Lost Colony Exploration cards. When only one unassimilated player remains, these cards are discarded when drawn by the player and replaced by drawing new cards. The Borg just discard such cards without effect.¹³⁰

When the Ferengi Arms Dealer, Ferengi Researcher and the Grand Nagus Ally cards are "passed to your left", Assimilated players are ignored. If only one unassimilated player remains he keeps those cards for the rest of the game.¹³¹

Assimilated players remain Assimilated for the rest of the game, even if their Home System is later reclaimed by another player.¹³²

15.4.3.3 Borg Turns

If more than one player is absorbed by the Borg, each Assimilated player receives a different, random Turn Order card and will take a full Borg turn when it is their go. With multiple Assimilated players, the Borg will be taking multiple turns every Game Round.

"You can't outrun them, you can't destroy them. If you damage them, the essence of what they are remains. They regenerate and keep coming. Eventually you will weaken. Your reserves will be gone. They are relentless!" - Q

¹²⁵ This rule was partly clarified in an official email (Email answer from Peter Przekop, Gale Force Nine, LLC, Dec 14. 2017).

¹²⁶ This rule was was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 17. 2019).

¹²⁷ The presence of level 4 Independent Civilizations was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

¹²⁸ This rule was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018).

¹²⁹ Although this was ruled slightly differently in an official email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018) the method presented here simplifies the Assimilation process without altering the game significantly.

¹³⁰ This rule was partly clarified in an official email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018) and partly adjusted for the Unofficial Complete Rulebook.

¹³¹ This rule was clarified for the Unofficial Complete Rulebook and is in line with a similar official answer in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018).

¹³² This rule was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

15.5 BORG ESCALATION

As the game progresses the Borg will become more and more aggressive.¹³³

15.5.1 Borg Attack - Command - Attack

After the first reshuffle of the Borg Command deck the following rule takes effect:

Each Borg Cube engages Adjacent or same Sector player Ships in Space Battles both before and after executing a Command card.

On top of that, a Borg Cube which is Executing the *Command::Aggression* card ignores the Borg's *Slow & Methodical* rule [voiding players' *First Strike*, see rule 9.8.1].

15.5.2 It Takes a Fleet

After the second reshuffle of the Borg Command deck the following rule also takes effect:

Only Fleets block Borg Cubes' movement. Individual Ships no longer block Borg Cubes moving.

16. OPTIONAL RULES

The *Unofficial Complete Rulebook* is set up to provide an epic game of *Star Trek: Ascendancy*. This means that all Advanced Rules from the base game rulebook are always in play and that the Borg may have a presence. Most of the base game rules replaced by the Advanced Rules are presented below as options for players who want a simpler or quicker game.

Generally you may use any, all or none of the optional rules in your games. Some of them are mutually exclusive, however and this has been noted where applicable.

Select which options are in play before the game starts.

16.1 HARD GAME

The following rules present an extra challenge. Some of them may also increase the randomness in the game.

16.1.1 Instant Delta Quadrant Connection

Don't put any Borg Delay tokens on the Transwarp Hub at game start. The Hub will start generating Cubes on the first turn.¹³⁴

This rule changes rule 5.8.1.5.

16.1.2 Closer Delta Quadrant Connection

When setting up the game, the closer you place the Transwarp Hub to players' Home Systems, the sooner the Borg will make contact.

Placing it approximately 18" away from players' Home Systems is a good starting point, but this distance can be shortened to increase the Borg threat.

This rule changes rule 5.6.1.

16.1.3 Early Crises

Don't discard Crisis cards during exploration in the first Game Round in a Humble Beginnings [rule 5.8.1] game.¹³⁵

This rule changes rule 5.8.1.6.

T'Pol considers the options

16.1.4 Borg Attack - Command - Attack

This is the same as rule 15.5.1, put into play from the start of the game.

16.1.5 It Takes a Fleet

This is the same as rule 15.5.2, put into play from the start of the game.

16.1.6 Three Spires & You're Out

If the Borg have three Spires on the table and need to place a fourth, all players have lost.

This rule changes rule 2.3.4.

16.1.7 Limited Ships and Control Nodes

Limit the Ships and Control Nodes available to each Faction to 30 Ships and 10 Control Nodes.¹³⁶

This rule changes rule 5.7.5.

¹³³ This rule was invented for the *Unofficial Complete Rulebook*, but uses standard optional rules from the Borg expansion.

¹³⁴ This is the standard rule from the Borg Expansion.

¹³⁵ This is the base game rule for Exploration cards.

¹³⁶ This is the base game rule for available Ships and Control Nodes.

16.1.8 Epic Ascendancy

Play a Humble Beginnings [rule 5.8.1] game from zero to six Ascendancy (instead of five).¹³⁷

This rule changes rule 2.3.1.

16.2 QUICK GAME

The following optional rules make the game play a little faster. These can be useful if you're short on time, but note that they may lessen the epic feel of the game and make it more random.

16.2.1 Simultaneous First Turns

All players take their first turns simultaneously, building and spending their Commands at the same time. Players may not make First Contact during this turn. If everyone agrees, you may also take your second turn simultaneously.

This rule is most useful in a Humble Beginnings [rule 5.8.1] game.

16.2.2 Limited Ships and Control Nodes

This rule is the same as rule 16.1.7.

16.2.3 Easier Ascension

Ascendancy tokens only cost four Culture tokens instead of five.

This rule changes rules 2.3.1, 6.2 and 7.6.

16.2.4 Quicker Ascension

Allow victory with just four (or even three) Ascendancy.¹³⁸

This rule changes rule 2.3.1.

16.2.5 Starting Project

During the Game Set Up, each player starts with one additional Project in their Project Area. If you're a new player, draw the Project randomly. If you're more experienced, you can pick which Project you start with.

This rule changes rules 5.7.3 and 5.8.1.3, 5.8.2.3, 5.8.3.3, 5.8.4.3 or 5.8.5.3.

16.2.6 Starting Advancements

During the Game Set Up, each player starts with one additional completed Advancement. Players can either draw the Advancement randomly or look through their Advancement Deck and choose which Advancement they'd like.

This rule changes rules 5.7.4 and 5.8.1.3, 5.8.2.3, 5.8.3.3, 5.8.4.3 or 5.8.5.3.

16.2.7 Wild Culture

Culture tokens may also be used as either Production or Research tokens.

16.3 EASY GAME

The following optional rules will make the game a little easier. This can be useful with beginning players.

16.3.1 Unstable Peace

Instead of enjoying Unrestricted Trade Routes [rule 13.2.1], you must ask for permission to enter or move through a Sector which contains Rivals' Ships with whom you are at Peace. They may agree or not, as they wish. If they don't agree, you must end your Movement.¹³⁹

Note: If a Rival denies you access to their Sector, you can't reverse your course and take back the Movement used to get there. If you were traveling at Warp Speed, you must end your Movement in the Sector previous to theirs.

This rule changes rules 8.3 and 13.2.1.

16.3.2 Revoking Trade Agreements

Easily made, easily broken: you can revoke any of your Trade Agreements (unless they are Exhausted) at any time, for any reason.¹⁴⁰

This rule changes rule 13.3.

16.3.3 Random Projects

Shuffle your Advancement deck at the start of the game.

Instead of selecting which Projects to launch, on your turn, you may only Exhaust a Command to randomly draw two cards from your Advancement deck and add them to your Project Area.¹⁴¹

You may still not have more Projects than Research Nodes.

When discarding Projects, place any discarded cards at the bottom of their respective Advancement decks and return any Research tokens on the discarded Projects to the Supply. Do not shuffle the Advancement decks again.

This rule changes rule 14.1.

16.3.4 Later Phenomena

At setup, separate the Interstellar Phenomenon System discs from the Planetary System discs. Next, set aside a stack of random Planetary System discs equal to twice the number of players, i.e. 6 Planetary Systems for a three-player game. These are your starting Planetary Systems. Shuffle the remaining Planetary Systems with all the Phenomenons, then place the starting Planetary Systems on top, creating a stack of all the System discs with the starting Planetary Systems on top.¹⁴²

¹³⁷ This rule was invented for the Unofficial Complete Rulebook.

¹³⁸ This rule was invented for the Unofficial Complete Rulebook.

¹³⁹ This is the base game rule for how Peace is handled.

¹⁴⁰ This is the base game rule for how Trade Agreements are revoked.

¹⁴¹ This is the base game rule for how to start Projects.

¹⁴² This is the base game rule for how to handle Phenomena.

This rule changes rule 5.4.1.

16.3.5 Exploration Mulligan

Allow each player two mulligans of unwanted Exploration cards over the course of the game. When a mulligan is taken, the unwanted Exploration card is discarded and another card is drawn to replace it.¹⁴³

16.3.6 Open Turn Order

Only use one Turn Order card per player plus one for the Borg.

The Turn Order cards remain face-up throughout the Game Round.¹⁴⁴

This rule changes rule 6.1.3.1.

16.3.7 Random Turn Order

Instead of devoting Resources to choosing Turn Order cards in the Initiative Stage, pass the Turn Order cards out randomly each Game Round.¹⁴⁵

This rule changes rule 6.1.

16.4 SOLO AND TWO PLAYER GAMES

As noted in rule 1.3.3 the solo and two player games change the main focus of *Star Trek: Ascendancy* and are therefore presented as optional.

16.4.1 The Solo Game

A solo game uses all rules as outlined in the *Unofficial Complete Rulebook* with the following amendments:

The game cannot be won through a Supremacy victory [see rule 2.3.2]. This rule changes rule 2.3.

A solo game is always played with the Delta Quadrant Connection [rule 5.3.4]. The No Borg [rule 5.3.1], Some Borg [rule 5.3.2] or Delta Quadrant Probe [rule 5.3.3] rules are never used.

A solo game uses the *Open Turn Order* optional rule [rule 16.3.6].

16.4.1.1 Removed Cards

Remove all *Confrontation*, the "Q", *Cardassian Armistice Accords*, *Xenophobic Uprising*, *Diplomatic Summit*, *Lost Colony*, and *Talosian Benefactors* Exploration cards before the game starts.¹⁴⁶

Remove the following Advancements (even from unplayed Factions):¹⁴⁷

Cardassian: *The Obsidian Order*.

Federation: *Bureau of Security and Multicultural Collaboration*.

Ferengi: *The Bigger the Smile, The Sharper The Knife, Hear All. Trust Nothing* and *Whisper Your Way to Success*.

Klingon: *Covert Saboteurs*.

Romulan (unless you play the Romulans): *Multi-Spectral Emitter Drones*, *Tal Shiar* and *Tal Shiar Monitoring Posts*.

Faction Trade Agreements are not used.

16.4.1.2 Modified Cards

Any Allies drawn during exploration stay with you throughout the game.

If you draw the *Orion Trader* Exploration card, you may draw a random Advancement from any Faction not in play.

16.4.1.3 Balancing the Solo Game

Although the solo game will provide an interesting challenge using any of the Starting Levels in rule 5.8, a player may want to adjust that challenge.

Using the *Quick Game* [rule 16.2] or *Easy Game* [rule 16.3] optional rules may both shorten the game and make it a little easier.

Another simple way of decreasing the Borg threat is to add one or more Delay tokens [see rule 5.8.1.5] to the Transwarp Hub.

If you instead want to increase the challenge of the solo game, any of the *Hard Game* [rule 16.1] optional rules may be used or you may remove one or more of the Delay tokens [see rule 5.8.1.5].

16.4.2 The Two Player Game

A two player game uses all rules as outlined in the *Unofficial Complete Rulebook* with the following amendment:

The game cannot be won through a Supremacy victory [see rule 2.3.2]. This rule changes rule 2.3.

A two player game is always played with the Delta Quadrant Connection [rule 5.3.4]. The No Borg [rule 5.3.1], Some Borg [rule 5.3.2] or Delta Quadrant Probe [rule 5.3.3] rules are never used.

A two player game uses the *Open Turn Order* optional rule [rule 16.3.6].

A two player game may use any other set of optional rules that is agreed upon.

16.5 OTHER OPTIONS

The other options change the game in various ways without affecting difficulty or play time significantly.

16.5.1 Multi Faction Space Battles

There will always be multiple defenders whenever a player attacks a Sector containing more than one other player's Ships. All Factions present are Attacked, but the Attacker decides how to allocate their Hit Rolls. All Ships in the Sector being Attacked must roll to Hit the Attacker (in the confusion of an incoming attack, they're going to react). After every Combat Round, all

¹⁴³ This rule was invented for the *Unofficial Complete Rulebook*.

¹⁴⁴ This is the base game rule for Turn Order cards.

¹⁴⁵ This optional rule is really not recommended, since it will lessen the tactical choices available and may affect game balance. It is only included in the *Unofficial Complete Rulebook* for completeness.

¹⁴⁶ This was partly clarified in an official email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018).

¹⁴⁷ This rule was invented for the *Unofficial Complete Rulebook* and diverts from an official clarification given in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

combatants may choose to Retreat, as normal. The Hostile/Peaceful status [see rule 13.2] doesn't effect the situation. This may result in Trade Agreements being cancelled for Betrayal [see rule 13.4].¹⁴⁸

This rule changes rule 9.7.

16.5.2 More Interesting Exploration

Vary the ratios in the Exploration deck by removing one or more Virgin Worlds. If you want, you can make the deck more or less dangerous by removing a number of Discovery or Crisis cards respectively. Note that some Factions may benefit more than others if you change the ratios dramatically.¹⁴⁹

16.5.3 More Space

If you have a large player count on a limited Play Area you may wish to remove the 4-Sector Space Lanes to make better use of the limited space. Roll a standard die - 1-3: place a 2-Sector Lane, 4-6: place a 3-Sector Lane.¹⁵⁰

16.5.4 Unlimited Ships & Control Nodes

There is really no reason why Ships and Control Nodes should be limited to a set number. Get more Escalation Packs or use any convenient substitutes to allow an unlimited supply.

¹⁴⁸ This is the official rule for multiple defenders as outlined in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Nov 27. 2017).

¹⁴⁹ This rule was invented for the Unofficial Complete Rulebook, but is a fairly common house rule.

¹⁵⁰ This rule was invented for the Unofficial Complete Rulebook.

APPENDIX I. SYSTEMS

The following is a list of all Systems available in the game. For each System basic data is given in short form in parenthesis after the System name. It is indicated from which expansion the System comes; *Star Trek: Ascendancy* base game (STA), *Cardassian expansion* (CE), *Ferengi expansion* (FE), *Borg expansion* (BE), *Andorian expansion* (AE), *Vulcan expansion* (VE), if the System is Hazardous (H#), what the System's Capacity is; Production (P), Research (R), Culture (C), Open (O) and how many Space Lane connections it can support.

For example, **Cestus III (STA H5 PPR-3)** is from the *Star Trek: Ascendancy* base game, it is Hazardous level 5, can have two Production Nodes and one Research Node and can support three Space Lane connections.

PLANETARY SYSTEMS

Ardana (STA PRO-5): Two caste society, TOS episode 3x21 "The Cloud Miners".

Argo (STA O-3): Aquatic planet, TAS episode 1x13 "The Ambergris Element".

Argolis Cluster (BE PRRO-5): A stellar cluster of six star systems including Tagra IV. A Borg ship crashed here with one surviving drone who became known as Hugh (TNG episode 5x23, "I, Borg"). Later the Enterprise delivered relief supplies (TNG episode 6x06, "True Q"). Location of conflicts during the Dominion War (DS9 episodes 6x04, "Behind Enemy Lines" and 6x21, "The Reckoning").

Bajor (CE PCO-4): Home of the Bajorans and site of Deep Space Nine.

Capella (STA PPC-3): Fought over by Federation and Klingons, TOS episode 2x11 "Friday's Child".

Cardassia Prime (CE PRC-4): Home of the Cardassians.

Cestus III (STA H5 PPR-3): Attacked by the Gorn, TOS episode 1x18 "Arena".

Coridan III (CE PR-4): A Planet with valuable resources including Dilithium. TOS episode 2x15 "Journey to Babel". Captain Archer and Sub-Commander T'Pol visited the planet and were kidnapped. Enterprise episode 1x15 "Shadows of P'Jem". Attacked by the Dominion. DS9 episode 6x14 "One Little Ship".

Dakala (STA P-5): A rogue planet discovered in 2151 by the NX-01, Enterprise episode 1x18 "Rogue Planet".

Delta IV (STA RRO-3): Homeworld of Lt. Ilia, *Star Trek: The Motion Picture*.

Deneb V (STA RRC-4): Federation Academy of Sciences, Harry Mudd escaped from here, TOD episode 2x8 "I, Mudd".

Dopteria (FE PPR-3): Home to the Dopterians, a race similar to the Ferengi. TNG episode 7x21 "Firstborn". DS9 episode 1x17 "The Foresaken".

Earth (STA PRC-4): Home of the Humans.

Excalbia (STA H4 PP-3): A volcanic planet where Kirk and Spock battle illusionary enemies in a test of good and evil, TOS episode 3x22 "The Savage Curtain".

Exo III (STA H6 R-2): Location of Dr. Roger Korby's research station, TOS episode 1x07 "What Are Little Girls Made Of?".

Ferenginar (FE PRC-4): Home of the Ferengi.

Goralis (CE H5 PRR-5): System in Cardassian territory. Worf and Ezri Dax were attacked by the Jem'Hadar and later captured by the Breen. DS9 episode 7x17 "Penumbra".

Hupyria (FE PO-3): Home of Malhar'du the Grand Negus' servant. DS9 episode 4x11 "The Nagus".

Indri VIII (STA RC-3): Uninhabited planet with a biosphere that was destroyed by the Klingon cruiser IKS Maht-H'a, TNG episode 6x20 "The Chase".

Izar (STA PRO-4): Home of Fleet Captain Garth, TOS episode 3x14 "Whom Gods Destroy".

Janus VI (STA H6 RR-2): Mining planet, scene of several murders, TOS episode 1x25 "Devil in the Dark".

Kronos (STA PRC-4): Home of the Klingons.

Kurl (CE C-3): Site of the extinct Kurlan civilization. Archaeologist Richard Galen gave an artifact from here to Captain Picard. TNG episode 6x20, "The Chase".

Lytasia (FE PRO-4): Home of the Lytasians who fought a war with the Ferengi. Mentioned in DS9 episode 6x10 "The Magnificent Ferengi".

Magna Roma (CE PP-3): Location of a Roman Empire culture with 20th century technology. TOS 2x25 "Bread and Circuses".

Ohniaka (BE RO-1): Location of a Federation research station destroyed by the Borg in 2369 (TNG episode 6x26, "Descent").

Prexnak (FE H5 PRR-5): Site of a battle between the Ferengi and Lytasians. Mentioned in DS9 episode 6x10 "The Magnificent Ferengi".

Regulus V (CE RO-4): Noted for its eel birds. Mentioned in TOS episode 2x05, "Amok Time".

Risa (STA C-4): Pleasure planet, various TNG episodes.

Rog (FE H5 PP-1): Location of a Ferengi detention facility. DaiMon Bok was imprisoned here after trying to kill Captain Picard. TNG episode 7x22 "Bloodlines".

Romulus (STA PRC-4): Home of the Romulans.

Rura Penthe (STA H5 PP-2): Klingon prison planet. *Star Trek VI, The Undiscovered Country*, Enterprise episode 2x19 "Judgement".

Sherman's Planet (STA PPO-3): Destination of quadrottricale shipment. TOS episode 2x15 "Trouble With Tribbles".

Sigma Draconis (CE H6 PRC-4): The Enterprise travels here to recover Spock's brain. TOS episode 3x01, "Spock's Brain".

Sigma Tama IV (STA PC-3): Homeworld of the Children of the Tama, TNG episode 5x02 "Darmok".

Son'a Prime (STA PR-3): Son'a homeworld. The Son'a appear in *Star Trek: Insurrection*.

Straleb Madena (FE RC-4): Inhabitants formed the Coalition of Madena. TNG Episode 2x04, "The Outrageous Okona".

Tau Cygna V (STA H6 PPC-4): Colony where in 2274, the SS Artemis crashed on the surface and the survivors started a new civilization, TNG episode 3x02 "The Ensigns of Command".

Terra Nova (STA PRC-4): One of the first Earth-colonised planets, Enterprise episode 1x06 "Terra Nova".

Valakis VI (STA PC-4): Visited by the NX-01. World wide evolutionary plague. Enterprise episode 1x13 "Dear Doctor".

Vlugta Asteroid Field (FE H6 PPP-3): A mining concession for this site was used for a con job in DS9 episode 2x11 "Rivals".

The Vlugta Asteroid Field functions as a standard System disc, the only difference is that it can support up to four Production Nodes.¹⁵¹

Zeta Boötis III (STA PO-3): The Klingons are caught influencing the technological development of the planet's primitive inhabitants, TOS episode 2x19 "A Private Little War".

PHENOMENA

The Badlands (CE H4 Phenomenon-5): Voyager investigated the Maquis and disappeared. Voyager episode 1x01 "The Caretaker".

Ships may not move through this Phenomenon. They must end their movement here.

Black Hole (FE H3 Phenomenon-3): Stellar phenomenon that appeared in many episodes. Also a Ferengi beverage Jadzia Dax enjoyed for breakfast (several DS9 episodes).

Ships in this Phenomenon may not enter Warp.

Since Borg Cubes only move via Warp, they can't leave the Black Hole if they happen to end up there.¹⁵²

The Briar Patch (CE H5 Phenomenon-4): Nebula in sector 441 *Star Trek: Insurrection*. Also, a Klingon system called Klach D'Kel Brakt, Enterprise episode 4x06 "The Augments".

In Space Battles, only rolls of 6 Hit Ships in this Phenomenon.

Eagle Nebula (STA H5 Phenomenon-4): Messier 16 or NGC 6611.

Electrokinetic Cloud (BE H4 Phenomenon-3): A Borg cube was damaged by an electrokinetic storm in the Nekrit Expanse freeing the drones from Borg Control (Voyager episode 3x17, "Unity").

Borg Cubes which end their movement in this Phenomenon are destroyed.

McAllister Nebula (STA H6 Phenomenon-4): Located in Cardassian space, TNG episode 6x11 "Chain of Command Part II".

Murasaki 312 (STA H5 Phenomenon-3): Quasar studied by the Enterprise, TOS episode 1x16 "The Galileo Seven".

Mutara Nebula (FE H5 Phenomenon-4): Site of the climactic battle between Kirk and Khan, *Star Trek II: The Wrath of Khan*.

Ships in this Phenomenon may not use their Shields.

Neutron Star (STA H3 Phenomenon-3)

Paulson Nebula (BE H6 Phenomenon-3): Located in Federation space between Zeta Alpha II and Sentinel Minor IV. The Enterprise hid from a Borg cube in 2366 (TNG episode 3x26, "The Best of Both Worlds").

Ships in this Phenomenon may not be attacked and do not block other Ships' movement in any way.

Pulsar (STA H4 Phenomenon-3)

Stellar Nursery (STA H4 Phenomenon-3)

2 Transwarp Conduit (BE H6 Phenomenon-3):

Artificially created energy conduit used by the Borg to move throughout the galaxy (TNG episode 6x26, "Descent", Voyager episodes 5x15/16, "Dark Frontier" and 7x11, "Shattered").

When you take the Research from this Phenomenon, roll a die: if a 6 is rolled, place a Borg Cube in this System.

The Transwarp Hub System disc is directly connected to both Transwarp Conduit System discs. Players and the Borg may Warp from the Hub to either Conduit, or vice versa, as if they were connected via a Space Lane. The Conduits are not directly connected to each other. Attacks are allowed between the Hub and the Conduits [see rule 8.5].

As an exception to the normal rules [see rule 8.6.3.1], the "virtual" connection between the Hub and a Conduit doesn't count for determining if the Conduit is Fixed or Floating.¹⁵³

OTHER SYSTEMS

Transwarp Hub (BE Other-6): One of six structures used by the Borg to travel rapidly throughout the galaxy. Voyager found one in grid 986 and destroyed it (Voyager episode 7x25, "Endgame").

The Transwarp Hub System disc is directly connected to both Transwarp Conduit System discs. Players and the Borg may Warp from the Hub to either Conduit, or vice versa, as if they were Connected via a Space Lane. The Conduits are not directly connected to each other. Attacks are allowed between the Hub and the Conduits (see rule 8.5 and its footnote).

The Transwarp Hub is neither a Planetary System nor a Phenomenon. Do not draw an Exploration Card for discovering the Transwarp Hub. It is always considered Fixed if it starts the game on the map.¹⁵⁴

¹⁵¹ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23896673#23896673>).

¹⁵² This was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 15. 2019).

¹⁵³ Although officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019) this rule is handled differently in the Unofficial Complete Rulebook.

¹⁵⁴ This rule was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018).

Wolf 359 (BE): Site of the first major battle between the Federation and the Borg. The Borg were led by Locutus. Benjamin Sisko's wife died in the battle (TNG episode 3x26, "The Best of Both Worlds", DS9 episode 1x01, "The Emissary").

Note that this is not a System as far as the rules are concerned, but rather a funny detail (check one of the Space Lanes).

APPENDIX II. EXPLORATION CARDS

The following is a list of all Exploration cards available in the game. For each card it is indicated in which expansion it was available; *Star Trek: Ascendancy* base game (STA), 50th Anniversary Exploration cards (50), Cardassian expansion (CE), Ferengi expansion (FE), Borg expansion (BE), Andorian expansion (AE) or the Vulcan expansion (VE) and if a Hazard (H#) or Diplomacy test (D#) is involved.

CRISIS

Antedean Terrorist Plot (STA): Roll a die: if the result is lower than or equal to your Ascendancy, return or discard all Trade Agreements you hold. If higher, this card has no effect.

Automated Minoasian Weapons (STA H4): Level 4 Hazard. If any Ships survive the Hazard, take 2 Research tokens.

Bioengineered Wasting Disease (50): Roll a die: if the result is equal to or lower than the number of Research Nodes you Control, a cure has been found with enough time to save the Ship. Otherwise, destroy one of your Ships in this System.

2 Borg Cube (BE): Place a Borg Cube in this System.

1 standard, 1 red.

5 Borg World (BE): Place a Borg Spire /with 1/2/3 Assimilation Nodes/ on this System.

2 standard, 3 red.

Cardassian Armistice Accords (CE): If you have a Cardassian Rival, you both choose one of your non-Home Systems and exchange Control Nodes. If not, exchange Systems with the player to your right.

When a player discovers a new System and draws the *Cardassian Armistice Accords*, they have stumbled into a border dispute that requires them to relinquish Control of one of their Systems in exchange for Control of a Cardassian System. If either the player who drew the *Armistice Accords* or the Cardassian player only Controls their Home System, the *Accords* card is discarded with

no effect. The two players can only exchange Systems if they both Control at least one System beyond their Home System.

Assimilated players and the automated Borg are never counted when determining "the player to your right". When only one unassimilated player remains, this card is discarded when drawn by the player and replaced by drawing a new card. The Borg just discard it without effect.¹⁵⁵

This card is removed before a solo game [see rule 16.4.1].

Cardassian Confrontation (CE): If you have a Cardassian Rival, place a new Cardassian Ship in this System. If not, place a new Ship from the player to your right in this System.

This Crisis Card has a Rival player place one of their Starships in the same System with the Ship that discovered the System. What happens after that is up to the two players involved in the Confrontation. Will it lead to peaceful trade relations? Or will it spark a hostile diplomatic incident?

Assimilated players and the automated Borg are never counted when determining "the player to your right". When only one unassimilated player remains, this card is discarded when drawn by the player and replaced by drawing a new card. The Borg just discard it without effect.¹⁵⁶

This card is removed before a solo game [see rule 16.4.1].

Crystalline Entity (STA): If both your Weapons and Shields have not been upgraded, destroy all Ships in this System and destroy this System. Otherwise, discard this card. Tholians may ignore this card.

Only one slider on your Command Console needs to be upgraded to prevent the *Crystalline Entity* from destroying all of the Ships and the System disc.¹⁵⁷

2 Damaged Borg Scout Sphere (BE): Roll to Hit with all Ships in System. If you score at least one Hit, take a Borg Tech card. If no Hits are scored, move the nearest [see rule 15.2.4.2] Borg Cube to this System, or place a new Cube if there are no Cubes in play.

1 standard, 1 red.

Dangerous Flora (50): REMAINS IN PLAY: Building a Colony on this System costs an additional 2 Research tokens.

This card has effects that occur during the Build Phase.¹⁵⁸

Federation Confrontation (CE): If you have a Federation Rival, place a new Federation Ship in this System. If not, place a new Ship from the player to your right in this System.

¹⁵⁵ This rule was partly clarified in an official email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27, 2018) and partly adjusted for the Unofficial Complete Rulebook.

¹⁵⁶ This rule was partly clarified in an official email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27, 2018) and partly adjusted for the Unofficial Complete Rulebook.

¹⁵⁷ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/24471374#24471374>).

¹⁵⁸ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23864217#23864217>).

This Crisis Card has a Rival player place one of their Starships in the same System with the Ship that discovered the System. What happens after that is up to the two players involved in the Confrontation. Will it lead to peaceful trade relations? Or will it spark a hostile diplomatic incident?

Assimilated players and the automated Borg are never counted when determining "the player to your right". When only one unassimilated player remains, this card is discarded when drawn by the player and replaced by drawing a new card. The Borg just discard it without effect.¹⁵⁹

This card is removed before a solo game [see rule 16.4.1].

Ferengi Confrontation (CE): If you have a Ferengi Rival, place a new Ferengi Ship in this System. If not, place a new Ship from the player to your right in this System.

This Crisis Card has a Rival player place one of their Starships in the same System with the Ship that discovered the System. What happens after that is up to the two players involved in the Confrontation. Will it lead to peaceful trade relations? Or will it spark a hostile diplomatic incident?

Assimilated players and the automated Borg are never counted when determining "the player to your right". When only one unassimilated player remains, this card is discarded when drawn by the player and replaced by drawing a new card. The Borg just discard it without effect.¹⁶⁰

This card is removed before a solo game [see rule 16.4.1].

The Game Masters of Triskelion (50): Roll a die: If the roll is higher than your Ascendancy level, you survive the games. If the roll is equal or lower, your civilized crew perishes in the brutal games and all Ships in the System are destroyed.

Iconian Probe (STA H5): Level 5 Hazard. If any Ships survive the Hazard, take 2 Research tokens.

Klingon Confrontation (CE): If you have a Klingon Rival, place a new Klingon Ship in this System. If not, place a new Ship from the player to your right in this System.

This Crisis Card has a Rival player place one of their Starships in the same System with the Ship that discovered the System. What happens after that is up to the two players involved in the Confrontation. Will it lead to peaceful trade relations? Or will it spark a hostile diplomatic incident?

Assimilated players and the automated Borg are never counted when determining "the player to your right". When only one unassimilated player remains, this card is discarded when drawn by the player and replaced by drawing a new card. The Borg just discard it without effect.¹⁶¹

This card is removed before a solo game [see rule 16.4.1].

Lights of Zetar (50 H4): If you have 2 or more Warp tokens pictured on your Advancements, this card has no effect. If not, Ships in this System must Brave a level 4 Hazard.

Menthar Booby Trap (STA H3): Pay 2 Research OR Level 3 Hazard.

Nausicaan Pirates (STA H5): Level 5 Hazard. For each destroyed Ship, lose 1 Resource of your choice. Roll to Hit with all your surviving Ships. For each Hit scored, take 1 Production.

Neutronic Wave Front (STA H4): You may either Exhaust a Command and place all Ships in this System at Warp or all Ships in the System must Brave the level 4 Hazard.

Organian Intervention (STA): REMAINS IN PLAY: This System may only be Colonised by Ascendancy 3 or higher Civilizations.

This card has effects that occur during the Build Phase.¹⁶²

The Planet Eater (STA H3): Level 3 Hazard. If any Ships survive, you may sacrifice a Ship to destroy the Planet Eater and save the System. Otherwise, the System is destroyed; remove it from the game.

"Q" (STA): The player to your right draws a new System and connects it to any System via a new Space Lane. Move all Ships from this System to the new System. Draw another Exploration card for the new System, as normal.

If there are no other unassimilated players, discard this card and draw another.¹⁶³

This card is removed before a solo game [see rule 16.4.1].

Romulan Confrontation (CE): If you have a Romulan Rival, place a new Romulan Ship in this System. If not, place a new Ship from the player to your right in this System.

This Crisis Card has a Rival player place one of their Starships in the same System with the Ship that discovered the System. What happens after that is up to the two players involved in the

¹⁵⁹ This rule was partly clarified in an official email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018) and partly adjusted for the Unofficial Complete Rulebook.

¹⁶⁰ This rule was partly clarified in an official email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018) and partly adjusted for the Unofficial Complete Rulebook.

¹⁶¹ This rule was partly clarified in an official email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018) and partly adjusted for the Unofficial Complete Rulebook.

¹⁶² This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23864217#23864217>).

¹⁶³ This rule was clarified for the Unofficial Complete Rulebook to fill a gap.

Confrontation. Will it lead to peaceful trade relations? Or will it spark a hostile diplomatic incident?

Assimilated players and the automated Borg are never counted when determining "the player to your right". When only one unassimilated player remains, this card is discarded when drawn by the player and replaced by drawing a new card. The Borg just discard it without effect.¹⁶⁴

This card is removed before a solo game [see rule 16.4.1].

Space Amoeba! (STA H4): Roll to Hit with all your Ships in this System. If you score at least 1 Hit, take 1 Research and discard this card. If you score no Hits, all Ships in this System and in all Adjacent Systems must Brave a level 4 Hazard.

2 Transwarp Beacon (BE): If there are Borg in play, move the nearest [see rule 15.2.4.2] Borg Cube to this System. If not, place a new Borg Cube in this System.

Tribble Troubles (50): Exhaust 2 Command tokens, if able.

The Wrath of Olympus (50 H4): Level 4 Hazard. If any Ships survive, you may immediately build a Colony in this System, for free.

This Exploration Card may result in the placement of a Control Node immediately, during the Command Phase.¹⁶⁵

Writ of Accountability (FE D6): Roll a Diplomacy [6] test: if you succeed, this card has no effect. If you fail, return or discard all Trade Agreements you hold. Succeed or fail, shuffle this card into the remaining deck instead of discarding it.

This Crisis Card requires a Diplomacy Test when drawn, as shown in the upper right hand corner of the card. The Writ of Accountability is a Crisis Card that goes back into the Exploration Deck after it is resolved, instead of going into the discard pile. After resolving the Writ, do not shuffle the discard pile back into the deck; only shuffle the Writ of Accountability back into the Exploration deck. Doing so will also shuffle any unclaimed Ally cards that are at the bottom of the deck.

Xenophobic Uprising (FE D6): Roll a Diplomacy [6] test: if you succeed, this card has no effect. If you fail, you must revoke all your Trade Agreements held by Rivals.

This Crisis Card requires a Diplomacy Test when drawn, as shown in the upper right hand corner of the card.

This card is removed before a solo game [see rule 16.4.1].

DISCOVERY

Abandoned Colony (STA): You may immediately Colonise the System by spending 1 Culture, without sacrificing a Ship.

If you do not take advantage of the Abandoned Colony Discovery right away, it goes away.¹⁶⁶ This Exploration Card may result in the placement of a Control Node immediately, during the Command Phase.¹⁶⁷

Alien Amusement Park (50): You may choose to take 2 Production or Refresh 2 Commands.

Balok's Ruse (50): Roll a die for each of your Ascendancy tokens. For each result of 4 or better, take a Production.

Borg Salvage (BE): Draw 2 Borg Tech cards. You may choose one to Develop.

Bynar Technicians (STA): You may immediately upgrade your Weapons or Shields at half the normal cost (rounded down), or you may take 2 Research tokens.

Cardassian Delegation (CE): If you are the Cardassians or hold a Cardassian Trade Agreement, all your Trade Agreements immediately generate Resources. If not, Exhaust all your Trade Agreements.

Children of Tama Negotiations (STA): REMAINS IN PLAY: To Colonise this System, roll a die and add your Ascendancy: if the total is 4 or more, you may Colonise for free. Otherwise, you may not Colonise this System this turn.

The Children of Tama Negotiations Exploration Card negates the benefit of the Federation Colonisation Fleet. The only way to Colonise that world is to make a successful roll and earn the free colony during the Building Phase.¹⁶⁸

Diplomatic Summit (50): You may immediately exchange Trade Agreements with any of your Rivals, even those with whom you have not made contact.

This card is removed before a solo game [see rule 16.4.1].

Encounter at Farpoint (STA): Take 1 Culture OR Immediately Colonise this System at no cost.

¹⁶⁴ This rule was partly clarified in an official email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27, 2018) and partly adjusted for the Unofficial Complete Rulebook.

¹⁶⁵ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23864217#23864217>).

¹⁶⁶ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/24472043#24472043>).

¹⁶⁷ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23864217#23864217>).

¹⁶⁸ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/24471492#24471492>).

This Exploration Card may result in the placement of a Control Node immediately, during the Command Phase.¹⁶⁹

Gamma Quadrant Artifact Dealer (STA): Roll a die: if you roll higher than your current Ascendancy level, take a Culture token.

Gomtuu (STA): Roll a die and add your Ascendancy: if the result is 4 or higher, build 1 Ship in this System, for free.

Guardian of Forever (50): Draw the top card of your Advancement deck. It is completed immediately: place it in your Advancement area.

Shuffle the Advancement deck before drawing.¹⁷⁰

Iconian Ruins (STA): You may Exhaust any unused Command tokens to take a Research token per Command token Exhausted.

2 Isolated Borg Drones (BE): Draw a number of Borg Tech cards equal to your Ascendancy. You may choose one to Develop.

1 standard, 1 red.

Kurlan Artifacts (STA): Take 1 Culture token.

Lost Colony (STA): The player to your right places one of their Control Nodes on this System, for free.

Assimilated players and the automated Borg are never counted when determining "the player to your right". When only one unassimilated player remains, this card is discarded when drawn by the player and replaced by drawing a new card. The Borg just discard it without effect.¹⁷¹

This Exploration Card may result in the placement of a Control Node immediately, during the Command Phase.¹⁷²

This card is removed before a solo game [see rule 16.4.1].

Neutron Star Event (CE H4): You may Brave a level 4 Hazard. If you do, and at least one Ship survives, you may put a Research on two of your Projects.

Orion Trader (STA): Draw the top card from another player's Advancement deck and give that player the top card from your deck. Both players may choose to develop these new Research Projects or discard them as normal.

Shuffle the Advancement decks before drawing.¹⁷³

In a solo game you may draw an Advancement from any Faction not in play [see rule 16.4.1].

Secrets of the Horta (50): REMAINS IN PLAY: When you Colonise this System, roll a die. If the result is less than the number of Production Nodes you Control, immediately build 2 Production Nodes, if possible.

This card has effects that occur during the Build Phase.¹⁷⁴

Talosian Benefactors (50): For each Rival Trade Agreement you hold, take 2 Research and add it to your Reserves.

This card is removed before a solo game [see rule 16.4.1].

The Traveler (STA): Draw a new System and place it connected to any System via a new Space Lane. Move at least one Ship from this System to the new System. Draw another Exploration card for the new System, as normal.

The Ship that is moved is taken from the System that prompted the Traveler card to be drawn.¹⁷⁵

ALLIES

When discarded, Ally cards go to the bottom of the Exploration deck, rather than the discard pile.

Antican Delegation (FE D3): TRADE AGREEMENT: 1 Production.

This card requires a Diplomacy Test.

Caldonians (FE D4): TRADE AGREEMENT: 1 Research.

This card requires a Diplomacy Test.

Ferengi Arms Dealer (FE D2): SPECIAL RULE: You may use Production instead of Research to upgrade Weapons. If you held this card during your Build Phase, pass this card to your left in Maintenance.

This card requires a Diplomacy Test.

You may not mix Production and Research when using this card to pay for an upgrade.¹⁷⁶

Ferengi Researcher (FE D2): SPECIAL RULE: You may use Production instead of Research to upgrade Shields. If you held this card during your Build Phase, pass this card to your left in Maintenance.

This card requires a Diplomacy Test.

You may not mix Production and Research when using this card to pay for an upgrade.¹⁷⁷

¹⁶⁹ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23864217#23864217>).

¹⁷⁰ This rule was clarified for the Unofficial Complete Rulebook.

¹⁷¹ This rule was partly clarified in an official email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27, 2018) and partly adjusted for the Unofficial Complete Rulebook.

¹⁷² This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23864217#23864217>).

¹⁷³ This rule was clarified for the Unofficial Complete Rulebook.

¹⁷⁴ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23864217#23864217>).

¹⁷⁵ This rule was clarified for the Unofficial Complete Rulebook. The original text could be interpreted to mean something else.

¹⁷⁶ This rule was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019).

¹⁷⁷ This rule was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019).

The Grand Nagus (FE D2): In Maintenance, take 2 Production and pass this card to your left. While you hold this card, Ferengi Ships may freely move through Sectors containing your Ships.

This card requires a Diplomacy Test.

Rigelians (FE D4): TRADE AGREEMENT: 1 Production OR 1 Research.

This card requires a Diplomacy Test.

Selay Trade Clutch (FE D3): TRADE AGREEMENT: 1 Production.

This card requires a Diplomacy Test.

The Troyians (FE D3): TRADE AGREEMENT: 1 Production.

This card requires a Diplomacy Test.

CIVILIZATION

2 Assimilation: Level One Civ (BE): Develop up to 1 Resource Node, in Priority Order. Place 1 Warp token on System, marking it as a level 1 Civ. Move nearest Borg Cube to this System or place a new Cube, if there are no Borg Cubes in play.

1 standard, 1 red. The Cube called for by this card is selected as described in rule 15.2.4.2.

2 Assimilation: Level Two Civ (BE): Develop up to 2 Resource Nodes, in Priority Order. Place 2 Warp tokens on System, marking it as a level 2 Civ. Move nearest Borg Cube to this System or place a new Cube, if there are no Borg Cubes in play.

1 standard, 1 red. The Cube called for by this card is selected as described in rule 15.2.4.2.

2 Assimilation: Level Three Civ (BE): Develop up to 3 Resource Nodes, in Priority Order. Place 3 Warp tokens on System, marking it as a level 3 Civ. Move nearest Borg Cube to this System or place a new Cube, if there are no Borg Cubes in play.

1 standard, 1 red. The Cube called for by this card is selected as described in rule 15.2.4.2.

2 Pre-Warp: Level Zero (STA): Place 2/3 Production tokens on System, marking it as inhabited by a pre-Warp, independent Civilization. The first player to Colonise the System claims the tokens.

Pre-Warp: Level Zero (50): Place 1 Production token on System, marking it as inhabited by a pre-Warp, independent Civilization. The first player to Colonise the System claims the tokens.

Pre-Warp: Level Zero (CE): Place 1 Production and 1 Culture token on System, marking it as inhabited by a pre-Warp, independent Civilization. The first player to Colonise the System claims the tokens.

4 Warp-Capable: Level One (STA): Develop 1 Resource Node, in Priority Order. Place 1 Warp token on System, marking it as a Warp-capable, independent Civilization.

4 Warp-Capable: Level Two (STA): Develop up to 2 Resource Nodes, in Priority Order. Place 2 Warp tokens on System, marking it as a Warp-capable, independent Civilization.

Warp-Capable: Level Two (50): Develop up to 2 Resource Nodes, in Priority Order. Place 2 Warp tokens on System, marking it as a Warp-capable, independent Civilization.

2 Warp-Capable: Level Three (STA): Develop up to 3 Resource Nodes, in Priority Order. Place 3 Warp tokens on System, marking it as a Warp-capable, independent Civilization.

Warp-Capable: Level Three (50): Develop up to 3 Resource Nodes, in Priority Order. Place 3 Warp tokens on System, marking it as a Warp-capable, independent Civilization.

Warp-Capable: Level Three (CE): Develop up to 3 Resource Nodes, in Priority Order. Place 3 Warp tokens on System, marking it as a Warp-capable, independent Civilization.

VIRGIN WORLDS

11 Where No One Has Gone Before (STA): -

APPENDIX III, THE FACTIONS

THE ANDORIANS

The Andorians are expected to be released in October 2019 by GF9.

THE CARDASSIANS

The Cardassians are experts at subterfuge and shadow diplomacy. Many of their Advancements allow them to manipulate other Factions and covertly deploy Ships and Fleets under their Rivals' radar.

Cardassians' relentless drive to expand their territory by Invading new Systems is both their path to victory and their Achilles heel. Invading Systems may bring the Cardassians closer to winning but is likely to leave a bitter taste in Rivals' mouths.

Invading Systems inhabited by Warp-Capable, Independent Civilizations is ideal for the Cardassians, since it doesn't make enemies but does produce extra Culture. Upgrading your Weapons to make sure they can deal with the population's Shield Modifier is important to a Cardassian Invasion strategy.

Faction colour: Khaki

The Cardassians have a unique Command Console with two Special Rules that apply to the Cardassians.

Annexation

The Cardassian are always looking for new opportunities to expand their borders. The Cardassians take a bonus Culture when they successfully invade a planet. If a Cardassian Invasion results in *Total Annihilation*, they do not take a Culture.

Occupation

Not everyone who labours under the Cardassian flag does so willingly. During Resource Generation, only Systems Orbited by Cardassian Ships generate Production. Research and Culture are generated normally.¹⁷⁸

¹⁷⁸ This rule was changed for the Unofficial Complete Rulebook. The original rules, and an official clarification in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019), actually said that Cardassians had to Occupy a System in order to generate Production. Had that rule been correct, it would have meant that Cardassians were mostly unable to trade with Ferengi, which would have been both unthematic and bad for the game. The actual Command Console has the correct "Orbits" term.

THE FEDERATION

The Federation should leverage their Culture bonus while exploring and attempting Hegemony.

Faction colour: White

The Federation have a unique Command Console with two Special Rules that apply to the Federation.

The Prime Directive

The Federation may not Invade Planets or Colonise Primitive-Inhabited Systems.

They may, however, Invade Borg worlds [see rule 10.6].

Explore Strange New Worlds

Take one Culture when you draw a Civilization Exploration card or discover a new Phenomenon.

THE FERengi

At first glance, the Ferengi are all about Production profits. Many of their Advancements generate Production in some fashion. But before you can start raking in the profits, you have to complete the Projects - which means investing in Research Nodes early. Research leads to Production - Production leads to Culture.

The Ferengi don't have any combat oriented Fleets. What the Ferengi Fleet cards do have is a variety of unique rules that play to Ferengi strengths.

With their Franchise Fleet, the Ferengi can drop Ships off in Systems as the Fleet travels, allowing them to leave behind a trail of Ferengi Ships poised to profit.

What the Ferengi lack in Military expertise, they can make up for in numbers. With deep Production coffers, the Ferengi can usually out-build their Rivals.

Faction colour: Brown

The Ferengi have a unique Command Console with two Special Rules that apply to the Ferengi.

Only Latinum Lasts

Profit is what really matters! During their Building Phase, Ferengi may purchase Culture tokens for five Production - and many Ferengi Advancements increase the amount of Production the Ferengi Generate.

In their single minded pursuit of profit, Ferengi are happy to demolish native paradises and despoil ancient ruins; Ferengi may always build Production Nodes on a System, regardless of the System's normal Resource Node Capacity. They can't exceed the normal number of Nodes.

For example, if a System could normally hold two Research and one Culture Node, the Ferengi could fill the System with up to three Production Nodes.

Profit Over Profundity

The Ferengi penchant for profit means they don't spend a lot of time building up great cultural institutions - Ferengi may not ever build Culture Nodes. Their starting Culture Node on Ferenginar may be their only one, unless they take Control of more via Invasion or Hegemony.

However, other species find the Ferengi extremely off-putting, making Hegemony difficult. Ferengi don't add their Ascendancy when making Hegemony attempts. They can still attempt Hegemony, but it is much more difficult without the addition of their current Ascendancy.

THE KLINGONS

Klingons should be played aggressively to benefit from their Culture bonus.

Faction colour: Red

The Klingons have a unique Command Console with two Special Rules that apply to the Klingons.

Death Before Dishonor

Klingons may never Retreat or Surrender a Planet.

Ever Victorious

Take one Culture when you defeat three or more Ships in a Space Battle.

A Klingon's enemy is defeated when they lose all their Ships or Retreat. If the enemy had three or more Ships in the Space Battle and are defeated, the Klingons get a Culture. If the Klingon player wins the Space Battle outright and three (or more) enemy Ships are destroyed, they gain a Culture token. If both sides wipe each other out and three (or more) enemy Ships are destroyed, they gain a Culture token.

If the Klingons engage three (or more) enemy Ships and the enemy Retreats, the Klingons gain a Culture token regardless of how many enemy Ships were destroyed (if any).

If the Klingons destroy three enemy Ships but still lose the Space Battle, they do NOT get a Culture token.

If the enemy uses Advanced Romulan Cloaking Technology, the Space Battle is canceled as if it never occurred; the Klingons Refresh their Command token. Since no Combat occurred, the Klingons do not gain a Culture token.¹⁷⁹

THE ROMULANS

The Romulans are masters of scientific advancement. With superior technology they are also quite potent in Combat.

Faction colour: Green

The Romulans have a unique Command Console with two Special Rules that apply to the Romulans.

Suspicious

Whenever you receive a Trade Agreement, Exhaust it immediately. Refresh it in the upcoming Recharge Stage, as normal.¹⁸⁰

Every time a Romulan receives a new Trade agreement, it starts Exhausted, whether or not it's a new agreement or an exchange of existing Trade Agreements.¹⁸¹

Cultural Superiority

Take 1 Culture when you complete an Advancement picturing a Culture token.

¹⁷⁹ This rule was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/24994230#24994230>).

¹⁸⁰ This rule was clarified for the Unofficial Complete Rulebook. The original rules could easily have been misunderstood to mean an additional delay of another Game Round.

¹⁸¹ This rule was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Nov 27, 2017).

THE THOLIANS

The Tholians have been hinted at by GF9, but not yet announced.

THE VULCANS

The Vulcans are expected to be released in October 2019 by GF9.

APPENDIX IV. ADVANCEMENTS

The following is a list of all Advancements available in the game. For each Advancement basic data is given in short form in parenthesis after the Advancement name. Its Type, Cost (generally in Research (R), but sometimes in Production (P) or even Culture (C)) and whether it provides a Warp (W), Command (Cd) or Culture (C) token bonus is listed.

For example, **Starfleet Command (Command/4R/W/Cd/-)** is a Command Advancement that costs four Research and provides both a Warp token and a Command token bonus.

ANDORIAN ADVANCEMENTS

The Andorians are expected to be released in October 2019 by GF9.

CARDASSIAN ADVANCEMENTS

Totalitarian Regime (Command/Start/-/Cd/-):

Cardassians begin with an addition Command, for a starting total of six Commands.

Confiscation Protocols (Expansion/3R/W/-/-): When you successfully invade a planet, take a Production token for each intact Node.

Infiltration Protocols (Espionage/3R/W/-/-): When you launch new Projects, you may draw one card from a Rival's Advancement deck, instead of two from your own. The card is drawn at random. If you discard the Rival's card, it goes to the bottom of their deck.

Note that the "instead of two from your own" part should be ignored since the *Unofficial Complete Rulebook* uses the *Focused Research* rule.¹⁸²

Gravitic Mine Fields (Military/3R/W/-/-): Systems you Control are a Level 5 Hazard to Hostile Ships.¹⁸³

Gravitic Sensor Net (Military/3R/W/-/-): *Romulan Cloaking Technologies'* effects may not be used in Systems you Control or against Ships in them.¹⁸⁴

Sensor Ghosting & Holo Projections (Espionage/3R/W/-/-): During a space battle, Exhaust this card to force a

¹⁸² This rule was clarified for the Unofficial Complete Rulebook.

¹⁸³ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019).

¹⁸⁴ Although officially ruled only to apply during the owner's turn in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this Advancement is always in effect when playing with the Unofficial Complete Rulebook.

Rival to Roll all Hits they've scored this Combat Round. This may be used on a Rival's turn.

This may only be used when the Cardassians are participants in the Space Battle.¹⁸⁵

The Obsidian Order (Espionage/3R/-/-/-): On your turn, you may Exhaust this card to Exhaust another player's Espionage Advancement. Your Systems' Hegemony Resistance is increased by 1.¹⁸⁶

This card is removed before a solo game [see rule 16.4.1].

Reactive Energy Barriers (Military/3R/W/-/-/-): When invaded, Systems you Control ignore 2 of the attacking Rival's Hits in the first Combat Round.¹⁸⁷

Weaponized Star Bases (Military/3R/W/-/-/-): Your Star Bases now add 3 additional dice to Hit.¹⁸⁸

These 3 dice replace the normal die and are not in addition to it.¹⁸⁹

Annexation Protocols (Expansion/3R/-/-/-/-): When Invading a planet, a Total Annihilation result counts as a Successful Invasion. When you successfully Invade a planet, Refresh 2 Commands.

If you destroy all Nodes on a planet using Metagenic Weapons, you will not be able to place a Control Node using Annexation Protocols, but the other benefits will apply.¹⁹⁰

Central Command (Command/3R/W/Cd/-/-/-): Your Systems' Hegemony Resistance is increased by 1.¹⁹¹

Covert Military Bases (Military/4R/W/-/-/-): During your Building Phase, you may build up to 3 Ships in an uncontrolled System.

Note that this means that you may be able to then immediately Colonize a Planetary System. Also note that Phenomena and the Transwarp Hub are always uncontrolled.¹⁹²

Field Retrofit Protocols (Military/4R/W/-/-/-): You may commission fleets in any Sector.

Labor Camps (Expansion/4R/-/-/-/-): During Resource Generation, your Culture Nodes also generate 1 Production, if you have at least one Ship in Orbit.

Metagenic Weapons (Military/4R/W/-/-/-): When invading a planet, you may Exhaust this card instead of rolling to Hit. All your dice this Combat Round automatically Hit and destroy a Node.

When using Metagenic Weapons, each Hit always destroys a Node, regardless of how many Hits are scored. If you attack a fully Developed, 4-Node System with 6 Ships and Exhaust Metagenic Weapons, you'll destroy all four Nodes, leaving the System disc bare.¹⁹³

If you use Metagenic Weapons to destroy all Nodes on a planet, you will not be able to place a Control Node, even if you have Annexation Protocols.¹⁹⁴

Universal Translator (Expansion/Start/-/-/-/-): When attempting Hegemony, add 1 to your die result.

Adv. Stellar Cartography (Exploration/3R/W/-/-/-): You may connect 1 extra Space Lane to Systems beyond its maximum number of connections.

Bureau of Security (Espionage/3R/-/-/-/-): On your turn, you may Exhaust this card to Exhaust another Player's Espionage Advancement, with whom you've made contact.

This card is removed before a solo game [see rule 16.4.1].

¹⁸⁵ This was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Dec 12. 2017).

¹⁸⁶ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

¹⁸⁷ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

¹⁸⁸ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

¹⁸⁹ Although officially ruled differently in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019), this rule was changed for the Unofficial Complete Rulebook to simplify the game.

¹⁹⁰ Although officially ruled differently in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019), this rule was changed for the Unofficial Complete Rulebook to be more consistent.

¹⁹¹ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

¹⁹² This rule was clarified for the Unofficial Complete Rulebook.

¹⁹³ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23478810#23478810>).

¹⁹⁴ Although officially ruled differently in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019), this rule was changed for the Unofficial Complete Rulebook to be more consistent. Thematically one could argue that Metagenic Weapons shouldn't destroy any nodes at all since it is a biological weapon. For true Trekkies you may want to house rule this.

Planetary Defense Shield (Military/3R/-/-/-): In Planetary Invasions, Systems you Control ignore 1 Hit in every Combat Round.¹⁹⁵

The Cochrane Institute (Exploration/3R/W/-/-/-): Your Ships' Impulse Speed is increased by 1.

Transwarp Drive (Exploration/3R/WW/-/-/-): (none)

Class 4 Industrial Replicators (Expansion/4R/W/-/-/-): When you Colonise a System, you may immediately develop a Production Node at no cost, if the System's Capacity allows.

Long Range Sensor Arrays (Exploration/4R/W/-/-/-): When discovering a new System, draw two System discs and choose one. Return the other System disc to the bottom of the stack.

Multicultural Collaboration (Science/4R/-/-/-/-): During Resource Generation, collect 2 Research for each Rival Trade Agreement you hold. Keep 1, and give 1 to each Rival whose Trade Agreement you hold.

This card is removed before a solo game [see rule 16.4.1].

Starfleet Academy (Exploration/4R/W/-/-/-): When Braving a Hazard, your Ships have +1 Shield Modifier.

Starfleet Command (Command/4R/W/Cd/-/-/-): Your Systems' Hegemony Resistance is increased by 1.¹⁹⁶

Starfleet Diplomatic Corps (Espionage/4R/-/-/-/-): When your Hegemony Attempts are successful, taking Control of the System does not require spending additional Culture.

With the Starfleet Diplomatic Corps it only takes one Culture to attempt to take over a System via Hegemony, so you can Hegemony a System when you only have one Culture.¹⁹⁷

Tachyon Detection Array (Military/4R/W/-/-/-): Romulan Cloaking Technologies' effects may not be used in Sectors containing your Ships or in Space Battles against your Ships.¹⁹⁸

Verteron Array Beam Emitter (Military/4R/W/-/-/-): In each Combat Round, your Control Nodes automatically score a Hit, instead of rolling a die.¹⁹⁹

Orbital Laboratories (Science/5R/-/-/-/-): During Resource Generation, take 1 Research for each Starbase you Control.

Ferengi Commerce Authority (Business/Start/-/-/-): During Resource Generation, gain 1 Production for each Rival Controlled System with Ferengi Ships in Orbit.

The Ferengi's starting Advancement generates extra Production, based on how many Rivals' Systems the Ferengi have managed to get Ships in Orbit of. The more Systems the Ferengi are able to negotiate themselves into, the more trade profit they receive!

The Ferengi can even trade with the Borg if they manage to get their Ships in Orbit of Borg worlds.²⁰⁰

A Contract Is a Contract...But Only Between Ferengi (Business/3R/W/-/-/-): During your Building Phase, you may build one Ship at each Peaceful Rival Starbase in which you do not already have any Ships in Orbit.

The Bigger the Smile, The Sharper The Knife (Espionage/3R/-/-/-/-): On your turn, you may pay 1 Production to Exhaust any Military Advancement. You may do this multiple times on your turn.

This card is removed before a solo game [see rule 16.4.1].

Every Man Has His Price (Business/3R/W/-/-/-): Before attempting Hegemony, you may spend Production to add +1 to the die roll per Production spent. This may not be used on Rival's Home Systems.

Hear All. Trust Nothing (Espionage/3R/-/-/-/-): On your turn, you may pay 1 Production to Exhaust any Espionage Advancement. You may do this multiple times on your turn.

This card is removed before a solo game [see rule 16.4.1].

Home Is Where The Heart Is. But The Stars Are Made Of Latinum (Business/3R/W/-/-/-): When you collect a Research token from a Phenomenon, also take 1 production.

Knowledge Equals Profit (Business/3R/W/-/-/-): Each time you complete an Advancement Project, take 2 Production.

Never Place Friendship Over Profit (Business/3R/W/-/-/-): When you launch new Projects, you may draw cards

¹⁹⁵ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

¹⁹⁶ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

¹⁹⁷ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23864230#23864230>).

¹⁹⁸ Although officially ruled only to apply during the owner's turn in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019), this Advancement is always in effect when playing with the Unofficial Complete Rulebook.

¹⁹⁹ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

²⁰⁰ This was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018).

from any player Rival's Advancement deck. You may only have one Rival Project at a time.

The card is drawn at random. You may have more than one Rival Project if you acquire them by taking over Research Nodes or from the Borg Tech deck.²⁰¹

Never Spend More for an Acquisition Than You Have To (Business/3R/-/-/-): Buy 2 Get One Free! For every 2 Ships you build at a Starbase you Control, you may build an extra Ship for free.

Nothing Is More Important Than Your Health—Except Your Money (Business/3R/W/-/-/-): When 4 or more of your Ships are destroyed in a space battle or an invasion, take 2 production.²⁰²

Peace Is Good For Business (Business/3R/W/-/-/-): Every time a Rival receives any Trade Agreement, take 1 Production.²⁰³

War Is Good For Business (Business/3R/W/-/-/-): Every time a Rival holding a Ferengi Trade Agreement fights in a space battle, take 1 Production.²⁰⁴

Whisper Your Way to Success (Espionage/3R/-/-/-/-): On your turn, you may pay 1 Production to Exhaust any Trade Agreement. You may do this multiple times on your turn.

This card is removed before a solo game [see rule 16.4.1].

Expand or Die (Business/4R/-/-/-/-): You may pay the Culture costs of Hegemony and Colonisation by paying 2 Production per Culture.

Sleep Can Interfere With Opportunity (Command/4R/-/-/Cd/-/-): Your Systems' Hegemony Resistance is increased by 1.²⁰⁵

Ferenginar, the Ferengi Home System and commerce hub

KLINGON ADVANCEMENTS

Disruptor Technology (Military/Start/-/-/-/-): Your Rolls to Hit of 6 always score a Hit, regardless of the Rival's Shield Modifier.²⁰⁶

Combat Transporters (Military/3R/W/-/-/-): When Invading a Planet, you may Reroll any of your failed To Hit Rolls in the first Combat Round.

Covert Saboteurs (Espionage/3R/-/-/-/-): On your turn, you may Exhaust this card to Exhaust another player's Military Advancement, with whom you've made Contact.

This card is removed before a solo game [see rule 16.4.1].

Forward Munition Depots (Military/3R/W/-/-/-): In your Command Phase, you may Commission Fleets in any System you Control.

²⁰¹ This was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Mar 27. 2018).

²⁰² Although officially ruled only to apply during the owner's turn in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019), this Advancement is always in effect when playing with the Unofficial Complete Rulebook.

²⁰³ Although officially ruled only to apply during the owner's turn in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019), this Advancement is always in effect when playing with the Unofficial Complete Rulebook.

²⁰⁴ Although officially ruled only to apply during the owner's turn in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019), this Advancement is always in effect when playing with the Unofficial Complete Rulebook.

²⁰⁵ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019).

²⁰⁶ Although officially ruled only to apply during the owner's turn in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019), this Advancement is always in effect when playing with the Unofficial Complete Rulebook.

Planetary Bombardment (Military/3R/W/-/-):

When Invading a System, you may *First Strike*. If you do, all your *First Strike* Hits automatically destroy Nodes, regardless of how many Hits you score.

Reclamation Barges (Military/3R/W/-/-): When you destroy a Rival's Resource Node in an Invasion, take 2 tokens of the matching type from the Supply.

Commandeer and Conscript (Expansion/4R/-/-/-): You may use a Command to place 1 Ship, for free, in any System you Control in which you do not currently have any Ships.

Cult of Kahless (Military/4R/W/-/-): In each Round of a Space Battle, instead of Rolling to Hit, you may destroy any of your Ships to destroy the same number of Rival Ships.²⁰⁷

Cult of Kahless does one damage to Borg Cubes per destroyed Klingon Ship. Any Hits your opponent scores are in addition to any Ships you've chosen to destroy.²⁰⁸

Klingon Battle Lust (Military/4R/W/-/-): When you Initiate a Space Battle and Win without taking any Casualties, Refresh a Command token.

Klingon High Council (Command/4R/W/Cd/-): Your Systems' Hegemony Resistance is increased by 1.²⁰⁹

Mass Fire Tactics (Military/4R/-/-/-): In Space Battles, failed To Hit Rolls of doubles destroy one enemy Ship.²¹⁰

Militarized Industry (Expansion/4R/-/-/-): During your Build Phase, you may place 1 free Ship at every System you Control with a Culture Node.

Orbital Ship Yards (Military/4R/-/-/-): During your Build Phase, you may place 1 free Ship at every Starbase you Control.

Standing Invasion Orders (Military/4R/W/-/-): On your turn, you may Invade Planets without Exhausting a Command.

Adapted Cloaking Device (Espionage/5R/W/-/-):

Your Ships have *First Strike* in Space Battles during your turn. [*Romulan Cloaking Technology*]

**Romulan Cloaking Device (Military/Start/-/-/-):**

Your Ships have *First Strike* in Space Battles during your turn. [*Romulan Cloaking Technology*]

Cloaked Orbital Mines (Military/3R/W/-/-C): When Hostile Rival Ships enter a System you Control, roll a die for each Rival Ship. On a roll of 6 they are destroyed, regardless of their Shields. [*Romulan Cloaking Technology*]²¹¹

Like a Hazard, you only have to make the roll for the *Cloaked Orbital Mines* when the Ships end their movement in Romulan Systems. When moving through the Systems, it's safe to assume that the Romulan Rivals aren't getting close enough to trigger the mines.²¹² *Cloaked Orbital Mines* don't affect the Borg.²¹³

Romulan Disruptors (Military/3R/W/-/-C): Your Rolls to Hit of 6 always score a Hit, regardless of the Rival's Shield Modifier.²¹⁴

Tal Diann Security Forces (Military/3R/-/-/-C): In Planetary Invasions, Research Nodes you Control Roll an additional Die to Hit.²¹⁵

Continuing Committee (Command/4R/W/Cd/-): Your Systems' Hegemony Resistance is increased by 1.²¹⁶

²⁰⁷ Although officially ruled only to apply during the owner's turn in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this Advancement is always in effect when playing with the Unofficial Complete Rulebook.

²⁰⁸ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23454599#23454599>).

²⁰⁹ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019).

²¹⁰ Although officially ruled only to apply during the owner's turn in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this Advancement is always in effect when playing with the Unofficial Complete Rulebook.

²¹¹ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019).

²¹² This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23952245#23952245>).

²¹³ Although officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this ruling was changed for the Unofficial Complete Rulebook to simplify the game.

²¹⁴ Although officially ruled only to apply during the owner's turn in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this Advancement is always in effect when playing with the Unofficial Complete Rulebook.

²¹⁵ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019).

²¹⁶ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019).

Forced Quantum Singularity Drive (Exploration/4R/WW/-/-): (none)

Imperial Science Initiative (Science/4R/W/-/-/C):
When you Launch a new Project, place one Research token from the Supply on the new Project.

Multi-Spectral Emitter Drones (Espionage/4R/-/-/C): On your turn, you may use a Command to Exhaust a Trade Agreement of a Rival with whom you've made contact.

This card is removed before a solo game (unless you play the Romulans) [see rule 16.4.1].

Orbital Defense Grid (Military/4R/W/-/-/C): In Planetary Invasions, your Nodes have *First Strike*.²¹⁷

Superior Combat Maneuvers (Military/4R/-/-/C):
Exhaust this card to Reroll all your failed To Hit Rolls, in a single Combat Round.²¹⁸

Superior Shield Harmonics (Military/4R/W/-/-):
Your Fleets may ignore the first Casualty in each Round of Space Battles.²¹⁹

Superior Targeting Array (Military/4R/W/-/-): Your Ships and Nodes may Reroll 1 To Hit Roll in each Combat Round.²²⁰

The *Superior Targeting Array* allows you to re-roll one of your Attack dice each Round, not every die that each Ship or Node contributes.²²¹

Note that the reroll does not apply to Starbases.²²²

Tal Shiar (Espionage/4R/-/-/C): On your turn, you may Exhaust this card to Exhaust a Rival's Espionage or Military Advancement, with whom you've made contact.

This card is removed before a solo game (unless you play the Romulans) [see rule 16.4.1].

Tal Shiar Monitoring Posts (Espionage/4R/-/-/C):
Each time a Rival Finishes a Project, roll a die. If the result is equal to or lower than the number of Starbases you Control, you may add a Research token from the Supply to one of your Projects.²²³

This card is removed before a solo game (unless you play the Romulans) [see rule 16.4.1].

Adv. Romulan Cloaking Device (Espionage/5R/W/-/-): Rival Ships no longer block your Ships' movement. When attacked, your Ships may Enter Warp without a Command. The Space Battle is canceled and the Attacker's Command is Refreshed. [*Romulan Cloaking Technology*]²²⁴

THOLIAN ADVANCEMENTS

The Tholians have been hinted at by GF9, but not yet announced.

VULCAN ADVANCEMENTS

The Vulcans are expected to be released in October 2019 by GF9.

BORG TECH

Borg Tech cards are played like Advancements.

Borg Telemetry Node (Borg/0R/-/-/-): Exhaust this card during the Borg turn to discard a drawn Borg Command card and draw a different Command card. This ability is used the moment the Command card for an activated Cube is revealed.²²⁵

If used against an Assimilated Borg player (who draws all Command cards in one go), it is used to discard a random Command card from the Assimilated player's hand before they Activate a Cube.²²⁶ This will reduce the Borg player's hand by one card.

Cortical Relay Recovery (Borg/0R/-/-/-): When you destroy a Borg Cube or Reclaim a Borg World, take 1 Research token for each of your completed Borg Advancements.

Data: Vinculum Position (Borg/0R/-/-/-): In the first Round of a Space Battle, you may discard this card to score 3 additional Hits. This may be used during any player's turn.

²¹⁷ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019).

²¹⁸ Although officially ruled only to apply during the owner's turn in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this Advancement is always in effect when playing with the Unofficial Complete Rulebook.

²¹⁹ Although officially ruled only to apply during the owner's turn in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this Advancement is always in effect when playing with the Unofficial Complete Rulebook.

²²⁰ Although officially ruled only to apply during the owner's turn in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019), this Advancement is always in effect when playing with the Unofficial Complete Rulebook.

²²³ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019).

²²⁴ This Advancement was officially ruled to be always in effect in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019).

²²⁵ This rule was clarified for the Unofficial Complete Rulebook.

²²⁶ This was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16, 2019).

Differentiated Modulation (Borg/OR/-/-/-): While you are in Combat with a Borg Cube, you may discard this card to reset the Borg Shields to zero.

Interspatial Manifold Access (Borg/OR/-/-/-): On your turn, you may discard this card to move a Borg Cube up to 2 Systems away from its current position. The Cube may not be moved through other players' Ships, but may be moved through your Ships.

Masked Warp Signature (Borg/OR/-/-/-): Discard this card to Reroll all your failed To Hit Rolls in a single Combat Round against the Borg.

Nano-Data Linkage (Borg/OR/-/-/-): When you launch Projects, you may choose to draw Advancement cards from any Faction who has been Assimilated or is not in use this game.

Note that the card says "Civilization", but should actually refer to "Faction" in these rules.²²⁷

Neurolytic Pathogen (Borg/OR/-/-/-): During the Borg turn, you may discard this card to end the Borg turn immediately.

Ramming Speed (Borg/OR/-/-/-): In a Space Battle against a Cube that has taken 5 or more damage, you may discard this card and one of your Ships from the Battle to destroy the Cube.

Transphasic Torpedoes (Borg/OR/-/-/-): At any time, you may discard this card to add +2 to your To Hit Rolls in one Battle against a Borg Cube.

Transwarp Conduit Data (Borg/OR/-/-/-): On your turn, you may discard this card to add 2 Warp tokens to all your Ships and Fleets already at Warp.

Assimilated Cultural Archive (Borg/IR/-/-/-): On your turn, you may take 2 Culture and discard this card.

Central Plexus Access (Borg/IR/-/-/-): You no longer have to spend a Command to attack the Borg. On your turn, you may Exhaust this card to Refresh one of your Commands.

Adaptive Shielding (Borg/2R/-/-/-): At any time, you may pay 1 Research and Exhaust this card to ignore all Hits scored against you in a Round of a Space Battle.

Collective Data Linkage (Borg/2R/-/-/-): Once per turn, you may spend 1 Research to issue one extra Command.

Magnetometric Charges (Borg/2R/-/-/-): When you complete this card, immediately upgrade your Weapons at no cost. Discard this card when completed.

Modified Borg Shield Plating (Borg/2R/-/-/-): In Combat with the Borg, your Ships count as having a Shield Modifier of 1.

Transwarp Coil (Borg/2R/-/-/-): On your turn, you may Exhaust this card to add a number of Warp tokens equal to your completed Borg Advancements to one of your Ships or Fleets already at Warp.

Re-Engineered Nano Probes (Borg/3R/-/-/-): Borg Cubes no longer Regenerate in Space Battles in which you have Ships participating.

Subspace Field Emitter (Borg/3R/-/-/-): When you complete this card, immediately upgrade your Shields at no cost. Discard this card when completed.

APPENDIX V. FLEETS

This is a list of the available Fleets. For each Fleet the maximum number of Ships is given in parenthesis.

ANDORIAN FLEETS

The Andorians are expected to be released in October 2019 by GF9.

CARDASSIAN FLEETS

#1A Hunter Killer Fleet (3): In the first Round of Space Battles, all this Fleet's To Hit Rolls automatically score a Hit.

#1B - (9): -

#2A Overseer Fleet (3): If this Fleet Occupies a Cardassian Controlled System during Resource Generation, double the

Production generated by that System. May not be used in Orbit of Cardassia Prime.

#2B - (9): -

#3A Assault Fleet (6): This Fleet may Reroll To Hit Rolls of 1 in Planetary Invasions.

#3B - (9): -

FEDERATION FLEETS

#1A Science Fleet (4): When this Fleet Braves a Hazard, only roll for one of its Ships. This Fleet may Brave the Hazard of a Phenomenon they Occupy without Exhausting a Command.

²²⁷ This rule was clarified for the Unofficial Complete Rulebook.

#1B Battle Group (6): This Fleet may Reroll rolls of 1 in Space Battles.

#2A Colonisation Fleet (3): On your turn, you may discard a Ship from this Fleet and Disband this Fleet to immediately Colonise an Undeveloped System without spending a Culture.

The Federation *Colonisation Fleet* is small formation with a single purpose; to Colonise a world in the name of the Federation. With this Fleet, you may, at ANY point during your turn, discard a Ship from the Fleet, causing it to Disband, to immediately place a Control Node on an Undeveloped System without spending a Culture token. This may occur during the Building Phase. This may also occur at any point during the Command Phase. This action is just like adding to or removing Ships from a Fleet, it costs no Commands but the Fleet must be stationary. Typically this action will occur at the end of a Move Command.²²⁸

When the Federation Colonisation Fleet visits an Undeveloped System with a Remains In Play Exploration card on it, here's how the Fleet and the Exploration card will interact:²²⁹

Children of Tama Negotiations (Discovery): The Exploration card negates the benefit of the Federation *Colonisation Fleet*. The only way to Colonise that world is to make a successful roll and earn the free colony during the Building Phase.

Dangerous Flora (Crisis): Two Research tokens must also be discarded in addition to a Ship from the Fleet.

Organian Intervention (Crisis): This System may not be Colonised by the Fleet until the Federation reaches Ascendancy three, it may then use the Fleet at this world as normal.

Secrets of the Horta (Discovery): If the Fleet Colonises this System, roll a die. If the result is less than the number of Production Nodes you Control, immediately Build two Production Nodes on this System, if possible.

#2B Battle Group (6): This Fleet may Reroll rolls of 1 in Space Battles.

#3A Diplomatic Fleet (3): You may Reroll your Hegemony Roll in Systems this Fleet Occupies.

#3B Battle Group (6): This Fleet may Reroll rolls of 1 in Space Battles.

FERengi FLEETS

#1A Commerce Enforcement Squadron (3): This Fleet may end its movement in a System containing Rival Ships, regardless of Trade status. It may not move past Hostile Rival Ships. This Fleet may enter Warp on your turn without Exhausting a Command.

No one can stop the Ferengi *Commerce Enforcement Squadron* from pursuing new business opportunities. The Ferengi do have to stop and come out of Warp when there are Rival Ships in their path. However, they may immediately enter Warp again without spending a Command (as per their Special Rules). Since it's not the other player's turn, they can't attack. It's a good opportunity for trade!²³⁰

#1B Loss Interdiction Task Force (7): -

#2A Market Penetration Convoy (3): This Fleet may connect new Space Lanes to Systems beyond the maximum number of Space Lanes the System allows.

#2B Loss Interdiction Task Force (7): -

#3A Franchise Establishment Flotilla (5): While moving, you may remove Ships from this Fleet and place them in any Systems the Fleet moves through. If this Fleet drops below 3 Ships while moving, it disbands after moving.

#3B Loss Interdiction Task Force (7): -

KLINGON FLEETS

#1A Marauders (4): Take 1 Production for each Rival Ship destroyed by this Fleet. A Fleet is able to use its Special Rule as long as it's intact when it rolls to Hit. If a Klingon *Marauder Fleet* is intact, with at least three Ships when rolling to score Hits, you get the bonus Production from each enemy Ship that is destroyed. It's possible for all the Ships in the *Marauder Fleet* to be destroyed and still generate Production.²³¹

For example, a four-strong *Marauder Fleet* attacks a six-strong *Federation Fleet*. The Klingons score 3 Hits, so takes 3 Production. At the same time, the Federation scores 4 Hits, completely wiping out the Klingons. Had the Federation scored 2 Hits, the Klingons would survive the Combat Round but the Fleet would be disbanded. In the next Combat Round, the Klingons wouldn't get any Production (as there isn't a *Marauder fleet* anymore).

Here's another example: A 4-strong *Marauder Fleet* is attacked by a *Romulan Fleet* with *First Strike*. The Romulans' first attack destroys 2 Klingon Ships, so the Fleet is disbanded. Because the casualties from *First Strike* are taken before their targets can return fire, the Klingon Fleet disbands before rolling to Hit and it doesn't get to use its Special Rule.

#1B - (10): -

#2A Battle Group (6): This Fleet may Reroll rolls of 1 in Space Battles.

#2B - (10): -

²²⁸ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23864217#23864217>).

²²⁹ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/24471969#24471969>).

²³⁰ This was officially clarified in an email (Email answer from Peter Przekop, Gale Force Nine, LLC, Dec 14, 2017).

²³¹ This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/23279512#23279512>).

#3A Assault Fleet (6): This Fleet may Reroll To Hit Rolls of 1 in Planetary Invasions.

#3B - (10): -

#1A Science Fleet (4): When this Fleet Braves a Hazard, only roll for one of its Ships. This Fleet may Brave the Hazard of a Phenomenon they Occupy without Exhausting a Command.

#1B - (9): -

#2A Battle Group (6): This Fleet may Reroll rolls of 1 in Space Battles.

#2B - (9): -

#3A Mining Fleet (4): When this Fleet Occupies an Undeveloped System or Phenomenon, you may use one Command to take 2 Production. This may only be used once per turn. When a Romulan Mining Fleet uses a Command to take two Production from a Phenomenon they don't have to Brave the Hazard. If they had stopped in the Sector on a previous turn, they would have to spend another Command to take the Research from the Phenomenon. You only have to Brave a Hazard when you end your movement in a Hazardous Sector or spend a Command to Brave the Hazard.²³²

#3B - (9): -

THOLIAN FLEETS

The Tholians have been hinted at by GF9, but not yet announced.

VULCAN FLEETS

The Vulcans are expected to be released in October 2019 by GF9.

APPENDIX VI, BORG COMMANDS

This is a list of the Borg Command cards. For each card the Warp range number is given in parenthesis.

Note that the words "nearest" and "closest", used on many cards, are defined in rule 15.2.4.2.

2 Assimilation: Expedited

(-): Place a Borg Node on all Borg Worlds with fewer than three Nodes. Do not move this Cube this turn (unless activated again by Collective Efficiency [see rule 15.3.6.8]).²³³

2 Collective: Linkage (2): Move all Borg Cubes up to 2 Systems towards closest Borg World and Build up to 2 Borg Nodes on each World a Cube reaches.

Also see rule 15.2.4.1.

4 Command: Aggression (2): Move Cube up to 2 Systems towards nearest Connected player Ship or Fleet. After moving, this Cube initiates a Space Battle with all Adjacent player Ships.

A Borg Cube which is Executing the Command: Aggression card while the Borg Attack - Command - Attack rule is in effect [see rule 15.5.1] ignores the Borg's Slow & Methodical rule (voiding players' First Strike).

1 Command: Resurgence (-): Give the Borg the Turn Order "10" card. At the end of this Game Round, the Borg take another full turn.

If there are several Assimilated players the extra Borg turn is played by the Assimilated player who previously played the lowest Turn Order card.²³⁴

2 Move: Collective (1): Move all Cubes 1 System towards the nearest Developed System.

Systems with a Borg Spire do not count as Developed Systems when determining where to move a Borg Cube.²³⁵

Also see rule 15.2.4.1.

3 Move: Target [Developed System] (1): Move Cube up to 1 System towards nearest Connected Developed System.

Systems with a Borg Spire do not count as Developed Systems when determining where to move a Borg Cube.

4 Move: Target [Developed System] (2): Move Cube up to 2 Systems towards nearest Connected Developed System.

Systems with a Borg Spire do not count as Developed Systems when determining where to move a Borg Cube.

2 Move: Target [Developed System] (3): Move Cube up to 3 Systems towards nearest Connected Developed System.

Systems with a Borg Spire do not count as Developed Systems when determining where to move a Borg Cube.

²³² This was officially clarified on BoardGameGeek (<https://boardgamegeek.com/article/2386342#23863427>).

²³³ This rule was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 15. 2019).

²³⁴ Although ruled differently in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 16. 2019), this rule is changed for the Unofficial Complete Rulebook in order to increase the Borg threat and simplify game play.

²³⁵ This rule was clarified for the Unofficial Complete Rulebook.

3 Move: Target [Starbase] (2): Move Cube up to 2 Systems towards nearest Connected Starbase.

2 Move: Target [Starbase] (3): Move Cube up to 3 Systems towards nearest Connected Starbase.

2 Move: Target [Home System] (2): Move Cube up to 2 Systems towards nearest Connected Home System.

Systems with a Borg Spire do not count as Home Systems when determining where to move a Borg Cube.²³⁶

2 Move: Target [Home System] (3): Move Cube up to 3 Systems towards nearest Connected Home System.

Systems with a Borg Spire do not count as Home Systems when determining where to move a Borg Cube.²³⁷

1 Polaron Field Disruption (-): The Borg turn ends immediately. Do not move this Cube or draw a Command card for any remaining Cubes.

APPENDIX VII, SET UP OPTIONS

Since *Star Trek: Ascendancy* may be played on almost any surface it is impossible to give exact rules for the set up of Systems. The following examples are given as suggestions for how to create a fair and playable Playing Area.

Without the Borg a 3' x 3' (about 90 cm x 90 cm) area works well, with Home Systems placed such that each Home System is an equal distance from two other players and about 5 inches (about 12 cm) from the edge of the Playing Area.

Depending on what type of table you're playing on, distances between the Home Systems and table edges will vary. The important thing is for Home Systems to be about the same distance from each other and the table edge.

If you place your Home Systems closer together, you'll come into contact much faster, allowing earlier trading but creating more competition for new Systems. Placed farther apart, players will have more time to discover new worlds and develop their Factions before Connecting with the other players' Systems. Placing Home Systems too far apart will result in games with much less player interaction and may unbalance the game.

36" SQUARE PLAYING AREA WITH THE BORG

A 36" square area (the size of the official play mats) works well, with Home Systems placed such that each Home System is an equal distance from two other players and up to about 5" from the edge of the play area.

The Transwarp Hub is about 18" away from all players.

²³⁶ This rule was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 15. 2019).

²³⁷ This rule was officially clarified in an email (Email answer from Gareth Richards, Customer Services Team, Battlefront Miniatures NZ Ltd, Jul 15. 2019).

Square solo set up.

Three player square set up with about 31" between Home Systems

Square two player set up. Home Systems are 36" apart.

Four player square set up with about 26" between Home Systems

Five player square set up with about 20-22" (slightly asymmetrical) between Home Systems

Seven player square set up with about 15-16" (slightly asymmetrical) between Home Systems

Six player square set up with about 16-18" (slightly asymmetrical) between Home Systems

36" SQUARE PLAYING AREA WITHOUT THE BORG

A 36" square area (the size of the official play mats) works well, with Home Systems placed such that each Home System is an equal distance from two other players and up to about 5" from the edge of the play area.

Place Home Systems 18" apart. Consider limiting the space available behind Home Systems with lower player counts.

Three player square set up with 18" between Home Systems

Four player square set up with 18" between Home Systems

Six player square set up with about 18" (slightly asymmetrical) between Home Systems

Five player square set up with 18" between Home Systems

Seven player square set up with about 15-16" (slightly asymmetrical) between Home Systems

40" CIRCULAR PLAYING AREA WITH THE BORG

A 40" circular area works well, with Home Systems placed such that each Home System is an equal distance from two other players but always close to the edge of the play area.

The Transwarp Hub is always 18" away from all players.

Circular solo set up.

Three player circular set up with about 31" between Home Systems

Circular two player set up. Home Systems are 36" apart.

Four player circular set up with about 26" between Home Systems

Five player circular set up with about 22" between Home Systems

Seven player circular set up with about 16" between Home Systems

40" CIRCULAR PLAYING AREA WITHOUT THE BORG

With a 40" circular area, Home Systems are placed such that each Home System is an equal distance from two other players.

Place Home Systems 18" apart. Consider limiting the space available behind Home Systems with lower player counts so that there is never more than 5" distance to the edge of the play area.

Six player circular set up with about 18" between Home Systems

Three player circular set up with 18" between Home Systems

Four player circular set up with 18" between Home Systems

Six player circular set up with 18" between Home Systems

Five player circular set up with 18" between Home Systems

Seven player circular set up with about 16" between Home Systems

LARGE GAMES

If you have access to two play mats you may consider combining them for games with high player counts.

Six player double play mat set up with the Borg in the centre and 18" between some of the Home Systems

Seven player double play mat set up with the Borg in the centre and about 18" between most of the Home Systems

Here is an interesting variant. Set up the Transwarp Hub and the Conduits from the start of the game. Allow players to put their Home Systems anywhere, as long as they are at least 18" away from all other Home Systems

APPENDIX VIII. COMPLETE COMPONENT LIST

A complete set of Star Trek Ascendancy, including all games and supplements should include the following.

Game Boxes

- 1 Big Box from Star Trek:Ascendancy (2016)
- 1 Small Box from the Cardassian Union Expansion (2017)
- 1 Small Box from the Ferengi Alliance Expansion (2017)
- 1 Medium Box from Borg Assimilation (2017)

Rulebooks

- 1 Rulebook from Star Trek:Ascendancy (2016)
- 1 Rulebook from the Cardassian Union Expansion (2017)
- 1 Rulebook from the Ferengi Alliance Expansion (2017)
- 1 Rulebook from Borg Assimilation (2017)

Play Mats

- Star Trek:Ascendancy Play Mat (2016)
- Star Trek Ascendancy Battle Stations Map (2017)
- Star Trek:Ascendancy Borg Play Mat (2018)

System Discs

- 30 System discs from Star Trek:Ascendancy (2016):
Ardana, Argo, Capella, Cestus III, Dakala, Delta IV, Deneb V, Eagle Nebula, Earth, Excalbia, Exo III, Indri VIII, Izar, Janus VI, Kronos, McAllister Nebula, Murasaki 312, Neutron Star, Pulsar, Risa, Romulus, Rura Penthe, Sherman's Planet, Sigma Tama IV, Son'a Prime, Stellar Nursery, Tau Cygna V, Terra Nova, Valakis VI, Zeta Boötis III
- 10 Systems discs from the Cardassian Union Expansion (2017):
The Badlands, Bajor, The Briar Patch, Cardassia Prime, Coridan III, Goralis, Kurl, Magna Roma, Regulus V, Sigma Draconis
- 10 Systems discs from the Ferengi Alliance Expansion (2017):
Black Hole, Dopteris, Ferenginar, Hupyria, Lytasia, Mutara Nebula, Prexnak, Rog, Straleb Madena, Vlugta Asteroid Field
- 7 System discs from the Borg Assimilation Expansion (2017):
Argolis Cluster, Electroknetic Cloud, Ohniaka, Paulson Nebula, 2x Transwarp Conduit, Transwarp Hub

Command Consoles

- 1 Federation Command Console from Star Trek:Ascendancy (2016)
- 1 Klingon Command Console from Star Trek:Ascendancy (2016)
- 1 Romulan Command Console from Star Trek:Ascendancy (2016)
- 1 Cardassian Command Console from the Cardassian Union Expansion (2017)
- 1 Ferengi Command Console from the Ferengi Alliance Expansion (2017)
- 1 Borg Command Console Card from Borg Assimilation (2017)
- 1 Borg Cube Card from Borg Assimilation (2017)

Space Lane Tiles

- 30 four-Sector Space Lanes from Star Trek:Ascendancy (2016)
- 9 four-Sector Space Lanes from the Cardassian Union Expansion (2017)
- 9 four-Sector Space Lanes from the Ferengi Alliance Expansion (2017)
- 2 four-Sector Space Lanes from Borg Assimilation (2017)
- 30 three-Sector Space Lanes from Star Trek:Ascendancy (2016)
- 9 three-Sector Space Lanes from the Cardassian Union Expansion (2017)
- 9 three-Sector Space Lanes from the Ferengi Alliance Expansion (2017)
- 2 three-Sector Space Lanes from Borg Assimilation (2017)
- 30 two-Sector Space Lanes from Star Trek:Ascendancy (2016)
- 9 two-Sector Space Lanes from the Cardassian Union Expansion (2017)
- 9 two-Sector Space Lanes from the Ferengi Alliance Expansion (2017)
- 2 two-Sector Space Lanes from Borg Assimilation (2017)

Tokens

- 15 Ascendancy tokens from Star Trek:Ascendancy (2016)

- 5 Ascendancy tokens from the Cardassian Union Expansion (2017)
- 5 Ascendancy tokens from the Ferengi Alliance Expansion (2017)
- 30 Warp tokens from Star Trek:Ascendancy (2016)
- 10 Warp tokens from the Cardassian Union Expansion (2017)
- 10 Warp tokens from the Ferengi Alliance Expansion (2017)
- 3 Federation Starbase tokens from Star Trek:Ascendancy (2016)
- 3 Klingon Starbase tokens from Star Trek:Ascendancy (2016)
- 3 Romulan Starbase tokens from Star Trek:Ascendancy (2016)
- 3 Cardassian Starbase tokens from the Cardassian Union Expansion (2017)
- 3 Ferengi Starbase tokens from the Ferengi Alliance Expansion (2017)
- 44 Production tokens from Star Trek:Ascendancy (2016)
- 23 Production tokens from the Cardassian Union Expansion (2017)
- 23 Production tokens from the Ferengi Alliance Expansion (2017)
- 8 Production tokens from Borg Assimilation (2017)
- 40 Research tokens from Star Trek:Ascendancy (2016)
- 16 Research tokens from the Cardassian Union Expansion (2017)
- 16 Research tokens from the Ferengi Alliance Expansion (2017)
- 6 Research tokens from Borg Assimilation (2017)
- 20 Culture tokens from Star Trek:Ascendancy (2016)

- 9 Borg dice from Borg Assimilation (2017)
- 9 Federation Dice (2018)
- 10 Klingon Dice (2018)
- 9 Romulan Dice (2018)
- 9 Cardassian Dice (2018)
- 9 Ferengi Dice (2018)

APPENDIX IX, VERSION HISTORY

VERSION 1.4

Version 1.4 of the *Unofficial Complete Rulebook* was published in September 2019. It was originally intended to add the rules from the Andorian Empire and Vulcan High Command expansions, but the release of these was delayed again. Some preparations were made for their addition at a later date.

The set up rules were modified to be more flexible and a new appendix for set up options was added. The Trade Agreement rules were clarified. The Borg rules were updated and clarified. The main changes concern the Borg *Collective Efficiency*. Several new official answers to rules questions were incorporated, adapted and noted in the footnotes. Some optional rules were removed (and mostly folded into the set up rules) and others added. Some pictures were replaced with higher resolution versions.

Note that some rules numbers have changed from v1.3. The layout was adapted to allow for A4, A3 or LETTER sized printing.

VERSION 1.3

Version 1.3 of the Complete Rulebook was published in May 2018. It revised the Borg Activation and Movement rules

extensively [rules [15.2](#) and many sub cases, especially [15.2.4.1](#) and [15.3](#) and all sub cases], clarified a few other rules [[3.6.3](#), [15.4.1.1](#)] and added the solo and two player rules [rules [1.3.3](#), [2.1](#) and [16.4](#)].

VERSION 1.2

Version 1.2 of the Complete Rulebook was published in May 2018. It corrected a layout problem in v 1.1.

VERSION 1.1

Version 1.1 of the Complete Rulebook was published in May 2018. It corrected a few rules based on official answers [rules [6.1.5](#) and [15.4.3.2](#)], clarified a few rules from version 1.0 and revised the Borg movement rules [rule [15.3](#)]. The rules text of all Exploration cards and Phenomena was added. All defined words were hyper-linked to their definitions. The main text typeface was changed to Gill Sans.

VERSION 1.0

The first version of the Complete Rulebook was published in February 2018.

CREDITS

The collected credits for the original game and its expansions and supplements:

"A balance of power — the trickiest, most difficult, dirtiest game of them all, but the only one that preserves both sides."

The Carina Nebula (catalogued as NGC 3372; also known as the Grand Nebula, Great Nebula in Carina, or Eta Carinae Nebula) is a large, complex area of bright and dark nebulosity in the constellation Carina, and is located in the Carina-Sagittarius Arm. The nebula lies at an estimated distance between 6,500 and 10,000 light-years from Earth.
